I'm not sure why but I am having a harder time enjoying this particular story arc. They are still very well written and the prophecy they are following is intriguing but I'm not loving it as much. Still would recommend it to kids and adults!

Micheline says

The Power of Three series seems to get more compelling as we learn more and more about 'The Chosen Three's' powers, skills and as they themselves mature, and Outcast is definitely no exception. In book 3 of the PO3 series, the surviving original members of the journey to Sun-Drown place: BrambleClaw, SquirrelFlight, CrowFeather & TawnyPelt set off to help the tribe of the mountains that they had encountered in 'The New Prophecy series'. The twist is this time, the original cats of the 1st journey take their children, who are now apprentices with them. JayPaw is certain that the Tribe will offer answers about the ominous prophecy regarding himself, his sister and brother. Despite HollyPaw & LionPaw not being aware of the prophecy surrounding them, still find that they too are drawn to the mountains...but their journey there, and the answers they find are not necessarily what they expect...

As usual Erin Hunter wastes no time on repetitive details reminding the reader of things they already know, she just dives right in with the action, plot twists and while some secrets are revealed, others still lay undiscovered, and the suspense is killing me!

Leona Carstairs says

I don't know why, but I never liked the Tribe of Rushing Water. Or I think it was their leaders I didn't like and just their attitude. But otherwise this book is super great and the PO3 series about the Warrior cats is going good.

I love how they are finding out their powers and all. Great CAT-terization.

KylaRodas says

I love this series so much that I am flying by these books. The apprentices find out the deepest secret of them all and they travel to the mountain to save The Tribe, and will StarClan and The Tribe of Endless Hunting be with them on this daring journey?

Deborah Pickstone says

Cultures collide. I was waiting for Jaypaw to dream up a Tribe solution at the end rather than the Clan

solution that emerged. Then it turned out that the whole thing had occurred just because the three (two of whom don't even know about the prophecy yet) had to go to the mountains and be damned to the Tribe! And I am unclear what the three were to learn - or did learn - after going there. Still enjoyable but sometimes seems like there is little point in it?

Summary:

There will be three, Kin of you kin....Who hold the Power of the stars In their paws. A secret prophecy shapes the lives of Firestar's grandchildren, but only one of the three knows about it. Jaypaw is captivated by the power it promises, and he believes the key to that power may lie buried in the distant past -- with the ancient cats who once walked these woods and now prowl through his dreams. His search for answers leads him toward the mountains -- the home of the Tribe of Rushing Water. Lionpaw and Hollypaw feel drawn to the mountains too, for different reasons. But the mountains hide secrets as well as answers, and if the three cats find a way to get there, they may discover more than they ever expected.

Plot:

I had automatically raised my hopes for this book, given that Warrior books get better and better as they go. Unfortunately, this was barely any better than the previous books in the Power of Three series. Don't get me wrong, it had a great plot, but there wasn't any it-blew-my-mind surprises in the plot. It was the same-ol' warrior book, expect them helping in the mountains. The ending had to have been my favorite part. Not about the battle (that part was boring), but about Jaypaw talking to his litter-mates. I admit, it wasn't an exciting ending, but it made me really want to know what happens next.

Characters:

Even though there wasn't any character development, off the bat Jaypaw was loads better. He didn't have a major attitude, and was actually concerned about other cats. Again, Hollypaw didn't really play a mandatory part. I still really enjoyed her P.O.V., and I'm 100% sure that she'll play an important part in the future, but as of right now, she's just an unnecessary cat (Even though she's my absolute favorite!). Lionpaw is still being haunted by Tigerstar. Although, not near as much in this book. I wish Tigerstar would just stay in the Dark Forest where he belongs. It was cool at first for him to be haunting cats, but after 3, it's just old news.

Overall & Recommendations:

I'm pretty sure everything I just said above was negative, but I still really liked this book. The ending was great, and I can see in the near future the prophecy coming into play. The entire Warrior series is amazing, and I recommend it to everybody.

Aurora Dimitre says

hmmmm. yeah, i just hate the tribe.

Scott says

This was a book that definitely picked up the pace of the PO3 series as each of Squirrelflight and Brambleclaw's litter begin to embrace, develop, and understand their gifts. However, we learn much about Jaypaw as his curiosity takes him on a dreamquest to weave a tapestry from the tattered dreams he has shared, as well as invaded, with StarClan, the Tribe of Endless Hunting, and the Ancient Cats.

