What do you do after finding out that your lover is cheating on you? You run as far as you can get and go on a vacation to Tarah!!

Cami a non active CEO of an international entertainment firm is on her way to the airport when she comes across a billboard from Tristan Michaels, the hottest star at the moment. For the last 5 years he is her fantasy guy, fit, muscled and eyes that seem to see right into her soul. After a quick business in LA she will be heading to Honolulu and a connect flight to Tahiti, with no intention to staying there the locals told her about the island of Tarah, a very small and private island, this is what she needs. But everywhere she turns, Tristan Michaels image is splashed all over.

At downtown LA, Tristan Michaels is arguing with his girlfriend Layla at the red carpet. Layla decides that this is the perfect time to tell him about pictures that have been taken of her sleeping with the producer of her current project and which now have been leaked to a magazine. On top of that she tells him that she is pregnant from who she has no clue. Since they had no sexual contact for a time ago he is sure that he is not the father. This is the last bomb that has him running to ... Tarah.

Is this faith?? Two people finding each other at the same hotel, her fantasy guy and she his mystery lady with the fairy wings, the attraction to each other is undeniable.

I loved reading "Finding love's wings" it was easy and quick to read.

For once both characters are wealthy, strong and have both a lot of tats and piercings. The love scenes are intense, hot and sexy from the start to finish, can't wait for the sequel.

Rating 4 out of 5

Finding Love's Wings was beautiful. The story, the characters, the emotions, the words; they were all beautiful. I sat down to read this and I really didn't know what to expect. This is Zoey Derrick's debut novel and I never read reviews of a book when provided with a copy and asked for an honest review. I don't want to be influenced or jaded or have my review shadowed by other reviews in my head. So, I set out to read this book and at 28% I was texting Danielle:

"HOLY SHIT! THIS BOOK IS AMAZING! I'm only at 28% and I am addicted and panting! I can't believe she asked us to review her book. Zoey Derrick is going to be huge!"

Yep, that's what I said and I'll stand by it. The heroine, Cami, is so easy to love and yet she doesn't know what to do with love because of her upbringing (or lack thereof as the case may be). In the opening chapters, you can really feel her loneliness. I felt crushed for her after Reed's infidelity, but thankfully, her character is not some young, naïve woman who sits and wallows. Cami runs. She runs to a tropical paradise to hide and

not lick her wounds as most women would do, but to gather her thoughts and make a plan. She knows that she is a damaged and understands why, but her inner strength keeps her going. Just the kind of girl I could look up to.

And then there is Tristan Michaels who is also running from the effects of a loved one's infidelity. He is supremo book boyfriend material. Being a Hollywood heartthrob, he is obviously yummy, but just like Cami, "I can't help myself. When it comes to tattoos, I'm a sucker every single time." But Tristan wasn't just some tattooed yumsicle. He was an absolute doll and the things he does when wooing Cami are just heart and panty melting sweet! He is such a good man that he was willing to take some of the heat off of the dirty slut whose actions hurt his heart and possibly his career. Who does that?

I loved that this book is not the typical "poor girl meets rich boy and he saves her from the big, bad world" storyline. These characters were strong, intelligent, and aware of what they are facing. They were on equal financial terms and had some equally hurtful baggage. But despite the fact that they came to Tarah to hide, they can't hide from or deny the pull that's between them. Zoey writes each scene with awareness and sensuality. From a small caress to the dirty deed, Zoey writes with a flaming pen that heats up your core and had me reading faster to see where things were going to go.

And then there is the body art in this book! I was Googling "corset piercing" and drooling over the results. Both Cami and Tristan are walking canvases of art with multiple piercings and tattoos between them and their body art plays a big role in the characters' attempts to open up and share their stories. Hell, I'm jealous of Cami's whole sense of style.

