## **Cnevin says**

Writer's Market is probably best suited for people considering writing and pitching non-fiction books, rather than freelancers seeking out lucrative publications for short-form journalism and non-fiction. When it comes to books, there is a wealth of detail in the 'Book Publishers' section, including key contacts and how to contact them.

The guide also has good tips for writing query letters, although any published freelance writer will have mastered these techniques early on.

The 'Consumer Magazines' and 'Trade Journals' sections of the book are a little skimpy. There are a few nuggets here and there, but many of the publications listed pay \$0.10 to \$0.25 a word, which is just not enough for any working writer.

However, there are some fairly unknown magazines and journals listed in here, so if you, say, publish an article that pays \$1.00 a word for a reasonable amount of effort, there will be some ROI on the purchase of this book.

That said, it seems that I myself will continue to search out niche publications that pay the rate I need to earn as a writer.
