## Big Daddy Ava Sinclair

Max Iver is not only rich, powerful, and ridiculously sexy, he is also my company's newest client... and last night I got really, really drunk and shared my darkest secret with him.

I told him I need a daddy, and now he's going to give me what I need, whether I like it or not.

He's going to be my daddy. He's going to take care of me, make rules for me, and spank me when I disobey. And though I'm terrified to admit it, deep down I know that soon I'm going to be begging for him to strip me bare and teach me what happens to bad little girls.

**Publisher's Note:** *Big Daddy* is a stand-alone novel which is the first book in the *Dark Daddy Doms* series. It includes spankings and sexual scenes. If such material offends you, please don't buy this book.

WHAT DO I WANT? TO BE TAKEN CARE OF.

Once again, Ms. Ava Sinclair spins a beautiful tale of hope, redemption, and new beginnings for a lost young woman who was cheated out of a happy childhood. The story has a great cast of characters, plenty of angst, secrets, revelations, honest conversations, and a chance for a happy future.

Jill Stafford is her own worst enemy and guilty of self-sabotage and heading down the path of her mother by over-drinking and blacking out. She has lost several jobs but seems to be doing well where she is at until a client isn't happy and she storms out of a meeting in a snit.

Max Ivers is a self-made businessman. Having excelled in football, earning himself his college scholarships, and then going to the pros until an injury ending his career. Being a wise man, he studied business and invested well, and now has his own investment firm. When it comes to his personal life, he is secretive and aloof.

The plot will have Max at Brinkman Ad agency where Jill is to present an ad campaign for his business. But he doesn't like what he sees and states he hates it, and Jill leaves the meeting in a tiff. Before she is escorted off the property, he tells her to check her phone. It seems in her latest drunken stupor, they had an encounter, and now he has a new offer for her.

Jill finds herself without a job, and now her friend is over her latest reckless behavior and kicking her out. When Max offers her a new lease on life, will she take it? Can she submit to his Daddy Dom persona and discipline? He has it all recorded that she asks him to be her Daddy, and now that is exactly what he wants to do.

"Just as I feared, I lose it, my sobs becoming infantile bawls. They are the cries of a helpless little girl, a bad little girl finally getting the spanking she had coming for so many years. They are also the cry of a woman who's hit rock bottom, a woman who knows she can't fix what's wrong on her own."

"Warmth washes over me. I feel the lure of what he's offering. Protection. Safety. He's not asking me if I want it. He's taking it out of my hands."

"Who do you belong to? Who takes care of you, protects you? Who keeps you safe?"

The story is a Daddy Dom little girl tale of dominance and submission. It is a journey of two people into a D/s lifestyle of trust, nurturing, control, and healing, not just for Jill, but also for Max. There are some spankings and explicit sex scenes.

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

This is a good book by Ava Sinclair,,, I have not been disappointed in her work yet,,,

This is a story about Jill,,, Jill is kinda a screw up,,, she likes to party and lay around and as she does this,,, her best friend and roommate Becky has NOT been impressed with Jill as of recently,,, she can't seem to hold a job, as then that leaves the responsibility for the bills onto Becky,, until Jill gets another job and starts paying her share again,,, she has been warned by Becky that if she loses another job, this whole roommate thing is done,,, Becky can't afford to let Jill skate again,,,,,

Max Inger is a man of action,,, he's an Alpha male with lots of money,,, and he wants to help Jill,,, he tells Jill that he's going to help move Jill into his penthouse and tells her,, his house, his rules and if these don't work for her,,, tough,,, she literally has no where else to go,,, so,,, of course Jill, being Jill, has to test him on this,,, he finds her at home, she has already broken the rules and was about to do one more time, when he walks thru the door,,, and then the punishments begin,, and after they begin,,, she finds out she REALLY kinda likes the punishments,,, now, if she can get him to finish the punishment for her pleasure, she wouldn't mind that, at a bit, actually she would be very grateful and appreciative if he would,,, but,, of course,, these are HIS rules,,,

I really rather enjoyed this book,,, I think Ava Sinclair is an amazing author and I'm happy that I have found a new author,, and in my opinion, you should maybe go out and one click this one,,,

## **Badh says**

Ava Sinclair has written several books that I have read and reread. for me, that's a huge compliment. This one isn't one that I've reread, but that's a yet, not a never will.

Jill is a young woman who has had lots of issues. She's lost jobs and is on the verge of losing her living situation. She drinks way too much and then parties too hard and doesn't remember what she did. Right now, she's looking forward to a huge presentation that she's been working on at her job.

