Bombshell C.D. Reiss

From *New York Times* bestselling author CD Reiss, a standalone romance about a nanny, a Hollywood star, and a love they never expected.

Hollywood bad boy Brad Sinclair always gets his way, whether it's the role he wants or the bikini-clad model he has to have. But when a bombshell gets dropped in his lap in the form of a dimpled five-year-old from a forgotten relationship, he knows his life is about to change forever.

Cara DuMont isn't exactly thrilled when she gets assigned to be the nanny for the latest box-office king. She has one rule: no celebrity fathers, especially single ones with devilish good looks and rock-hard abs.

But as soon as Cara meets Brad and his adorable little girl, she knows she's in for a world of trouble. Because there's something about the way Brad looks at her that makes her believe that some rules are meant to be broken...

I love Hollywood love stories!!! I know....GROUPIE!!! Which girl hasn't dreamt about meeting a famous and gorgeous movie star who falls in love with her and they live HEA.....oh hell....I'm one of those girls!!!! So, it goes without saying that the story of a famous movie star falling in love with his daughter's nanny was just up my "alley"!!!!

I enjoyed the plot and the writing.]

The characters are likeable and engaging....especially the movie star's little daughter.....she's totally adorable.

Some might say that it's a bit unbelievable....Hollywood stars are mostly not so nice....etc etc...but, hey, this is fiction where anything is possible!!!

This was such a sweet and enjoyable read - if you like Hollywood HEA.....then this book is for you! I noticed that this is the 1st book in the Hollywood A-List Series.....so, some more Hollywood HEA.....

A standalone romance about a Nanny, a Hollywood star, and a love they never expected. Bombshell by CD Reiss is the first instalment in the Hollywood A-List series and is spoken in 'Dual Perspectives. In this instalment we meet Hollywood elite bad boy Brad Sinclair, his nanny Cara DuMont, her best friend Blakely and the most adorable five year old you could ever wish to read about. ***You zip it..Lock it..Put it in your pocket.***

Hollywood bad boy Brad Sinclair unbeknown to him six years before he became famous had a brief fling which resulted in a child which he didn't know about. Brad had been contacted as next of kin as his name was on the deceased mother's birth certificate as being the father of her child, the mother had died suddenly in a freeway accident. Life as the party goer was going to change in the blink of an eye.

Cara unexpectedly became this little girl Nicole's nanny by default for a month until a more suitable child minder could be found. She was used to working alongside celebrities and actors.

A slow burn is lit under Brad and Cara which slowly ignites into a roaring out of control fire, even though they both tried to fight their attraction as much as they could once lit it wouldn't go out.

I wanted a real home. A stable person to spend my life with, and they were in short supply. I hadn't given up; I'd just stopped looking for a man.

This guy could ruin me. He had all the tools to do it. He was gorgeous and laid-back. He listened when I spoke and had a daughter who was just about perfect.

What I enjoyed about this was the lack of angst, drama, it was just a straightforward romance which made it so much more believable, there was no sugar coating of the story which for me was like a breath of fresh air. I loved the whole glitz and glamour of this story, the unique first meet between them had me loving this story from the get go..

► Somewhere around 3.5 stars... I loved parts of this book and it was, overall, a pretty enjoyable read. If you're a fan of "celebrity falls for a regular girl" trope or a "single dad falls for a nanny trope", then by all mean, do give this one a shot!

► Brad, the hero is a famous movie star, who finds himself in a bit of a pickle. You see, a little girl unexpectedly comes into his life. His daughter lost her mother and now needs him to step up and be a dad. Slight problem, though. Brad is a notorious party boy and doesn't exactly qualify to be a parent. But he's determined to try. First thing: get a nanny.

► And this is where the heroine of the story comes in. A professional nanny who is able to connect with his daughter and make Brad's life easier. Or harder. Which one is it? It's complicated, ok?

► I enjoyed all parts of the book, especially the ending. It was touching and played on my emotions for sure. What didn't quite work for me was the insta-lust. Even though this book is pretty slow burn, these two main characters start having perverted thoughts the second they see each other. I would have preferred a little bit more interaction between them and more of a gradual relationship progression. I don't know, something just didn't quite work for me. It happens.

► The little girl was adorable and I'm sure will steal the hearts of so many readers. I did, however, think that she warmed up to the hero and the heroine way too fast. She made it so easy for them, especially her dad. He started out pretty much as a stranger to her and I just felt like there needed to be some bonding scenes between just him and her. I wished for a gradual buildup of their relationship here too.

