## **The Magic Factory** Morgan Rice

“A powerful opener to a series [that] will produce a combination of feisty protagonists and challenging circumstances to thoroughly involve not just young adults, but adult fantasy fans who seek epic stories fueled by powerful friendships and adversaries.”

--Midwest Book Review (Diane Donovan) (re A Throne for Sisters)

“Morgan Rice's imagination is limitless!”

--Books and Movie Reviews (re A Throne for Sisters)

From #1 Bestselling fantasy author Morgan Rice comes a new series for middle grade readers—and adults, too! Fans of Harry Potter and Percy Jackson—look no further!

THE MAGIC FACTORY: OLIVER BLUE AND THE SCHOOL FOR SEERS (BOOK ONE) tells the story of 11 year old Oliver Blue, a boy unloved by his hateful family. Oliver knows he is different, and senses that he holds powers that others do not. Obsessed with inventions, Oliver is determined to escape his horrible life and make his mark on the world.

When Oliver is moved to yet another awful house he is put into in a new sixth grade, one even more terrifying than the last. He is bullied and excluded, and sees no way out. But when he stumbles across an abandoned invention factory, he wonders if his dreams might be about to come true.

Who is the mysterious old inventor hiding in the factory?

What is his secret invention?

And will Oliver end up transported back in time, to 1944, to a magical school for kids with powers to rival his own?

An uplifting fantasy, THE MAGIC FACTORY is book #1 in a riveting new series filled with magic, love, humor, heartbreak, tragedy, destiny, and a series of shocking twists. It will make you fall in love with Oliver Blue, and keep you turning pages late into the night.

Book #2 in the series (THE ORB OF KANDRA) and Book #3 (THE OBSIDIANS) are now also available!

“The beginnings of something remarkable are there.”

--San Francisco Book Review (re A Quest of Heroes)

# **From Reader Review The Magic Factory for online ebook**

## **Jason Carpenter says**

The Magic Factory is such a fun and exciting story! Oliver seems to grow more and more relatable with every struggle he faces, at least for me. The cast of characters is awesome, as is fairly typical for Rice. The villains are so easy to hate and the good guys are so easy to cheer for. It's just great to have some decent, straightforward, relatable stories to read now and then, and I can always count on Morgan Rice for that.

---

## **Kathy E. says**

Very entertaining! It seems the plot jumps a bit, leaving gaps in plot development, but it certainly was exciting to read.

---

## **William Vegvari says**

This is a great start to a new series.  
Loved the concept and the characters.  
Highly recommended

---

## **Pamela says**

### **At Last.....a new series to enjoy....**

Always looking for new a new series and there are several books...I'm bad at waiting for the next in the series...hop in and join me....

---

## **Margaret McCormack says**

This is a fast paced read with lots of twists and turns. Oliver just doesn't fit in at home or at school until he visits a derelict factory. His life changes as a result of his visit to the factory where he meets his hero! Lovers of Harry Potter will enjoy this book but it is as much different to it as it is similar.

---

## **Mary T says**

Not up to Morgan Rice's previous works.  
Story line has good possibilities but needs work. There is much repetition and the progression is slow. I will try book 2. I hope there is an improvement.

---

## **Mairi Krausse says**

### **Great young adult adventure!**

This story has a similar plot line as the Harry Potter series, but is also a very different story. About mechanical inventions and special powers, in a school for older teenagers to help train them to use their powers. Very different and very interesting!

---

## **Rachel says**

It felt derivative of Harry Potter in terms of structure. Horrible family that isn't his with a "sibling" who gets everything. There's the school for kids like him. But the actual story differs in terms of plotting.

---

## **Scott says**

I am fairly new to reading Morgan Rice . That being said. I love this book. Great new imaginative world. This book is fun fast paced and full of spunk. I can't wait to read the next installment of this series. I won't give spoilers as some of the other reviews have done but I would like to say that the thought of the main character being bullied just makes him that much stronger. I thourly enjoyed this read it is probably my favorite that I have read. I have read the sorcers ring and most of the transmission series. Again this is the best. Please keep up the awesome work.

---

## **William Myles says**

I was beginning to think I was going to have put up with 'oh, woe is me' a lot longer than I did. But after the factory was found, I started getting excited. Now it was getting interesting! I was not disappointed. I like the characters, (young people and adults) that are brought into the story and the fact that a teensy bit of background is given so you know what kind of a person they are. There's got to be at least one bully, right (I mean besides his brother)? And the fact that he is making some real friends really helps. All in all, I enjoyed this book and am getting the Orb of Kandra. It is in my collection and I'm starting is SOON.

## **Don says**

### **Stunning delight**

Morgan Rice created characters that floated into my world. I always object and critique as I read, but in this book I became part of the story holding this story to be the only reality. The Magic Factory became real perhaps because the conflict between characters was so familiar, and the interior struggling is reflected in our daily lives. I'm looking forward to the next installment! Hope you make time for this delicious journey.

---

**David Ogilvie says**

An excellent tale about Oliver Blue, a young boy picked on and abused by his family. He is forced to move from school to school where is teased and tortured for being weird. But Oliver has a destin, all he has to do is discover it.

---

**Tami Boreman says**

cute fantasy young adult book, reminds me a bit of Harry Potter

---

**Heidi Galiati says****It was good, not great**

The story doesn't really start until halfway through the book. I don't like that an 11 year old boy has a girlfriend and that he worries about the relationship. That creeps me out actually.

The story idea has potential and may get better but I am not sure I want to continue past this book.

---

**Julie Powell says**

I love this author's work so was delighted to be given a copy of this new series - here is my review.

Oliver Blue hates his life; uncaring parents, a bully of a big brother and yet another new school... But there is something special about him; not least being very clever (and so much more).

This new series is for anyone who enjoys adventure, magic, good v evil, heroes and villains and fantasy. It will certainly entice Harry Potter fans, though it is different in many ways - no spoilers.

Well-written, fast-paced with a great sense of place, this tale has great characters and storytelling.

Highly recommended.