Max Iver is a businessman who came into the advertising agency where Jill works. He hired the agency to do a new ad campaign for his company. He wanted something that would attract young people. So, when he saw an ad that seemed to be a plea for a daddy, he turned it down. Jill, who had been working on it, went crazy,

started screaming and yelling, and walked out.

This is when Jill's life really starts to fall apart.

I really liked this story. Max takes really good care of Jill, not only loving her, but he also teaches her and pushes her to do better. I liked that. He has his own secrets and demons and Jill helped him to fight those and to become better too. That's one of my favorite things in any story, when the main characters push each other to become better, not just one of them pushing the other. A real relationship works that way and for a story to portray that really makes me enjoy the story and believe in that relationship even more.

### **Janine - The World Was Hers for the Reading says**

Jillian Stafford does not have her life together. She parties too much, has a roommate that is about down dealing with the fact she acts as Jill's babysitter at times and can't hold down a job. But, all that is going to change, as long as Jill can give herself a hard reset after her last black-out bender and nail her advertising presentation for the Iver group.

When Max Iver finds himself facing a very drunk Jill at a private club, his protective instincts are kicked into high gear. When the alcohol has her spilling her deepest and darkest desires to him, he knows immediately what she needs. He also knows he is the man to give it to her.

When Jill's presentation crashes and she finds herself jobless and homeless, she has no choice but to accept the offer being extended by the man who took care of her when she blacked out last weekend. Max knows she needs and wants a Daddy and he is more than willing to fill that role for her as a dominant. Will Jill be able to accept herself and give in to what she needs to be successful? Will Max be able to accept all that Jill has to offer him or will his dominant ways be too much for her to handle?

Big Daddy was an unexpected surprise. I figured it would be a bit dark, fun and flirty. I was happily surprised by the depth of both the plot and characters. Both Jill and Max come from rotten childhoods and it was interesting to see how they both shaped them into the people they are today. Both have Daddy issues and this unique set of circumstances really allows for them to fill a need they are both missing for one another. The story is fast moving and has a very satisfying ending. 4 stars!

Amount of sex 3.5 / 5

How explicit 4 / 5

Story 4.5 / 5

Overall: 4.5 / 5 (Rounded to 5 / 5)

Big Daddy is a delicious daddy dom romance from author Ava Sinclair. Most books portray this type of age play for fetish purposes only, which I adore. However, I absolutely love how Ms. Sinclair wrote Max and Jill's scenes with fetish desires as well as adding the element of need.

When the book begins, Jill wakes up after a night of hard drinking. She realizes that she blacked out and doesn't remember the night before. Sadly, this is not the first time it has happened, and it results in some big consequence. Jill grew up with an alcoholic mother and a father who left when she was 4 years old. She is an adult now but is making a lot of poor decisions and on the path to being like her mom. Max is a wealthy businessman who is retired from playing football. After witnessing Jill drunk and making a fool of herself, Max decides to offer her a deal. Will she take his offer?

A definite add to your TBR list!

### **1.5 Stars**

I didn't really like this book. Since reading my last DD/lg book, I have been doing a lot of research on the topic and this book did not portray the kink in a good lighting. It made the book highly not enjoyable and I am honestly surprised I finished it.

**Jill-** I felt bad for Jill. She grew up in an unhealthy environment and she was struggling to make it through life. At the beginning of this book, she is a borderline alcoholic and masking her pain by drinking. I liked her as a character and I am glad that she learned to take responsibility for her actions and found someone that truly cared about her.

**Max-** Max was my main problem with this book. As mentioned above, I have recently spent some time trying to educate myself on DD/lg and the power exchange that comes with it. With all of this research, I have learned when the Daddy Dom is abusing his power and I felt like Max was. He manipulated Jill into doing things, neglected to make her feel safe, and he would make her feel guilty when she questioned things. This is not a healthy DD/lg relationship and it severely took away from my enjoyment of the book.

**What I Liked-** I liked the message that the author was trying to send as far as Jill's background and as far as the progression of her character goes. That's about it.

**What I Didn't Like-** I didn't like Max (as mentioned above) and I did not like how he treated Jill. I also didn't really like the progression of their story and I felt like it was entirely too rushed and almost came off insta-lovey.

Overall, this was just not the book for me.

Ooooh! I really like this book. Like, finished as soon as possible, loved the book! Being my first book by this author, i wasn't sure what to expect so i went in hoping for everything and nothing, and i'm so glad i did because it drew me in like nobody's business.

