This book is a wish come true. I was depressed after reading All of Me? The Trust Me Trilogy, thinking that I would never again have Aiden, Jeni, and their families in my life. Complete Me? tells the story of the other characters, mainly Mike and Callie and Chris and Sarah. I cried, laughed out loud, and cried, again. I can't say too much without giving away some surprising events in the book, but I have to say that I HIGHLY recommend this book. I still tear up thinking about the ending, but they are happy tears. K.E. has, once again, amazed me with her writing abilities. Thank you for taking me to Mornington Vale and into the lives of Aiden and Jeni and their families.

Well what a cracker this book turned out to be. I absolutely loved the interaction between all the characters.

This is the continuation of the Trust Me? Trilogy story and it is told from the male perspective. The three men, Mike, Chris and Aiden all share their stories, and of course, Sarah and Chris are hilarious as always with the antics that they get up to.

I couldn't put this book down and there is, as always, a little shock in there, when a book is written by KE Osborn.

Well done on this great final book in The Trust Me? Trilogy, I absolutely loved it and I will definitely miss the characters of the Trust Me? Trilogy. Great books by a fabulous new author.

I was given an ARC in exchange for my honest review.

I cannot say enough about how thrilled I am to have Complete Me as the final book in this trilogy - there were so many questions I had about the major couples throughout the series, and this book provides history and a glimpse into their lives, yet does not detract from the focus of the trilogy - Jeni and Aiden. Their relationships with these other couples was vital to the success of the first three books, and I am so happy that Osborn dedicated several short stories - and the male POV - to wrap things up. If you have read the first three books, this final book is a MUST.

Honestly, I have to say that this is my favourite of the series! I loved reading about Mike and Callie and their relationship before Callie married Alistair. It was such a beautiful but heartbreaking story and i couldn't help but root for Mike all the way through. A big revelation is revealed and OH MY it's a big one! I was so shocked but in a way very very happy with this news! Go and read it and you will know what I'm talking about! hee hee

Reading the other three books, I always thought it would be great to get to know Chris and Sarah more and we get the chance as the first part is written from Mike's POV and is about Mike and Callie, Second part is written from Chris's POV and is about Chris and Sarah and finally the third part is written from Aiden's POV and is about obviously Aiden and Jeni. We have to have a bit of hunky Aiden right??

Great book, very well written and i'm so happy to have read it. It kept me up the most of the night, I just couldn't seem to put it down but it was well worth it.

It's really hard to say too much without giving too much away but all of the book was AMAZING!! I have really loved this series. All characters are awesome, i even found Alistair entertaining at times. Highly recommend, Go and grab your copy now! If you haven't read this series, start with Trust Me? book 1.

Complete Me? (The Trust Me? Trilogy #3.5) is a novella depicting the lives of our favorite Trust Me? Trilogy characters following on from the conclusion of the third book - All of Me? The Trust Me? Trilogy.

This Novella will be three short stories all told from the leading males point of view.

Story one - Adore You?  
Mike and Callie's story

Story two - Desire You?  
Chris and Sarah's story

Story three - Cherish You?  
Aiden and Jeni's story

\*Adore You? The story of Mike and Callie takes place after the trilogy before the Epilogue. I thought the story was so sad and yet it was sweet. The book is in Mikes point of view and he explains how he first met Callie. The book answered a few questions I still had left over from the trilogy concerning Mike and Callie. I really liked Mike in the Trust Me? trilogy and Im glad he finally got what he wanted since he was a teenager. So glad the author decided to do this for her fans. I love it.

Desire You? The story of Chris and Sarah takes place right after Mike and Callies story. There were things that were talked about in Mike and Callies story that have now been revealed and I love that. This has got to be one of the best parts of the stories. I cant wait to see how everything unfolds.

Cherish You? This is the story of Aiden and Jenifer. This is also the conclusion to the Trust Me? series. Wow! I enjoyed seeing how Aiden with the help of Jenifer deal with things that have come up in the trilogy. Aiden has to deal with a troubling secret and he has a very hard time with it. Of course Jeni is there to help him. I love that these 2 characters can go through so much and still not waiver in their love for each other. This has got to be one of the most romantic stories I have ever read. K.E Osbourn did a fantastic job with this story. I would highly recommend this book. Just remember as good as this story is you must read the amazing beginning in the Trust Me? trilogy.

Oh my what a way to finish up the series in Complete Me? The Trust Me Trilogy? We get to read and learn about Mike and Callie's relationship how he came to be around the O'Connell family. But what are they hiding?

Than we also see more of Chris and Sarah they have little ethan, sarah wants another baby so we see them going through trying to get pregnant and of course in true Chris and sarah way we see the naughty passion and heat.

Than we come back to Aiden and Jeni well Mike's secret is out and WOW what a secret how will Aiden deal with it all he now has 3 children and trying to run O'Connell business. Of course jen is there to keep his head on his shoulders and the love these two have is so strong and beautiful.

So now that we are at the end all I have to say is go read I could not put this book down or the series. Thank you K E Osborn

Well worth the wait. Best book so far. Loved the way the story unfolded between the characters. Chris and Sarah were hilarious in some of the situations they found themselves in. Looking forward to many more books by Kimberley.

First off I admit I love Aiden! But Ive now got a thing for an older man too, Mike ♥?

This book completes the story so well, it spans a few years so there's lots of story to tell, a surprise too.

If you've read the trilogy already you know all the characters well, but this book takes things to a new level, did I mention I loved it!

The first part covers callie and Mike, then we get Sarah and Chris and lastly we finish on a high with the delicious Aiden. This book is different to the main trilogy in a way, that is its more real life, not the romance and getting together part, which lets face it we can all relate too very well.

Of course I'm sad this is the end of Aiden and Jeni's story but what a fabulous place to leave them.

Five happily ever after stars

This was the best book in this series. After reading Mike and Callie's story I would have rather the series be about them.