But I digress. This book is a wonderful blend of engaging characters with undeniable chemistry. It was a solid 4 because there were some editing issues and the ending felt a little rushed. Could there be more of Tristan and Cami coming in the future? Regardless, I will definitely read future work from Zoey Derrick. I think she has a promising future in the book world. Thanks Zoey for the opportunity to provide an honest review in exchange for a copy of your book. Well done! Find more reviews at rawbbooks.wordpress.com

Emily ~Social Butterfly PR~ says

I stop dead in my tracks and stare at the woman sitting at the table. Her black hair is up in a ponytail that trails down her back and over one shoulder. The other shoulder is exposed and shows off a tattoo of blue, purple, and silver tones. It looks like a puzzle made of hearts and stars. But what really catches my attention is sprouting from the center of her shoulder blades. Done in some of the brightest ink I've ever seen: black and purple wings

I was instantly drawn in to this story by the way Zoey Derrick so thoroughly paints her characters. I'm not just talking about physically but, their personalities as well. Tristan and Cami are so secure with their outward appearances but, on the inside their emotional insecurities stand firm. Just reading about them made me think of all the times I see people that are secure in their own skin. I wonder are they putting on a show to hide what they are feeling on the inside, is being confident worth brushing aside the emotional insecurities? For Cami, Tristan makes her realize that she wants more from herself and from her life.

I met Reed at a bar about six months ago, and we hit it off pretty well. Really well, in fact. We ended up in bed together that same night. We've been seeing each other casually since then, but it's strange: we very rarely ever go out; it's usually just he and I in bed together. I'm not sure that we can be

considered a couple, but we've been exclusive to one another since we met.

Cami was a complicated character. One I definitely related to. Throughout her life she only knows love through a dollar sign. Her parents didn't want much to do with her. Instead of being the parents that shower their children with affection, they throw money at her and send her to boarding school overseas. Because Cami only knows love through money, she doesn't know what real love feels like. She uses sex as a method to feel loved even if it's an empty love. That is until she meets Tristan. A man she has always had a weird connection with even though they had never met.

Something about this gorgeous girl screams to me that I can't just bed her. She's better than that. She deserves far better than me fantasizing about her on a darkened beach.

Tristan, has been on the front of magazines, billboards, and has his private life thrown all over the media. He is currently about to be thrown into a whirlwind after breaking up with his longtime girlfriend. In order to escape and heal, he bails to a remote place where no one can find him. Tristan isn't looking for anything except for peace and quiet. When he finds Cami, the woman with piercings and tattoos, with a confidence unlike any other, he instantly knows he wants her. He doesn't want to just sleep with her, he wants to be with her and show her she is worthy of love.

"I'm trying to tell you that I really like you, Cami. More than I should, given that I hardly know you." He smiles at me, a tentative smile. **"I really want to get to know you, for you and not just for your body."**

I truly fell in love with these two characters. They both had obstacles that they needed to overcome before they could completely give themselves to the other. I loved that they took all of their demons and emotions and put them on display with beautiful tattoos. Cami had one of the most elaborate pieces of art on her back that I was blown away by the detail Zoey Derrick put into it. Tristan's was just as beautiful, but for me his was powerful for the reason behind getting it.

Zoey Derrick's writing is promising. There is always that one moment when I read a book and I just know that this author is going to go places. The idea of the story, the way she describes her characters, the conversations she writes and adding edge to her characters, really makes Zoey's book stand out to me. I am really looking forward to reading more of her stories and watching her come into her writing.

Favorite Quote:

"Tristan, I—" She is fighting for the words. **"I don't know love. I don't know what it feels like to love another or be loved by someone. I'm scared."**

Interview with Cami and Tristan

Autumn says

Cami's life just kinda hit a road block, well a speed bump. She walked in her on boyfriend well bed mate. Sleeping with an other woman when he knows shes on her way. To make things worse she was pretty turned on by that. Confused and embarrassed she leaves without a word. Quickly she books a flight out of the country. Well she does make a pit stop at her office in Los Angeles. Her parents left her a PR Firm. She for the most part ignores it. Upset by the way her parents chose to "raise" her. Sending her to England for boarding school. Her mother passed away when she was just a teenager. After which she convinced her father to bring her back to the states to continue her education. Though they are on the same continent the relationship was way past gone. So classic daddy issues which she blames for her cold heart and sexual promiscuity.

