### **The Sapphic Nerd says**

Well, the girls are in their teenage phase of development now and Ivy's not sure how to deal with their beginnings of rebellion. It's amusing to watch her parenting and I'd like to see more of it. Meanwhile, they girls are being hunted down by something... I'm still missing Harley in all this, and hopefully she shows up in time to make up with Ivy and help her with the girls in the finale. Beautiful art.

### **lauren ? (wonderless reviews) says**

I don't want this series to end!!! It was so interesting to see Ivy's seedlings and her being in a mother-type role. I felt like the time jump from this issue to the last one was a little bit disjointed, but other than that I loved this. I can't wait to see how it all wraps up.
