I was surprised that the book was "Taglish" but well it did caught my attention. The story was good except that it was still on-going. I was caught off guard with the last part and I seriously want to rip someones hair. I need to read the next book!

I love love love love it!! My ideal kind of story. ;) PERO SOBRANG BITIN!!! -___- I can't get it out of my mind. Book hang over again. The ending of the first half of this book was just.... //3

Zennica says

One of the best young adult contemporary romance made by a Filipino author na nagustuhan ko.

After reading the first few chapters, I realized that, *gosh how I hated this book*. But eventually I found it okay since everything improves as the story progresses.

First, let's talk about the things I liked about this book. One thing I really liked was how the author wrote those sweet and intimate scenes between Haley and Russel. Yung tipong para pati ikaw, mapapakilig din? I also liked most parts of the story, especially the part where Haley decided to let go of Vince.

Okay so now let's talk about the things I hated about this book. The first thing I didn't like? It was the writing style of the author. It switches between English and Filipino in every single page! This even caused the writer to have minor flaws in her english grammar. In the first half, I also noticed how some of the chapters were written in third-person point of view while the rest were written in first-person point of view. It was pretty inconsistent.

This story was also cliché, which means that there were a lot of overused plot elements present in the story. This I didn't like.

In the end, I decided to give this book three stars kahit bitin yung ending. Nagustuhan ko naman yung kwento nito kahit papaano.

Nice book but I think I won't continue it cause I don't really have money for the next one, but never say never.

This was the first Watty story I have read and this is the reason why I've been drowning myself into pool of letters everyday and I'm deliriously happy bout that. I can't fathom why.

I have read this in wattpad last year. It's a good book, actually, a good plot. It makes me feel that I am in the story, that I am one of the characters. It makes me feel all the sad feelings a person can actually feel, especially towards the ending. I like how the writer put the twists in it and how the characters blend with the original plot of the story. As I remember once it is completed in wattpad, I have read it for nth times. It is a good book for light reading.

that ending - _____ - it left me hanging of why WHY why.

To be honest, I am (surprisingly) familiar with the ambiance and the flow of the story and this story is so good without it realizing. Though there are SPG HAHA well as I said, this book is so good.