Tristan is the IT man in Hollywood. On every billboard, magazine and ad. She girlfriend just dropped a bomb on him. She was caught in an Orgy with half the staff of her last film and all on camera. Shes freaking balls and wants his help to get out of the mess she created. Oh did I forget to mention she got herself pregnant during the orgy. Yeah. After this little tidbit of information he decides its time for a personal vacation out of the country.

Cami has always had a crush on Tristan. Unbeknownst to Cami her PR firm reps Tristan. She kinda learns that visiting her office. And shes kind of awestruck by just a photo. So she heads to a remote island to heal and get her mind right when she encounters Tristan. Basically they are both highly attracted to each other but decide to take things slow. Just a few things that bother me at this point. Right away they start calling each other baby and babygirl and that just makes me want to bang my head against a cactus. Its a peeve of mine so please take that with a grain of salt unless you peeve the same way than high fucking five!

Slowly or quickly depending on how you look at it they open up to each other and start to really develop something real. And there was a nice amount of steamy as well. There were some obvious that would NEVER happen moments in the story but hello its fiction not non fiction so I deal. Also at times I had a hard time following who my narrator was but really it didnt take to long.. Ahhh and I would be remiss if I didnt say I did notice some holes in the story. Bare in mind ive been doing some critical reading lately. With all that being said I did enjoy the book and would love to read more from Derrick.

Jonel Boyko says

What an impeccably written whirlwind. With this novel Derrick picks you up from the first page and keeps you captivated right to the very end.

This is a brilliantly written, extremely vivid novel. Derrick knows how to use descriptions to her benefit. She brings everything to light in such a stark and captivating way that you cannot help but picture it. She writes a very vivid love story that is highlighted with sexual encounters. These scenes are also vividly and tactfully written. They further the storyline rather than simply stopping the story for a racy moment. Everything adds to the feeling of love and connectedness that one feels while reading this.

I love how Derrick develops her story. There is so much more to this novel than just boy meets girl, yet at the same time it's your whirlwind romance novel. This novel definitely has a few 'holy hell', 'wtf', and 'I definitely didn't see that coming' moments that all add greatly to this captivating story. You fall in love with the idea of the story just as much as you do with the characters themselves.

I appreciate the fact that Derrick brings body art to the forefront through this novel without prejudice.

Although it is an integral part of both main characters, she also doesn't let it take over the novel. This is not the only thing that she uses to give us glimpses into the lives and psyche of the main characters but it is one that you cannot miss. Throughout, Derrick has creates some well-rounded characters, none of which are perfect and all of which are loveable in their own way. This includes the supporting cast of characters.

Overall, this is a light, flirtatious novel that packs a punch. Derrick keeps you captivated throughout and leaves you simultaneously satiated and wanting more. My final thoughts? Bring on the sequel.

Please note that I received this novel free of charge from the author in exchange for an honest review.

Roxanne Kade says

I have to start off by saying how much I love the cover for this book. It is just so gorgeous and magical. If only the story was everything the cover is, however I was left feeling quite disappointed. The first half of the book was pretty much about Cami and Tristian getting to know each other, but it quickly became monotonous and I found myself becoming easily distracted.

I didn't connect with the characters as much as I would have liked to, but having said that, I must admit that I did like Cami. I loved her feistiness and the fact that she was also vulnerable and a bit broken made her feel real. I tried to like Tristian, and at the beginning I really did, but after a while I found him to be a little irritating. Every time he was with Cami he acted like teenage boy with raging hormones. I mean, it might be flattering to have a guy get so turned on by you that he has no control over certain body parts, but if it happened every single time he was near me I'd wonder what was wrong with him.

Things seemed to move along too fast, and by that I mean how lovey doveys Tristian and Cami became after one night of flirting on the beach. They were too comfortable with each other and it just didn't feel right. And then came the showering of gifts that probably was meant to be a kind, from-the-heart-gesture but it felt more like he was trying to buy her, as ridiculous as it sounds given the fact that she had more than enough of her own money. The sexual tension was hot and sensual, but with Tristian constantly uttering the words, "Not here, not now", it just didn't heat up the pages enough for me.