So let's get the awkward part out in the open: yes, these characters have Daddy issues. Yes, Jill has always wanted a Daddy and Max is more than happy to provide the father figure for her. But their relationship was so much more than that. It was about providing stability, helping with growth, support and being able to deal with situations differently in a positive way. This author managed to convey a beautiful story albeit the hold ups that many i'm sure will have, but you know what? It's a very good outlook on what this type of relationship is all about. I enjoyed watching these two grow together and see how they made each other better. I'm quite sure that this won't be my last book by this author and i truly look forward to reading more from her in the future.

## **Lady Elizabeth says**

Not my first rodeo with Ava Sinclair books and I have to admit I'm happy because she keep getting better and better.

Jillian is a damaged girl with a sad past. Alcoholic mother, absent father and having to cope with all that... let's just say she didn't cope in a healthy way. I felt sympathy for her at some points and I was even angry at some of the people around her but I sat down and saw the complete picture, just like Max made her see. I really liked her character, although a little strange because she was in the middle of her recovery when she found some strength to push Max.

Max is a damaged boy with a broken past. Mother died, father send him away and then betrayed him. He had to learn to live on his own, not depending on anybody. It takes a toll on some bodies soul to live like that, but he made it. He's rich and successful and he wants Jillian.

I have to admit I think Ava Sinclair did a lovely job with the story line of this book. I believe that I would not have liked it so much if she didn't dig into the characters backgrounds like she did and show me a realistic, relatable person on the page. I can add to this that I have a fondness for D/s lifestyle characters and this fits for me.

That being said, it was a little too fantastic. From the way they meet until the end, there was a little mist of something that kept reminding me that this was a fantasy, not reality. I do read to escape life but I also like to read characters that I could kind of see in real life. Weird, but that's me.

A beautiful story of healing from wounded children.

Jill Stafford's father walked out on her and her mother when she was four. Her mother was an alcoholic and didn't give Jill loving attention, except in the kitchen where both loved to cook. Jill put herself through college, but has trouble keeping a job. Her current position is a advertising executive where she is in charge of the ad campaign for Max Iver's company.

Max Iver is a wealthy ex-pro football player. He built a financial company that is doing extremely well. He rejected her campaign saying the younger character was looking for his daddy. Jill has a tantrum and is fired. Max tries to save her job, but it is too late.

The weekend before, Max had picked Jill up after she showed up at his private club drunk. He filmed an interview with her where he exposed her childhood neglect. She triggered his daddy dom, and he must have her.

Jobless Jill is kicked out of the apartment she shared with her college roommate. Max texts her sending half

of the video and telling her to come to his penthouse. He offers to help her financially and take over life to help her become stronger. He helps her explore her interest in photography, hires a French tutor, and buys her high fashion clothes --- though some are for a pre-teen.

Jill falls in love with Daddy Max, but knows nothing of his past, which makes her insecure. As Jill investigates the mystery of Max, she finds she can heal him as well.

Ava Sinclair titillates once again in BIG DADDY!

### THE STORY

Jill Stafford's life is on a downward spiral...she parties too much, and is on a path of self-destruction with no end in sight until a drunken encounter with a mesmerizing stranger at an exclusive private club ends up changing the trajectory of her world!

Turns out that in her drunken stupor at Serrano's, she spilled her deepest darkest secrets, including her desires to have a Daddy, but she does not remember a thing because she blacked out! Once the hangover wears off, Jill vows to focus on her big pitch at the Brinkman Ad agency where she works because it's her last chance to advance in her job, and pay her share of the rent so her fed up roommate won't kick her to the curb. But unfortunately the high profile client, Max Ivers, is less than impressed with her presentation, and it bombs! And she does **NOT** take the news well.

After Jill is promptly fired for her unprofessional conduct, and Max tries unsuccessfully to salvage her job, he sends her a video recording, which to her horror and consternation, reveals **HE** was the man she drunkenly bared her soul to at the club—before bringing her home and tucking her safely into bed. He summons her to his ritzy penthouse suite, telling her it's clear that she needs structure and stability—not to mention a stern, loving daddy to care for her—and he is more than up for the job! At first she irately turns his tempting offer down, but once she finds herself homeless she is forced to reconsider. Will Jill be able to submit to this devastatingly handsome dominant's special brand of TLC or will she finally hit rock bottom?

### MY THOUGHTS:

Ooooh! I just love Ava's Sinclair hot, sexy and evocative dd/lg tale about a young troubled woman, with Daddy issues, and the formidable Alpha who has the perfect remedy! BIG DADDY is a fast paced, uber addictive read that captivated me from start to finish! As always Ms. Sinclair delivers on the steam and kink but this book goes far beyond your typical erotica tale. It's a powerfully emotional, deeply nuanced story about a man and woman's journey into dominance and submission, which is rife with emotional tenderness, nurturing and soul deep healing.

