Charming series. I love Myrtle Crumb, a nosy grandma, with a heart of gold. Hope the author continues this series.

I knew going in that this is a short novella. This is my only problem with this series. It being too short. I would prefer something longer but I can understand that authors cannot always write long stories even if that is what readers want. Besides that this story would not feel the same if it was longer. Everything falls into place perfectly at the right time throughout the story.

I am enjoying how readers are getting to watch Crimson aka Sunny grow up. To move from the 8th grade to high school. I cannot wait to read the next book in this wonderful series. The author keeps up the twist and provides just enough at the right time.

As a reader I wonder if Myrtle will ever get into trouble with her beau, Sheriff Coop or will he be able to keep her on the straight and narrow. I do admit that most of the crimes Myrtle has been investigating are your average everyday stuff officers deal with. However it is fun to see and read about these. A light read for those not interested in reading about some gruesome murder scene.

As with all these books the bunnies and I highly recommend to any who enjoy cozy mysteries. A fast, fun and light read just waiting for you to discover or to discover you.

The bunnies and I give this book carrots.

Perp and circumstance

I just love Myrtle and the things she seems to get into. I laugh every time I read about the Melons! But they have sure come up with some very good ideas. I hope to read more about Coop, Myrtle; Faye and Mr Cole in the next Myrtle caper.

This was an excellent Myrtle Crumb! I enjoy this series, and Myrtle's busybody way of crime solving. I'm glad to see this series is still evolving, can't wait for the next edition, Ms Trent!

Myrtle Crumb is a proud Grandma and a fun detective as well. As her granddaughter Sunny (real name Crimson) is about to graduate from middle school, her favorite teacher is suspended for having marijuana in his desk. She is indignant at the unjust suspension, and asks her grandma Mimi (Myrtle) to prove that the weed wasn't his, but it was planted in his desk.

Without much time until graduation and few suspects, Myrtle manages to sort things out, play matchmaker, talk her women's group into a serious community venture, and order a beautiful cake from a well known (well known to Gayle Trent's readers anyway) baker.

It is a short, fast-paced book that has plenty of Myrtle insights that Ms Trent has become quite adept at sharing with her willing readers. It is enjoyable, has chuckles and a few eye-rolls.

Love Myrtle Crumb!

I've read all of the Myrtle Crumb mysteries and I've enjoyed every one of them. Myrtle is in her 60's and is very spry and entertaining. Her granddaughter, Crimson, aka Sunny, plays a bigger part of the story than usual. One of Sunny's middle school teachers has been accused of a crime that has gotten him suspended from teaching. Sunny is positive that he is innocent and asks her grandmother to prove it. Myrtle calls on her group of friends the M.E.L.O.N.S. to solve this case. I highly recommend this series of books as they are great mysteries without cursing or gore.
