When monsters need a makeover, they head for the one place that can make it happen . . . **Welcome to Hollywood!**

*Dial M for Monster* from **Award winning, paranormal romance author Lila Dubois** is Book 1 in her Monsters in Hollywood series. **A thrilling tale of monsters and the human prejudice that keeps them in hiding . . . for now!**

Luke is desperate to save his people. A lifetime of sneaking in to human houses and watching movies has convinced him that if he can make a great movie about monsters, humanity will change its opinion of them.

**With his friends at his side, all in shiny new human bodies, Luke heads for Tinsel Town.**

A rising Hollywood producer, all-business Lena knows a good story when she sees it. Luke? He's just another amateur who wants to get famous. But Luke's too gorgeous to pass up. One night of incredible sex later, Lena wakes up next to the surprise of her life. She's sleeping next to a monster. Literally.

Appearances aside, she finds herself wanting to help Luke save his people. But they've got more to worry about than just human prejudice, because some of the monsters would rather stay in the closet! And, **to make them all stay hidden, they're willing to kill!**

This erotic paranormal romance contains gargoyle shapeshifters, monsters, and adult themes. *Dial M for Monster* is not intended for readers under the age of 18.

(2008) Samhain Publishing - Original title: Lights, Camera . . . Monsters

### **Dar says**

The story was new and different in this book, and I really liked it! 3 Monsters are approaching the human world to tell their story with the hope that humans will accept them. Luke and Lena start a relationship, and most of the book focuses on them. Neither one is overly interesting, and while I felt that they were attracted to one another, I didn't feel sparks. Not feeling sparks meant I skimmed most of the smexy times they shared.

The story really was the strong point in the book, the romance was so-so

### **Gloria Klein says**

#### **Heart warming**

I bought this book for free from Amazon but it was so good that I am looking forward to buying more from this author. The book was a different approach to a love story about monsters as we perceive them.

---

### **Judi says**

#### **Who knew a monster could be so sensitive**

Luke may look tough and scary in his monster form, but his soul is tender. With some angst and some action, this book is also filled with erotic sexy times. Setting up the overarching storyline and mythology, this is a really intriguing paranormal read.