The three of this prophesy all find themselves drawn to the mountains but for different reasons ... and through a strange twist of fate, find themselves on a quest to help the Tribe of Rushing Water in its our of need ... despite the Tribe's wishes against that. The remaining members of the original journey to the Sun Drowned place all reunite in this quest, along with Crowfether's son, Breezepaw, who displays his father's original negativity during this rescue adventure.

An excellent third book in the series that leaves the reader with a closing cliffhanger that will whet the appetite to move right into the 4th book in the PO3 Series, "Eclipse." Make sure you have a copy handy and ready to go ...

Kayla says

I was so happy when Purdy was brought into this book even if only for a short time; I just love Purdy. In this book all the cats that went to the Sundrowned place along with Jaypaw, Hollypaw, Lionpaw and Breezepaw go on a special mission to help some old friends. The secrets of why Stormfur and Brook left the Tribe Of Rushing Waters is revealed. Meanwhile, Lionpaw is being coaxed away by Tigerstar's evil presence. And Jaypaw is wondering whether or not he should tell his litter mates about the--so far--secret prophesy... or is it really that secret? Read this book and you will discover who really knows about the prophecy, and who doesn't.

*****WARNING!***THERE IS A SPOILER AT THE END! DO NOT CROSS THE "~" LINE IF YOU HAVEN'T GOTTEN THIS FAR IN THE SERIES. UNLESS IT'S YOU MS. T.**

This book, once again, follows Jaypaw, Hollypaw, and Lionpaw. When visitors from the Tribe Of Rushing Water come to visit Stormfur and Brook (Brook Where Small Fish Swim) who are currently living in ThunderClan. The three littermates all have their reasons for wanting to go to the mountains where the Tribe makes their home. Jaypaw wants to go to find more about the mysterious prophecy that affects him and his littermates ("There will be three, kin of your kin, who hold the power of the stars in their paws." Skywatcher, Warriors Powere Of Three: The Sight), Hollypaw and Lionpaw want to go to see how the Tribe lives and works. But when they Jaypaw discoveres more than he expects, and the other two find themselves caught in a battle that seems impossible to win.

~~~~~Spoilers

Below~~~~~

I don't like in the end how after all the battling, bloodshed, and hostility, why the intruders just decide to share the mountains with the Tribe when they made such a to-do about not caring about borders and killing all the Tribe. That's what made this book lose a star. If the Tribe and Clan cats would have just got rid of or driven of the intruders that would have been a lot better.

I think it's quite mysterious with all of the many warriors, clans and ancient cats going on. So far some of the cats went on a journey to unite the clans to help the Tribe of Rushing Water. They met up with an old cat who helped rescue some apprentices from dogs. Finally after the long nights and days of walking they reach Stoneteller's home and he turns them away. That same night Jaypaw has a dream about the ancient cats; they tell him to give Stoneteller a message. The Clan teach the Tribe the clan cats way, then they teach the clan cats their way. Intruders invade the tribe's territory then got chased away from a surprise attack from the clan cats in the intruders' den. Stoneteller meets up with Jaypaw at a pond with the moon's reflection. Jaypaw meets Rock, an ancient cat, he tells Jaypaw that there is path for him, but he mustn't take the path alone. Hollypaw calls for Jaypaw as Rock disappears. As Jaypaw helps Lionpaw he says that he has something to say to to them.

Once again, the Erins are starting to lose it. I hate to say this, but this book was a little boring. And also, I didn't like how we spend the entire book trying to solve a problem but we never actually solve it . The forest cats "solution" seems completely implausible and we never actually SOLVE the problem. By the end its basically

- "Well, that was fun!! I'm bored. Time to go home! Peace! Good luck with that whole invading-cats-are-stealing-all-your-prey-thing. I know our solution is weird for you, but just go fort it, kay?

- Wait, we cannot do that! help us.

- Naw, its boring here. Later!

I mean, seriously, can't we think of a better ending than that? or a better plot, perhaps?

Yeah, kind of a waste to be honest. I recommend you skip it if you are going to read this series. Believe me, you won't miss much.

Een spannend en goed doordacht boek! Het verhaal leest vlot en heeft een open einde. Net zoals in de andere

twee boeken zijn ook hier Leeuwpoet, Gaaipoet en Hulstpoet de hoofdpersonages. Ook is de cover weer schitterend, en sluit hij prachtig aan bij de andere boeken. Ik kijk al uit naar het volgende deel dat eind juli verschijnt! Dit boek krijgt van mij vier sterren!