There is plenty of palpable push-pull, delicious tension and panty melting spankings throughout as Jill tests Max's boundaries and he pushes right back. **HARD.** All I can say is ouch!

The multi-faceted character development of this story is top notch. OMG! Max is so delicious! This ex-pro football player turned millionaire ad exec is a rich and powerful, dominantly sexy, **ALL-ALPHA** male with big, linebacker- broad shoulders and mesmerizing hazel eyes that can bring any woman to her knees! But there is just one woman this enigmatic tycoon wants. Jill. He thrives on authority and control and has strict rules that must be followed—daddy's rules—that are in place for Jill's benefit or she will face daddy's consequences!!

I love the bond that gradually develops between this strong, protective Daddy Dom and his cherished little girl, too profoundly broken souls who need each other more than they could ever imagine!

Max and Jill have both had rotten childhoods and find kindred spirits in one another but trust does not come easy for either of them. But despite his hard-edged persona, Max never takes for granted the beauty of her submission. His devotion and infinite patience toward getting her on the road to a better life is deeply touching! He teaches a woefully insecure Jill to see herself through his adoring eyes—as a special, lovable little girl on the inside, and a beautiful, strong and vivacious woman on the outside. And in the process she helps banish the demons that lurk behind his cool, detached facade and brightens the dark corners of his world.

As we have come to expect from this seasoned erotica author, there are also not plenty of **FILTHY HOT INTERLUDES** guaranteed to leave you squirming in delight! Believe me you will need a cold shower after some of those titillating encounters! And I found the HEA achingly beautiful and profoundly touching!

#### **FINAL THOUGHTS:**

**BIG DADDY** dazzled big-time! I think the author did a spectacular job of intertwining the scorching sensuality with the searing emotion in this scintillating tale, and it made for a highly satisfying read that left me with a happy afterglow!

---

#### **Samm Lynn says**

4.5 stars

I received a copy from the author and I voluntarily reviewed this book.

It's a well told tale of a girl that admits her deepest, darkest secret while totally obliterated and doesn't remember doing it. Jill has many past issues and struggles to cope with day to day life. Max was the recipient of the deepest, darkest secret and when Jill really screws up, Max steps in to help her try to straighten out her life.

At first these two struggle - one trying to help and the other still trying to rebel but slowly the relationship changes. Max's past comes back to pay a visit and add a little extra tension to the story. There are spankings and sexual scenes but the story is more than the titillation, as it shows the growth of a girl with a trouble past and a man still running from his and her assistance with bringing closure to his past.

It's a really good story but my favorite Ava Sinclair is still Big Beautiful Little.

## **Rose Howse says**

The story starts off with Jill waking up in her bed with no memory of how she got there, not knowing who could have folded her jacket and tucked her shoes away.

Jill goes to work on Monday to give her presentation to a client her company wants to win an advertising contract with. She didn't get what the client wanted and when told that, she loses her cool and stomps off. Jill is fired. Now, suddenly she is confronted from all sides, her room mate/friend is at the end of her patience with Jill and a man she hardly knows, reveals all that he actually does know about her!

Jill is faced with a proposition from the man and leaves him to think about the options he has given her. Jill goes home and her room mate tells her she must leave by tomorrow! Thus starts a whole new life and many lessons to learn from the dominant Daddy figure. Nothing in life is easy, but Jill must learn to give what she must in order to take what she needs.

I loved the relationship and affection, true caring that Jill is getting to experience with her Daddy, while learning that she does deserve love and affection.

Max, as her Daddy, is all you could wish for, he is what a woman's fantasies are all about.

If you like reading about a loving caretaker Daddy and a woman in need of nurturing from said man, then this is the book for you!

## **April Symes says**

Ava writes Daddy Dom books perfectly and Big Daddy showcases this. Reason I say this is the story is well written, it has great character chemistry and a fabulous plot that had me engaged from the first page until the very end. There were so many emotions that ran thru this story; it was literally an emotional rollercoaster. I was feeling uncertain, sad, fear, betrayal, excitement, passion, and love. I literally was on the edge of my seat with all the feelings this story brought forth. Jill and Max make a great couple and I felt the chemistry between this from the start. Max is an alpha male but he is an alpha male with a heart. I loved how Dom he was and the fact he was the man who knew what Jill needed. If you like Daddy Dom stories, then you will love this one for I highly recommend this book.

My Rating: 4.5 stars \*\*\*\*\*

"I received an advanced copy of this book from the author at no cost to me."
