The Blonde Geisha

Jina Bacarr

The Blonde Geisha Jina Bacarr

The early summer of 1892 brought a heavy rainy season that year in Japan. Plum Rain, the Japanese called it, because it comes when the fruit bulges with ripeness and promise. Like a young girl reaching womanhood.

A girl like me.

In the ancient Japanese tradition of beauty and grace, sex and erotic fantasies are hidden secrets that only a select few may learn, and which are forbidden to foreigners. But when a threat to her father's life puts her own in jeopardy, young Kathlene Mallory is sent to live in safety at the Tea House of the Look-Back Tree, where she is allowed to glimpse inside the sensual world of the geisha.

During the years of her training in the art of pleasuring men, Kathlene's desires are awakened by the promise of unending physical delights, and she eagerly prepares for the final ritual that will fulfill her dream of becoming a geisha — the selling of her virginity. The man willing to pay for such an honor, Baron Tonda, is not the man for whom Kathlene carries a secret longing, but he *is* the man who will bring ruin to the teahouse, and danger to Kathlene, if he is disappointed....

The Blonde Geisha Details

From Reader Review The Blonde Geisha for online ebook

Jessi says

i never finished reading this book. mostly because i could not take any more of the "geisha are sex-obsessed" mindset. if you are going to write about another country, & certain cultures within that country, please do your research.

also, not sure where the erotic part fits in. there was a little "dirty talk", but not anything really erotic, in my opinion.

disappointed

Sarah Mac says

Awful. Just...AWFUL. Stilted, cheesy, poorly-written dreck that makes VC Andrews look like William Shakespeare. I can't even summon the will for a proper snarky review. (Yeah, one of *those* books. Bleh.)

Thank you & goodnight.

Colleen says

Quite possibly the worst book I've ever read. I skimmed through the entire book only because I was kind of intrigued by how poorly written it was (and to see how often the author would use the phrase "honorable penis"). It was like not being able to look away from a terrible car accident. Horrible!

Kenya0306 says

The book clearly states EROTIC NOVEL under the title so i don't know how any of the other reviews didn't see that, but okay. You can't compare a book like this that mainly focuses on a gaiji 'foreigner' and not a native born Japanese girl like in Memoirs of a Geisha. It just doesn't compare to it and isn't fair to the author. You should look at this book as its own.

I thought The Blonde Geisha was an enjoyable read. It's not horrible but it's also not great. The reason I gave it four stars is because I approached it as an English book, not a Japanese one. I believe the only people that can actually accuse this book of anything of the culture it's trying to represent are people who have been studying Japanese for the past 5 years or more of their life, native born or the Japanese themselves. If you're none of the above then your views of their culture may be wrong. There's a lot to their culture and if Memoirs of a Geisha taught anybody something, that is that it takes YEARS to become a Geisha. I'm sure the author skipped over it because this book is technically not all about the culture, it's about the main character falling in love and the EROTIC stuff that happens in-between that.

It's not a book about becoming a Geisha but about a blonde foreigner who falls in love and happens to be in Japan and hiding out in a Geisha house. Pick it up thinking that then it shouldn't be that bad of a read.

Szatkowski Maciej says

I wasn't able to finish this book. Or maybe I didn't want to waste more time on it? But I count it as read, because I don't intend on reading any further. It's bad. It's cheesy. Part of my opinion is probably because I didn't know it was erotic novel tbh, but even taking it into account it's just badly written and boring. I don't recommend this book to anyone except for maybe horny teenage girls. And please don't use it as a source of knowledge about Japanese culture.

Eva says

I really read it till the end because it is in my character to read the book till the end but I really wanted it to end fast. I like erotic novels, I really do. But this was too much. I mean that this whole book is almost without any real and good story, it is only around thinking of sex and nothing else. Talking of sex, thinking of sex - that was all I saw in this book and it got on my nerves pretty soon. If the author would concentrate more on deeper story and almost like each page wasn't about sex, that would be different! But this? I can give only one star.

Nicole Bunge says

I don't know how the author can be a "sexspert" and live in Japan and yet somehow know nothing about geisha.

Geisha were not high class prostitutes, or courtesans, and were not obsessed with sex - that's an age-old Western misconception that she does nothing to dispel and everything to reinforce.

She doesn't even bother to deal with the training period geisha go through, just skips to the (quote unquote) good part about selling virginity - and a sex-obsessed western 18-yr-old girl hiding in a teahouse. And the idea that geisha run around with expensive kimono with nothing underneath- and *oops* their obis just always come undone... good grief.

And even that... she doesn't get it on but one time at the end of the book, so it's not even a proper erotic novel.

If you want a one-night read and don't care about reinforcing stereotypes of Asian women (and no, I'm a white girl writing this) and mockeries of other cultures histories and traditions - be my guest.

But this is pulpy trash, I was severely disappointed.

(copied from my paperbackswap review)

Claire says

This book was recommended to me because I liked Memoirs of a Geisha .. WOW was this different. The author's writing is really annoying. She uses the same adjectives and nouns over and over and there really

isn't any variety. The story was just so-so and while the few main characters were somewhat developed, those around them were hardly well-written.

Tarawhite says

I like the idea of the geisha experience, but after reading *Memoirs of a Geisha*, this book just didn't ring true. A sexy read, but I felt like I knew too much to really enjoy it.

Jenna Fresco says

Don't let this book fool you, in that, it is VERY...umm...picturesque. XD I'm not sure if it's completely factual according to the way the geisha life is described, but of course, the geisha world is very much of a mystery itself. I will say the plot is somewhat shallow and I don't like the lack of morals, but hey, what can be done? It IS an erotic novel...

Jean St.Amand says

Poorly written crap. Silly smut. Should have counted the number of times the word "penis" was in this book. If you want a quick, smutty read that seems to have been written by an amateur, this is the book for you. Seems like it was probably self-published because I can't imagine anyone professional agreeing to publish this.

Samantha says

I didn't realize this book was an erotic fiction until after i started realizing how nasty it was, then looked on the cover and realized what it was... The book overall was kind of funny though. I would reccommend it to friends that want a great laugh. I like the setting though.

Sharon says

I know a lot of people compare this to *Memoirs of a Geisha*, and many of the low ratings are due to the fact that they didn't know it was an erotic/naughty book. Bypassing both of those, I still didn't think it was great. First of all, if those unsuspecting readers think this is too naughty and heavy erotica, they haven't read JR Ward or Emma Holly or a host of many other actual erotic writers. I found the FEW sex scenes in here seriously lacking. They weren't hot and they weren't steamy, they were more matter of fact descriptions of the action. Not enough feeling: anger, love, etc.

As for the geisha portion of this book, I have already read *Memoirs* so I skimmed the descriptions and background stories of geisha. It doesn't describe it as well as *Memoirs* because it is not meant to be an insight into the geisha world like *Memoirs*.

Therefore, it turns out to be a book that falls short of both geisha insight and erotica....I wouldn't recommend it.

Granny says

Overwritten blather.

When erotica is boring, it is either badly written or one has become old and irrevocably jaded.

I am middling old; the book is badly written. Ho Hum. Phooey.

Erin says

Hated this book-DO NOT READ
