Awesome!!!

Iluzija O. Istini says

Not impressed.

Not absolutely bad, but not good ether.

This book was supposed to be a collection of thoughts that will make you stop and reflect on your life. As a person that liked and read a lot on the philosophy of zen teachings, I can say it failed. Among large amount of things that have been said so many times they lost their meaning, you can still find a clever story or two. Sadly, story or two is not enough to make a good book.

Thank you for trying, but you can stop now.