► Overall, an enjoyable book and is recommended to those who like reading book about famous people falling for us regular folk. :)

STORY OVERVIEW AND REVIEW:

Hollywood actor Chad Sinclair doesn't know how to take care of a child, let alone a *daughter*, but when his five-year-old daughter from a long-forgotten marriage comes to live with him, he has no choice but to learn. First on the agenda—hire a nanny.

Cara DuMont has been a nanny for the children of the rich and elite in Hollywood, and she's great at it. Her only preference in choosing her employers—no celebrities. She knows the risks of working for a celebrity, and she has no time for wandering hands and snooping tabloids. When her best friend asks for her help in fixing a poopy disaster in the agency bathroom involving a hysterical five-year-old, Cara finds herself becoming Chad Sinclair's top choice as his daughter's nanny.

She refuses at first, of course. But she knows the guy needs help, and Nicole is an angel, so she'll do it temporarily, at least until Chad finds a replacement for her. But with each day she spends at the Sinclair abode, not only does she fall in love with the beautiful little girl, she's starting to fall for the Hollywood big shot, too. And she doesn't know if all the trouble and drama that comes with falling for a celebrity is worth it.

I like that Chad didn't automatically switch from total Hollywood bad boy to doting father the moment Nicole came into his life. I know that sounds bad, but hear me out. Chad's a guy who's used to partying and having fun while working hard as an actor. He never imagined he'd have a child—no matter how adorable she is—dropped in his lap out of nowhere at this stage in his life, so it's not like he'll jump for joy for it. It showed his character growth when he was finally opening up and trying, *really* trying, to be a good and active father for Nicole.

The guy made some pretty bad decisions, some I hated. He hid some things from Cara out of selfishness, and he was pretty self-centered at the start of the story. But like I've said, the guy had a lot of growing up to do in this story.

I like Cara's relationship with Nicole. She was a solid and caring person, if not a little distant at first. She knows what it's like to be disregarded, to not be the priority of her parents, so she wants to do her best to make the kids she's taking care of don't feel that way. She knows she shouldn't be with Chad, and although she resisted at first, she just couldn't resist. It frustrated me at times, but oh well.

I would have wanted to see more interactions between Chad and Cara to show the progress of their emotional attachment, but most of their conversations and interactions merely highlighted the growing

physical attraction they have for each other. Their feelings went beyond that, of course, but I just didn't see that as much as I would have liked. That's why I'm rating the story 3.5 stars.

WHAT DID YOU LIKE ABOUT THE AUDIOBOOK?

First of all, Christian Fox sounds like Chris Evans. Is it just me? Am I the only one who thinks so??? The first time I heard that man speaking, my heart skipped a beat. Both Christian and Andi Arnt—my favorite female narrator—were amazing in their portrayals of the lead characters and the supporting characters. After listening to this audiobook, I bought other audiobooks narrated by Christian Fox. I have a crush. Haha! And all that dirty talk. My ears still feel hot haha!

Andi's voice was soothing and pleasant to listen to and it was just what I imagined as Cara's voice. I could tell when she was reading a different character's line (a problem I've had in other audiobooks I've read), and I could feel the emotions seeping through my earphones.

For me, their performance was a solid 5 stars.

WOULD YOU RECOMMEND THIS AUDIOBOOK TO A FRIEND? IF SO, WHY?

Yes. It wasn't my favorite Hollywood book, but it's still pretty entertaining and hot, especially Christian's parts. Plus, Andi and Christian performed so wonderfully in this one that I think you should still give it a try.

**She had to know who I was. She had to see me because I'd opened myself to her. I hadn't opened up to

of my heart.**

Fans of romances involving a single father are really going to enjoy this book and I'm positive that **BOMBSHELL** is going to be another huge hit for C.D. Reiss. The hero in this one is a drop dead gorgeous Hollywood A-List actor who can melt the panties off of any woman with just a wink and a dimpled grin. Brad Sinclair will have many a reader fanning themselves over his sexy filthy talking prowess and swooning over the tenderness he showers over his little five-year-old daughter, Nicole.

Brad Sinclair is one of the most sought-after Hollywood actors and he's just recently been given the surprise of his life when he is told that he has a five-year-old daughter that he never even knew existed. If her mother hadn't passed away, he never would have known that he was a father. Brad is in way over his head and so he is in search of a Nanny that can help take care of Nicole while he's out filming movies.

