Wow, sometimes you are in for a surprise when you find a new writer.

I am not sure why this book was such a hot read for me.

She is willing so badly to join the club she does anything to get in.

He is just an asshole and a dominant, playing with her in a very uncomfortable way, trying to find her limits so to let her say stop.

But she doesn't, she even likes what he does to do.

She is getting extremely wet despite of the pain and all the metal on her.

Looking forward to read more in this series.

This was label as erotic but to me was sick porn. The idea of a girl goint throu all that (sex exploitation) just to belong to a exclusive club/ sorority is plain dumb. There was sex scene after sex scene with no plot. It was just because the sorority demanded it.

Nah doesn't do it for me.

### 2 Cringe worthy Stars

This last week I have been super busy and haven't been able to just sit down and read the novel I started days ago, so while out and about I have been pulling out my kindle app on my phone and reading little short stories when bored. I know these little books that are normally less than 50 pages don't really have a plot and are mainly smut so my expectations are low going in. This 17 page gem had me cringing and wanting to use bleach on my brain.

Open Your Legs For Me was a total smut book about a college freshman willing to fuck her way into a really popular college club. You know as Initiation and all that. The problem is that the descriptive wording in this book was cringe worthy, and the sex was boring when it was meant to be shocking and over the top kinky. I just found it lame and gross. Here is a few quotes to give you an idea of the flowery words use in this book:

**my crotch-which is now leaking like a creamy sundae fountain onto that little cotton scrap. I ease my panties off slowly, taking care not to let the hem of my skirt ride up again. They fall around my ankles in a minuscule string. My nether lips are throbbing around the little moist kernel of my clit, and copious juices are flooding my entire pussy in a warm, wet tide.**

Or how about this lovely quote

**The moist hole of my vulva gapes above the deep basin of the bidet, and just behind it, separated by only a thin sliver of flesh, my anus puckers wide open.**

Or

**He scrutinizes my very open and burning pussy lips. My juices are beginning to flow again in a never-ending stream, trickling from the trembling and oh-so-soft opening of my vagina down the fragile skin to the rim of my anus.**

This book had double penetration, bidet masturbation/sex, male pissing on female, voyeurism sex and clamps and I was so bored. I rolled my eyes the whole 17 pages. Many times I was thinking that the female MC must have an std and need medical care the way her vagina leaks. Sorry this was just not good!

Short story of initiation ambition to elite college group. Domination and submission control with plenty of humiliation, private and public. One or two typo errors not too many. Considered for 2/3 stars...borderline so just 3 given. However, it does leave you wanting to see how far Gina will allow Max Devlin to go or take her in her initiation rites, has she got it as she claims, to go all the way? This continues to Level 2.

I started reading this book and by the half of it i just couldn't continue. I'm shocked and i can't believe there are girls out there willing to humiliate themselves in order to be accepted in some stupid fraternity. And i say this because deep down i'm sure this book is based on some real info. This kind of things happen in real life too. Women humiliated and mocked ... And for what? Not for all the money in the world i could put myself through something like this. It's degrading. And just horrible. I can't believe someone can write a book like this. I can't even think about the other books from this series. I suppose it's the same horrible story line. I have no word for this. The most horrible book ever read!

Was a fairly fast paced erotica; free on kobo so you can check out the first book before deciding if the series is for you. Has BDSM, I enjoy BDSM in erotic novels but I it brought a different vibe to the table, and also has the college aspect of sleeping with a random handsome stranger. So overall if you enjoy BDSM then you can definitely give this one a try; if you're new to BDSM this might be a little more intense since so much happens within so little pages but for me it was a good read.

Fraternity and sorority life in college has long been coveted as one of the most endearing, enduring, and memorable college experiences. Friends and fellowships formed in these subdivisions of the university often continue long after formal schooling ends and ex-students go out in the world to make their fortunes, build their futures, and change the world. Initiations to enter these groups have often come into controversy as extreme, demeaning, and even dangerous. Nevertheless, many students are more than happy to comply and perform to any obstacle or demand made of them.

