## Nowhere to Hide Carlene Thompson

Marissa Gray's world was shattered when her best friend, Gretchen, was brutally murdered. Back then, Marissa tried to convince authorities that Dillon Archer was the killer. But her eyewitness statement wasn't enough—and Dillon disappeared. Now a successful journalist, Marissa is back to help her family during a time of need. After years away from Aurora Falls, she finally feels the past is safe behind her. Until a terrifying hooded figure causes Marissa's car to swerve off a snow-slick road, nearly killing her.

Once again, no one wants to believe Marissa's story—not her sensible sister Catherine, and certainly not her ex-fiancé Eric, who happens to be the town's deputy chief of police. But other strange happenings are afoot...and a terrifying sequence emerges in which old friends of Gretchen's start turning up dead. As Marissa desperately races to uncover Aurora Falls's secret history, someone is two steps ahead, concealed in every taunting clue—and waiting to silence one inconvenient witness forever...

This is the first book from this author I have read. It was a good mystery that I had difficulty putting down. I knew Dillon wasn't the killer, but I wasn't certain who it was until near the end of the book. The ending was bit of a surprise especially what really happened to Dillon and who did it. I would definitely recommend this book for people who like murder mysteries.

I checked this out of the library & I really enjoyed the book. This is the first book I've read by this author & I'll definitely be reading some more of her books. It was a good mystery that I couldn't put down. I was surprised at the ending & was completely engrossed. My husband was making fun of my gasps as I read the book. Definitely recommend this book.

A really nice mystery book, kept me on my toes till the end.

Like a good murder mystery should be. Kept me wanting more and prioritising the book over other things I should be doing!

### **Marianne Stehr says**

Too many characters, too long a set up and a story that just couldn't be followed is the impression I got. I could not make it past 75 pages, maybe it gets better, but I wasn't "into it" and didn't feel like putting in the time.

### **Alex Arth says**

A murder occurs on an island and many years later the people present come together again. As they become

reaquainted, murders begin to occur. Everyone believes the person responsible for the murder years ago has returned. In the last two chapters the plot takes a totally unexpected twist. This was a very enjoyable book and a quick read.

Not one of the better Thompson books. The heroine/hero were very strange. They were written very young/immature in terms of language/actions. The story carried along, but it felt like without any real interactions from the people within it. I start with an older book - maybe from the late 90s.

### **Sheryl says**

I haven't read a mystery/thriller in awhile so maybe they're not my genre anymore. This seemed to me overkill in the body department, the buildup and drama. Lots of characters and it was easy for me to put this book down for several days.

Marissa witnessed the death of her closest friend years ago, yet the police decided to use another person's "eyewitness" account instead. Now though, people who were close to the victim are dying. Has the killer returned? Thompson, a WV Writer, is good, but I did figure out "whodunit" just not why.

Enjoyed the book, very good mystery, I had thought I had figured it out (knew it wasn't Dillon) had someone else in mind, what a surprise at the end. I started reading this book around the middle of February on my lunch break, but had to take it home tonight (weekend) knew I would be itching to finish it to see if I was right. So glad I did,

"I have read some of this authors books before and have enjoyed them. I wouldn't put them quite on the level of Mary Higgins Clark but close. She writes a good fast paced mystery. I had no idea of the killer until I was at the end and while I did enjoy the book I found the motive for the murders to be a little far fetched and not very logical. Nonetheless I did like it and will read many more of hers." . (copied from a random persons review)

I love to support West Virginian authors.