On the upside, I was fascinated by Cami's corset piercing. I'd never heard of anything like it before this book and I immediately Googled for pictures. If only I was still young and foolish enough, I would have run out to my nearest parlor to have it done. It looks beautiful.

I really wish I had enjoyed this book more.

Wow, I read this book after reading Reason to Breathe, and I was not disappointed.....Tristan Hollywood act is HOTTT tattoos and piercings and Cameron is into tattoos also but hers an intricately thought out and designed, so what happens when you both get cheated on and have enough you leave and escape....these 2 are still healing from betrayal but feel that instant attraction and decide to take it slow (OK that is hard because sparks are all over with these 2....they fight to move on and move forward even through the scandal that will arise from Tristan's ex and her crazy ways, you will fall in love with these characters and will be invested in seeing them win....what happens when insecurity arises and the crazy ex appears...you will have to read it and find out...the best part these is no Cliff hanger (SAY WHAT) that is right...the next book is a continuation of there story and I for one and going to one click because their story is truly about love, struggle to move forward from the past and not take the demons with you...fyi when these 2 do come together HOLY COW BAM!!!!!!

Finding Love's Wings is a scorching hot contemporary romance, that is equal parts naughty and nice! Cameron Enders has just caught her cheating boyfriend and she is escaping to Tahiti to recover. Tristan Michaels is a hot Hollywood actor, who is fleeing his crazy ex-girlfriend before her scandal hits the fan! These two meet at a resort in Tahiti and their attraction is intense and immediate! These two are opposites in upbringing, but are kindred souls at heart. This novel taught me a lot about tattoos and body piercings! Both characters are well inked and pierced! *fanning face*. The author is great with her characters, but I was sometimes lost on who was talking. The book is written in first person and they sometimes use the same nickname for each other! Minor issue! The novel is a quick read and I wondered at the end, is there going to be a sequel? Congratulations on a refreshing new novel!

This book was given to me in exchange for an honest review.

-3.5 Stars- I really enjoyed this book. I rarely give out 5 stars because I reserve 5 star ratings for my absolute favorites. So 3.5 stars from me means I think this story was definitely worth reading. I really enjoyed that the main characters both had tattoos & piercings not just one or the other like many stories. I also liked that although the hero was rich & famous, the heroine was also rich, so it was the typical normal girl meets billionaire we are seeing these days. Overall it was a sexy, enjoyable read.

Ange says

Do you, like me, read contemporary romance novels and wish for more of the raunchy stuff? Well, hold onto your hats ladies and gents, because Ms. Derrick certainly delivers with her debut novel Finding Love's Wings.

With a fantastic storyline, a stunning backdrop and lovable characters that are a breath of fresh air- not to mention, highly individual and unique; what more could you want in a romance?

So let me tell you about the wonderful main characters...

Cami is a fiery pocket rocket who dresses to kill with a unique style all of her own. Long raven hair with electric blue highlights, amazingly detailed tattoos and a set of intriguing surface piercings; combined with a strong alluring personality, she is a knock out on the surface, but a lost and lonely girl on the inside, mourning the death of her estranged father.

Tristan is the Hollywood heartthrob we all drool over, with his amazing body, good looks, and a killer tattoo that I would love to see close up! But he too knows the pain of loss and is struggling with the emotions that betrayal brings.

Put these two together and you get this little thing called chemistry, baby! Not all authors have the ability to nail it in writing, but Woooooooo! do these two sexy tattooed and pierced individuals have it?! You can all but see the sparks flying off the page!

But Finding Love's Wings isn't just about the awesome love scenes, the story itself keeps you reading. It's like you're a fly on the wall of a messy Hollywood "Love Scandal", where you get all the dirty details that the glam mags just speculate on! Score!!!