Gina Wesley is willing to do ANYTHING to be accepted into Phi Kappa Omega. As a mere freshman at Gilford, to be even considered for membership is almost unheard of. Max Devlin has plans for this upstart freshman. The sight isn't a pretty one. Degradation and humiliation take on a new meaning. I don't think the initiation ritual of Phi Kappa Omega is sanctioned by the university.

This is a story of domination and control; pure and simple. Emotionless and cold, the degradation and humiliation know no bounds. If asked if I liked this story, the answer would be no. The exploitations of one person of another should never be allowed or encouraged. Does this story have any redeeming factors? I would have to answer that question in the affirmative; it is blissfully short and free.

Full Series Review:

This series have a little bit of everything: BDSM, rough sex, menage, multiple partners, humiliation, a couple scenes with M/M and F/F and more, much more. I lost the count all the men (and cocks) walked in Gina's life.

If you like or least you don't dislike this topic you'll enjoy this series.

About Gina just I'll say If she did all the things she did only for join a fraternity.. boy, what she will do for a job?

Horny moment: Was there steamy and good moments? Hell yeah!

I agree that this book is rather short for the buck your paying. But on the other hand, it is one of those ones which you can go back and back again. It was really erotic, but there is only that one big scene. I happened to only get this one since I wanted to read the 2nd one (only bought the two) and wanted to understand the plot.

(I enjoyed the 2nd book more, got hooked from the sample and happened to like it more than the book itself! The author is not conventional and that one was at times a bit too much - and I'm avid bdsm reader.)

If the price point was cheaper, I would definitely read it all. The author is good, and I liked the scene though I wished it was a bit longer as it felt as though it culminated and then just stopped.

Can only give it 3 stars as I only found it mildly interesting - not much verbal interaction and no character development that I can really see. Motives and desires from both hero and heroine are not really delved into. But, it was highly erotic and if you enjoy a bit of humiliation and forced voyeurism among other things you'll probably like this.

In spite of the cute cover this one is kind of more hard core. I liked it (quite well) but then I'm bent so, you know...VERY different -- 1 star is for pure originality. The concept (sort of a frat or sorority/private club) initiation has been done but not quite like this. I think there are more of these and the only reason I hesitated is because this one is very short - and at \$1 an o.k. price. The cost of the other parts of this tale are \$3 - and that's too steep if they are this short as well. This would have been far better, IMHO, as a novella with all the parts together. I'm not really into serial stuff. I do need to note that this is self contained - but will certainly leave you hanging.

Not tame - definitely with a dub con feel. Hot and sexy. \$1. Need I say more?

Okay, I found this one while trying to find another obscure ebook through Chapters and now I can't even remember what I was looking for in the first place! Also, how can I resist such an outrageously awesome author name and very revealing book title?!

Unlike Anna Bayes, Aphrodite Hunt spends more time on the build-up that climaxes (pun most certainly intended) on the final page. Where Bayes was vague and shy Hunt is vicious and explicit. Both women are excellent in their craft, but this time around Hunt had the more "wank-worthy" story. My right hand thanks you, Hunt.

Quick thoughts: Creative, stimulating and warning: Water sports.

If you like a little domination and submission and to dabble in humiliation you will probably enjoy this short erotic initiation delight from Aphrodite Hunt. I really enjoyed her attention to detail and interesting language. The story was short, but had substance and while it wasn't the best short I have ever read it was stimulating and exciting enough for me to ask- what's next. Will I read the next piece in this series, maybe if it was cheaper, but I did enjoy it for what it was worth and damn what a creative way to use water.

**AAAH! My. Poor. Lesbian. Heart!**

If this is what heterosexuals finds erotic, I want nothing to do with it!  
No people! Stay away! Save Yourselves!  
Pure garbage!