Cara Dumont recently lost a job as a nanny for a couple of kids she really loved. There was absolutely nothing going on between Cara and her boss but for whatever reason, his fiancé felt threatened which ultimately led to her job's termination. Cara ends up meeting Brad's little girl during a highly upsetting situation and she seems to be the only person that has a calming effect on Nicole, and Brad becomes more than determined to hire Cara as his daughter's Nanny. The only problem is that Cara's friend was applying for that job and she actually has no desire whatsoever to work for a Hollywood celebrity. She's seen how things can go wrong in those situations and never wants to end up on the pages of any gossip magazines, being labeled a "homewrecker" or a "whore". But Brad Sinclair always gets his way and whatever he and his daughter wants, they surely get.

Cara agrees to stay on as a temporary Nanny. She knows she is in serious trouble when she can't seem to control her naughty daydreams that all showcase her current boss, and she's not the only one having impure thoughts. Brad is also wildly attracted to Cara as well, however, his bad boy behavior and reputation help to keep Cara's defenses up. There's also the fact that she takes her job as a Nanny very seriously and always puts the welfare and happiness of the child she is caring for over any kind of wants or desires that she may have for herself.

As Cara becomes more enmeshed in Brad's life, lines are being crossed and soon they are giving into the white hot passion that has been building between them. C.D. Reiss delivers her signature sinfully decadent steam that her fans have come to love about her stories! I needed many a moment to cool myself off!!

5 "Teacup" Stars

Sweet, Funny, Sexy, Romance.....this book had it all. It was a perfect love story that made me smile, laugh, sigh and gave me a wonderful HEA!! (The epilogue was absolutely perfect)

Brad Sinclair, Hollywood Bad Boy, gets a shock when he finds out he's a father to a 5 yr old. He can barely take care of himself so he needs to get himself a nanny. Enter Cara DuMont, nanny extraordinaire, but who doesn't nanny to celebrity single dads. But when Cara meets Brad and his Bombshell, Nicole, she knows that her life may never ever be the same.

I would like to say that Nicole stole the story for me. She was adorable, spunky, sweet, and sassy extraordinaire. Her interactions between Brad and Cara were endearing. And most importantly, Cara was a lifesaver in poor little Nicole's world that was thrown completely upside down. Cara was also the tether between Brad and Nicole that created calm and safely. But Brad and Nicole were also lifesaving for Cara. The three of them connected in the most touching of ways.

Brad and Cara started their relationship platonically. While they each felt a spark, boundaries were set and they created a friendship first. They respected one another and saw the realness in one another. It was a sweet courtship in a sea of "Celebrity Dad" and "Beautiful Nanny" craziness. Brad also returned to his home with Nicole and Cara in Arkansas and let life play out there for awhile. His family, his friends all enhanced the story. Everybody's past shapes them and sometimes going home, to a place of safety helps to clear the mind and figure out what's important in your life.

This book was an adorable love story with a perfect side of sexy. I would recommend for anyone who loves romance, humor and a sweet sassy 5 yr old. A story that will leave you smiling for days because -Dreams Do Come True Teacup ♥?♥?

5 "I can't stop thinking about this book" stars

Absolutely excellent. I wasn't even planning on reading this book because I'm not really into heroes that are Hollywood stars! But I got an early copy and I thought I would take a peek at it, and that peek turned into the ENTIRE book read in a day(ish)! It's amazing. Also, have I mentioned how impeccable C.D. Reiss writes in previous reviews? If not, I have to say it again. There is NO ONE who writes quite like her. It's so crisp and fluid and direct. Her words and her lines are just so damn direct. There's a realism to her books that I don't think you can find in many other romance fiction novels. I was reading this and I just felt like I was transplanted in LA, in Hollywood, with these characters and it felt like current day, real life. I am so impressed by her. Really... I have such a fucking crush on the way she tells a story. There is no doubt that this writer knows how to write a good book, and *Bombshell* was thoroughly engrossing. Full review to come.

Corina BookTwinsReviews says

4.5 stars

Even so I have read other nanny-employer books – *Bombshell* (Hollywood A-List #1) by C.D. Reiss tackled the trope in a very refreshing way.

L.A., celebrities, nannies – the topic is as real as the book depicts it. Trust me I speak from experience. It's as over the top, as extravagant and as ludicrous as described. I think that's why I had SO MUCH FUN reading this book. Because it was so entirely true.