For a debut novel, I believe Ms.Derrick has delivered a fantastic story. If you love a good romance with a very modern feel; lots of juicy tidbits, some drama and a lot of lovin', then definitely give Finding Love's Wings a try.

Tammy Bland says

Received this book for an honest review.

Cameron is a college graduate with a degree in PR and Business but she doesn't know what to do with her life. Her parents shipped her off to England when she was six years old to attend school and she never had a relationship with her parents. Her mother died when she was sixteen and her father died a year ago. When her father died, he had a stipulation in his will that she become CEO of his prestigious PR firm or it be sold off to the lowest bidder with the profits going to charity. To save the company Cami is a "non active" CEO but Trinity and Vincent believe she is more than capable of partaking an active role in running the company. What's holding her back ? Cami is afraid her father has set her up to fail. Her lack of unconditional love in her life has left her vulnerable.

Tristan is a handsome successful actor but doesn't like all that comes along with the hype of Hollywood. He never knew his father and his love for his mother is something to be cherished. When she died he felt lost and alone. Like part of him was missing. Struggling on his own in college to make ends meet he auditions for an extra for a movie. After his audition he is asked to study some lines and return the next day. He is given the lead role in a top movie. Hence, he was thrown into a life that he never thought he would have. He

begins to date his co-star Layla thinking he was filling the loneliness void that his mother left behind. Five years later, he realizes Layla was using him for own gain.

Cami leaves her home in Phoenix to escape the betrayal of her boyfriend after she finds him in bed with another woman. She ends up Ina remote island to think about her life and try to get some perspective as to what direction she needs her life to go.

Tristan escapes Los Angeles after discovering Layla has been cheating on him and expects him to help her out of her mess. Tristan believes the only way to help Layla is for her to hit rock bottom and begin to put her life back together....without him.

When Cami and Tristan end up at the same remote island sparks fly between them the moment they meet. A whirlwind romance blossoms with no paparazzi or interference from the outside.

Will Cami and Tristan be able to put the hurt their last relationships had on them behind them and take a chance on love together ? Will they be ale to handle the pressures and the press that's around them from Tristan's fallout ?

Thank you for allowing me to read this book. I look forward to reading more about Cami and Tristan and see their love bloom. This is NOT a cliffhanger but it will continue. The book ends in an appropriate place.

Kelli says

I was given a copy from the author in exchange for an honest review.

First off. I need a cold shower and a stiff drink. Oh and some Tristan please! Gahhh that's a girl's dream come true!

This was my kind of romance; two beautifully tattooed and pierced characters coming together. In more ways than one, wink wink. :)

Cami has been on her own practically all of her life. Her parents sent her away to another country when she was young. She grew up without any idea of what love is or how to feel it.

Tristan is a successful actor who's pictures are plastered in every teen girls bedroom. Though, he lives to act, he hates the publicity that accompanies him wherever he goes.

They both need an escape from the drama of their lives and unknowingly find the answers to all of their problems in each other.

Oh boy I loved this story and there better be more or I'll cry! Steamy, steamy sex scenes that were so well written I was practically watching it unfold in my brain!

Crystal says

My Rant:

Finding loves wings completely shocked the hell out of me. When the author released chapter one to the book I read it and was like OMG did Zoey go full throttle and start of the book like that (wink, wink). Um folk, yes she did. Zoey kicks off the story with bang, you don't get to work into the story and you are not eased into it either.

She completely put the drama in your face and you have to deal with it and boy is it quite the scene. It left me feeling so many emotions because you weren't sure how Cami was going to react because she was second-guessing her actions as well. Cami was contemplating should she go, should she stay or cause a scene. Her emotions were all over the place but I commend her on making the decision to go away quietly to sort out her feelings. Cami is exposed to us completely in the beginning of the story so you begin to quickly make a connection with her.

Cami had a lot going on for herself she was career driven witty and smart. I loved her character because she also was strong but unique. Cami wasn't just the average girl on the block, which is why Tristan was attracted to her. The author drew out emotions through Cami and you completely connect with her hurt and struggle to deal the loss of her father and her loneliness.

