## Donna says

This is the first book I've read by Sarah White, and I really liked it. Although the story was predictable, Maddy and Jackson were a believable couple. It was a quick, light read. Just what I needed!

## Pelusa Rivera says

Madelyn annoyed me, she kept 2 guys on the hook til she discovered what she wanted which was supposed to be Jackson. But then when she has him is unsure yes, no I have to do what my family wants, I want Jackson, but I know Greg, making up issues with Jackson to hurt him... huh grow up...I dont know why any of them wanted her.

Rcvd an ARC at no cost to author..(netgalley) voluntarily left my own thoughts and opinions

## Jo Watson says

I loved 'Rookie in Love'. I thought Madeline's story as a character was very relatable and I really felt for her deeply at times, which is the sign of great writing. The first scene grabs you straight away, but more than that, Jackson sweeps the reader off their feet immediately with his cool, rough, bad boy charm mixed in with someone who is genuinely lovable in every way possible. This is a great New Adult read

## Kate says

I had a lot of hope for this novel, but it fell short for me. It's a new adult, college, sports romance. The meet cute was good, maybe a little fast but still good. While I loved the hero, Jackson, I absolutely hated Maddy. She was super innocent and honestly, had no backbone at all. In the beginning, you're trying to figure out exactly what kind of situation she is in with her family and Greg, but when it's actually revealed, it just shows how much of a pushover she was. Her relationship with everyone was so formal and buttoned up; it didn't sound like a college student at all. It was really hard to get to know any of the characters well except for Maddy. And while technically there wasn't cheating (on a break), it felt weird, and felt slightly like a love triangle. And in my opinion, Jackson and Maddy's relationship was way too rushed. I wanted to like this one so much, but ultimately, it just didn't work for me at all.

Honestly, I wasn't a fan of Rookie in love. The classic story of lovers from two different worlds with the

pressures of family expectations to deal with. Unfortunately, I found a lot to be desired with both Maddy and Jackson. Maddy was kind of whiney about her situation and I felt like she was always crying. The relationship between Maddy and Jackson was missing that natural growth and silly banter. One minute they're meeting next they're in a serious relationship. I feel like that lovely middle in a relationship before its serious was missing.

I'm still hopeful for this even though all I'm seeing is negative reviews ?

I've received a ARC from Netgalley in exchange for an honest review.

I didn't feel like there was any real chemistry between the two characters besides sexual tension. The relationship seemed sort of rush and unrealistic, I just did not feel any certain connection to story, content nor characters. It was a letdown because I was really looking forward to the story. There's nothing to brag about about this mediocre story.

I voluntarily read a advanced reader's copy of this book for a honest opinion.

A New to me author that I'll be sure to check out more books. Rookie In Love by Sarah White. A storyline that has some spicy content, a great characters and plot that pulled me in. The first line pulled me in. "Taking in the moonlight lawns littered with passed-out Frat boys and half-emptied red cups, I fight the buzz-fueled giggle that bubbles up in my chest.

Up until the end, it would have been three stars. I need you to know that. That the ending was just ... come on! That's the best you got?

Honestly, I don't expect much from these kinds of romances, but I definitely expected more than this.

The plot is cliché and predictable—and not in a good way.  
The writing is repetitive.

The main character is dull and can have none of my sympathy.

There's some random side couple that basically mopes around and cries on the fringes for 85% of the book? The romance is, frankly, uncomfortable. How it started, how it progressed, how it ended; it felt wildly unrealistic and over the top silly.

I'm just glad it was short and I finished it in a few hours.

I wanted to love this book so much. It started off with such promise.. I loved how they met and hit it off. But then Madelyn annoyed me, like A LOT. She cried over her boyfriend leaving, then made out with Jackson 5 mins later! In fact, she cried... A LOT! Too much for a college kid!!

I read this book on Wattpad,

It took me about two days to finish, but not because it was short. Because i just couldnt bring myself to put my ipod down! I had so many mixed emotions while reading this, I went from happy to sad, to sad to mad. You totally need to make a sequel, I need to know what happens!! I also wish there where more guys like Jackson!

### **thebookishrose says**

I loved this book so much. Jackson is precious and so is Maddy. They are perfect and their ride made me happy, it made me cry and it made for an incredible read. I think this is one of the best romances I have read in the last year and I need more! Will there be a second book? Or a story that follows Caleb?

What's a girl to do?

Madeline Stone is torn between doing what's right for her family and the family business and loving a man who has given her the kind of happiness that she has never known before.

Madeline is in a relationship with Greg, a man she doesn't love, but she stays with him to please her family. Then, she meets Jackson Rider, a college football player who rocks her world. While Greg is out of town, Madeline and Jackson take their relationship to the next level. Nothing will ever be the same for Madeline again. But, Madeline's family disapproves of the relationship and wants her to break up with Jackson and make things right with Greg. Madeline has a tough choice to make. Follow her heart or live the life her family has planned for her.

I really enjoyed this book. It was sweet and sexy and emotional all rolled into one. I can't wait to read more from this author.

### **Kee says**

I must give the author credit for the sizzling chemistry and sexual tension between the characters - it was so real and intense. I've read loads of romance novels, and the sexual attraction between the two central characters was fantastic - very well written and portrayed.

However, there were many awkwardly phrased scenes, and scenes that didn't flow together or make sense. Also, Maddy really annoyed me - she was willing to play two guys without a care for their feelings, and just went along with it to the very last day - dragging Jackson along until he spontaneously proposed... what? The whole must-please-family-and-therefore-not-be-happy-but-still-drag-around-this-boy-who-sorta-loves-me thing was frustrating at times, and Maddy's decisions were stupid (very immature way to put it, but I was annoyed). Her character was also a bit dry.

I gave it 2 stars due to the great portrayal of chemistry, and the amazing sensual scenes, but without that, this romance would be kinda bleh, as it felt as though Maddy didn't really consider Jackson's feelings and SHE JUST FRUSTRATED ME. Sorry for the rave...