Bombshell had me cracking up!!!

I loved the unique approach, and the slow burn that slowly turned into an inferno. Cara DuMont took her job seriously but she also realized the attraction that she felt towards her employer wouldn't just dissipate. And Brad Sinclair acknowledged that he liked the looks of his nanny but he didn't intent to do anything about it. They both had genuinely good intention of not letting it grow into something complicated. And kept it professional until one fateful night.

I really liked that they fought their attraction and tried to keep it professional – until they buckled under the weight of their lust for each other and sexual frustration.

Brad Sinclair was wonderfully delicious, straight forward, a bit overwhelmed with his newest responsibility but also genuine in his feelings toward fatherhood.

Cara DuMont, a wonderful nanny and a level-headed, down to earth kind of women, told it how she saw it. She's seen and heard everything by then, experienced all kinds of arrangements and situations that were a norm in celebrity families – nothing could faze her anymore.

I loved Brad and Cara's genuine connection, it wasn't all physical. They bonded over Brad's daughter, presented an united front, and weathered ups and downs like grownups – ok plus a little drama. ?

Bombshell was absolutely a ‘my kind’ of story.

I was grinning, chuckling and laughing out loud. I was shaking my head and grinning from ear to ear – all in all I had a fabulous time.

This novel was everything I could have hoped for in a book — a TOP FAVORITE and an immediate recommendation!!

Even so this book is the first book in a new series called Hollywood A-List – the characters from ShutterGirl (The Hollywood Project, #1) made an appearance – and if you liked ShutterGirl as much as I did you will love Bombshell without a doubt.

I’m coming straight out and say I LOVE this series. And I can’t wait to read more about Hollywood A-List!! Bring it ON!!

5 The Gift That Keeps On Giving Stars

*** * * * * *Spoiler Free IT'S LIVE!!!!***

Over the past years, I have read many gifted authors. We all have...and we all think we have a handle on exactly what we will get when we purchase their works. There is a comfort and excitement in a new work...Comfort because we are back in the hands of someone we know who will give us a story which will take us places we either wish to return if it is a series...or a new undiscovered arena which causes all sorts of anticipation. We know we can trust these authors and give them the time they and their works deserve.

We also have authors who astound us. They have the ability to push boundaries... to make us confront situations on paper we would not be inclined to in real life. They take us not by the hand but sometimes by the throat and force us to see things and experience them so deeply...we must catch our breath as we read.

And then there are the very few...the ones who can do it all...Give you whatever you are looking for in their vast array of works....the Dark/The Romantic/The Erotic the combination of all... and then the more Contemporary Romantic...but still with the authentic, consistent style of the author...

Which leads me to C.D. Reiss....

I know I have touched on this before... but with this new book **Bombshell**, I really wanted to focus on what I found so truly amazing about it.

This could easily have been classified any number of ways... *"The Forbidden Father/ Nanny Scenario" or the "He is a Star and I am Just Me Deal" ...or the "Throw it All Together with a Cute Kid just for the Awe Factor..."*

But Don't Do That...

Because you will have missed everything that this was all about and how artfully it was done.

Very few authors work other characters from past works in as well as Reiss. Reiss takes the location she lives and breaths...the life and times she knows completely from her own life and ones she has created...and weaves them in so subtly, if you are not an avid reader, you will miss the nods. She has been doing this from the first books I have read of hers... and continues to work this magic into almost everything she writes.

Bombshell's blurb gives a very accurate, simple description... and basically that is the story...

But the way C.D. Reiss takes what could have been run of the mill and makes it so layered...so much of an Insider's Truth to this Lifestyle of the Hollywood Elite...it takes the premise to a whole other level.

She takes everything you have been reading/watching over the years... all the Grocery Rags; The Enquirer, Star, TMZ, Entertainment Tonight, etc...and breaks it open...She gives you a man who is complicated but also so human...A man who had been manipulated and also allowed it because of his driving ambition...

This man has his life change overnight. The only person he can see who is able to make his heart stop having panic attacks and feel as if he could do this monumental task is this woman who wants nothing to do with him.

And this "Wonder Woman"...she is immediately lovable to the reader...We adore her right away. She is smart, so witty.

(The only thing I will share specifically about this book is my delight in the opening scenes...Never have I read anything that felt so real, hysterical and perfect...It brought back to so many personal memories of my Motherhood years, tears were running down my face from laughter)

She is also a good friend to another woman who has made the Ultimate Nanny Mistake.