Tristan stole my heart away. He was sexy, smart in his bad boyish ways that seem to bring out the bad girl emotions in me. But as a successful celebrity in the lime light he has his own issues with trust and dealing with the exposure celebrity-ism brought because the paparazzi just could not stay out of his business to let him just deal with his own issues. But when Tristan collides with Cami the books begins to take you on a world wind of events.

Tristan and Cami both had issues they had to overcome but when they got together they completely raised the heat index to at least 99.9 degrees. Not only are you drooling over him you completely fall in love with this man. He is perfect. I loved him completely love him. His tattoos piercings and his ability put it down in and out of the bedroom. Lol.

This book was quite the page-turner for me I couldn't seem to put it down. I was drawn into the book by the authors writing style and her creativity of her characters. The character were unique, which was a pleasant surprise because some times when you read book you feel like your reading the same story just written by a different author but you don't get that from Finding Loves Wings. The way the characters process their feelings, their personalities just screamed individualism. The author just poured her creativity into this story, which completely amazed me and entrapped me into this love story between Cami and Tristan that before I knew what was happening I began to sprout wings, yes I found loves wings.

My Recommendation:

I rated this book 4 out of 5 purple rant heart and would recommend this story to anyone that loves a good contemporary story with soaring romance.

Marci says

I received ARC for my honest opinion. the passion, love making was just breath taking. This story was great I could feel the emotions that cami felt not to feel love. some say there is no such think as love at first sight but for cami that love was already building every time she saw his picture. What are the odd that when her cheating boyfriend or sex friend cheats on her and she sees it with her own eyes. Sends her on a trip of love like she has never experienced before. After a week and getting to know Hollywood most eligible bachelor Tristan, she finds that with him she feels things that she never thought she could. After their first night of passion that lasted all night she feels even more connected to this man. There is no shortage of drama when his ex Layla needs help but it's too late for Tristan to help. He is done. You will enjoy this story. Can't wait for book two.

Confessions of a Book Whore says

Omg I loooooove this book. I love Tristan! I love the body art and piercings. I love the chemistry. I just love everything about it. Zoey Derrick, you have a fan! I am ready for book 2...like now!

What happened?

Cameron Enders and Tristan Michaels both are trying to flee their lives for similar reasons. They both want to clear their heads without anyone finding them. Somehow they both decide to head to the remote island of Tarah.

Tristan is trying to escape a very public scandal surrounding his ex-girlfriend Layla, while Cami is trying to move forward with her life. In the wake of her ex-boyfriend's infidelity she's determined to disappear for a while. She's grown weary of meaningless relationships. She wants more out of life but is unsure that she knows the first thing about love...until she meets Tristan.

Unbeknownst to Cami, Tristan first spots her in the first class lounge at LAX and he's instantly drawn to her tattoo. He sees the wings on her back as a sign and is determined to know who they belong to. Hoping they're on the same flight, he carefully watches her, until he is swarmed by fans and paparazzi. He loses sight of her, but somehow they end up in the same hotel.

Tristan isn't the only one who is smitten. Cami has known who Tristan Michaels is for years. She's seen his face plastered on billboards and magazines and something about him has always been soothing to her. She finds comfort in his eyes before ever meeting him. She's always felt a pull but could never describe it, then suddenly, he's thrust into her life and they're both falling hard and fast.

Though both have been broken down by their pasts. Somehow they find solace in one another.

What I loved?

Tristan

Cami

Tristan

Tristan

Oh wait, did I say that already?

What else, Tristan! Lol that's not a typo just me expressing my undying love for him! He is so hot! Oh and Tyson, yeah, I like him too!

Zoey Derrick is truly gifted when it comes to her descriptive writing. The intimate encounters will make you blush! If you're a fan of body art and piercings like I am, you will definitely appreciate this book. This book had my full attention and I finished it in less than 24 hours! The main characters were lovable and their courtship was rather sensual. This was a fun summer read.

What I hated?

Listen here Zoey, I want the next book and I want it now. lol