Oh, what mistake is that you ask....Well, it is when the *"AssHat High Profile Father of the Kids the Nanny is in charge of...makes the play and pretends he loves her, Beds her, Tells Her he is leaving the wife and they GET CAUGHT Mistake. "*

Yeah... That One.

So we have our Amazing Gal...the Hollywood Super Star Talent and then to make things too good to be true...

The Daughter....

This Kid Is EVERYTHING....Not Too Sweet, Not a Brat, She is Human and Real... and Brilliant. I want her. No, I Cannot Have her and Neither Can You... Because she is C.D.'s.

But We Can All Love Her.

So, this book has it all but more... it has an edge the Forbidden Readers will gobble up...

It has the Romance and Erotic Chemistry which will set the Kindles on fire....

Balanced with all of the additional plot points which will make you want to read this till the very end. The Heart Factor is through the roof because when you experience the kind of moments that are part of this book, I dare you to not feel anything.

EVERYTHING WORKS.

OK I'm done. That is my 2 cents...

This is totally a stand alone... But if you would like to know a little bit more about some of the other characters in this story... then read **Shuttergirl**. I have a sneaky suspicion this is not going stay a stand alone for long....In my head I hear Hollywood A-List #2 calling....

Such a lovely, lovely read. I swooned and smiled and loved the characters of this sweet, sweet, beautiful swoon worthy romance about a Hollywood superstar and his unassuming Nanny. Brad Sinclair becomes a newly single father when he discovers a Bombshell in the form of his 5-year-old daughter. With literally no clue of how to care for the child his first task and the opening gambit of this story is to find a suitable Nanny for Nicole a character instrumental in the sweet and lovely factor of this romantic STANDALONE story.

Brad's life as superstar playboy changes beyond recognition which is the clear impetus for the development of his bad boy persona who easily won my heart with his sexy good looks, charismatic charm, flaws and vulnerabilities. He's perfectly matched with Cara, experienced Nanny and all round wonderful human being. Both protagonists think they knew where they stand, know the terms of their agreement, an agreement centred around the well-being of the child, but what neither of them expect is to find love and this is where the story develops so wonderfully and gave me all those highly desirable butterfly feelings. I basked in the fairy tale romance and delighted in the magic of the story arc as it took me on a sweet romantic journey with characters who show the perfect level of development and heart.

Spoiler Alert

Sigh. Where to begin?

Bombshell had much potential; however, the premise of an ordinary girl falling for her "movie heartthrob" of a boss has been done before and with much better results, imo.

sips tea, puts on glasses

Here we go

Cara Dumont, the nanny.

Brad Sinclair, the boss

Nicole, the daughter, also the reason this book got 2 stars.

To summarize, when Brad- unexpectedly- discovers he has a five-year-old daughter, he hightails it to **West Side Nannies** which is how he met Cara. Seeing as how Nicole had been crying incessantly, Brad is shocked and pleased when Cara magically convinces the little girl to stop the tears, thereafter, he wanted no other nanny but her.

Here's the thing: This initial meeting smacks of some serious providential intervention, aka Deus Ex Machina. It just seemed so contrived, done- presumably- to manipulate a scenario for the two characters to meet.

Think about it. Why would Brad, who is a mega movie star, come to WSN instead of them going to him? Can you at least see why this "serendipity" aggravates?

Moving on to the main characters.

Brad. One word. Simple. He was patently one dimensional and a personification of every movie star cliche. Yawn.

Cara. Two words. Utterly forgettable. Not only that, she came off as standoffish, unemotional

and boring

Nicole Three words. Abso-frigging-adorable. She's the reason this book did not end up as a big fat DNF.

Let's talk about the *lurve*. It was decidedly underwhelming and unconvincing (IMO); additionally, I couldn't quite shake the thought that proximity influenced their lust for each other.

All of the above aside, my biggest problem with the book was the writing style which is a common thread with every CDR book I've read. **Sentences are written in a staccato and choppy manner.** As if writing a compound sentence goes against her beliefs. As if conjunctions and subordinations cost money. As if writing a sentence with more than 10 words is a feat.

Overall, Bombshell could have been an entertaining read had the characters had more depth; also, a little bit of humor wouldn't have hurt.

p.s. To read an engaging plot and character driven story about a movie star and an ordinary heroine, try Hollywood Dirt by Alessandra Torre.
