The Moses Code: The Most Powerful Manifestation Tool in the History of the World James F. Twyman

Is it possible that nearly 3,500 years ago, Moses was given the secret for attracting everything you've ever desired? The Moses Code was first used to create some of the greatest miracles in the history of the world, but then it was hidden away, and only the highest initiates were allowed to practice it.

In this book, James F. Twyman reveals the Code for the first time, showing how it can be used to create miracles in your life . . . and in the world. By practicing the principles presented within these pages, you'll discover how you can integrate the most powerful manifestation tool in the history of the world into your own life.

At the very heart of the Moses Code is the true function and practice of the Law of Attraction. You may have been told that this Law is all about "getting" the things you want—things that you think will make your life more satisfying. But what if that's just the first step, and cracking the Moses Code depends more on what you're willing to "give" rather than "get." That would mean that you have the power to create miracles in your life right now! It would also mean that you have the ability, even the responsibility, to use that power for more than just attracting money, a better car, or the perfect relationship.

You're here to use the power of Divinity itself to create a world based on the laws of compassion and peace. That's the task that lies before us.

From Reader Review The Moses Code: The Most Powerful Manifestation Tool in the History of the World for online ebook

Catherine White says

If meditation is your practise, "The Moses Code" will propel your meditation into a realm that is both practical and spiritual. Far from a religious book, "The Moses Code" teaches a principle handed down by the world's three monotheistic religions that's as current today as when Moses met "I AM."

I'm unconcerned with interpretations of the ego as discussed briefly here, I'll leave the discussion of esoterics to others. I just want to know what it will do for me.

A book that can be read in one sitting, "The Moses Code" contains a lesson to be applied for a life time. Meditation has always come easy to me but practising "The Moses Code" has realigned my practise, elevated my mind and expanded my spirit.

A little book that packs a world of value. An easy five stars from me.

Shawna says

I loved this book as I finally gained understanding about Moses and the *burning* bush! I also found another powerful tool to use in life.

David Geschke says

Probably not a book that would interest everyone, but a worthwhile read for me. The manifestation tools are easy to use. Based on God telling Moses his name is "I AM THAT I AM" when asked.

Candace Talmadge says

This is one of those rare books that makes the connection between what's going on within each person individually and the collective state of our world. It teaches an affirmation that I have been using daily for some months. Anyone interested in the connection between breathing and healing the self will find this book helpful.

Sharyn says

This is an amazing conscious rising experience. Please take the time to read this!

Lucinda Parker says

Moses Code

Great book, the author brings awareness that God and the human race are one exactly what's needed someone that can simplify the Journey.

Babylov Dominique says

If there is one book that everyone should read, it is definitely this one. It's very informational, spiritual, easy to understand and very POSITIVE! Especially these days with all the weird things happening to us, we definitely don't want anything negative. I was guided to read this book and am very grateful that I had the opportunity to read it for it helps me in seeing the world so much brighter and with more love and peace. At the end of the day all that matters is love, for love is the essence of everything in life. If you still don't know and can't make a choice about what you want in life after reading this book, then you will never know what you want. This book not only teaches you how to manifest all the things that you want and dream of, but it also guides you and advises you about what your soul really wants to be happy. The things that your ego thinks you need are not what your soul thinks you need. You should always listen to your heart and not your mind, for the heart is the bridge that connects you to the kingdom of God. If you only listen to your ego and not your soul, your dissatisfaction in life will always persist. Please don't let some of the bad reviews make you skip this book, give it a try and read it with love and an open mind. If you are a positive person who is trying to stay on the positive side of life, I promise that you will not regret reading this wonderful book.

Yvonne says

Excellent...the Law of Attraction has been simplified.

Tammy says

Very powerful

If you are wanting to truly understand all of the gifts in life bestowed on us from the creator, this is a must read. I truly hope you will be blessed as much as I was by reading this book. It is one you will read over and over!!

Adrianne Powell says

AWESOME!!!!

This book is good, no great! I have truly been enlightened and feel the anointing. Wow!!!! Please read, you won't regret it.

Elizabeth says

Am reading this book right now, but I skimmed the book and from that I know I will love it.
My friend Jan told me that if you like "The Secret", then you will really like the Moses Code. I said myself that I'd like to do a version of "The Secret" that had a more spiritual focus and this is it.

Lori says

Wasn't sure about it at first...seemed really superficial..then it turned, and it finished strong! I shared the same feelings author does about the secret. Kudos. Be challenged.

Brigitte Bell says

Great book on the power of "I AM." Must read for anyone wanting to expand their consciousness and awareness on the power of their words and co-creative abilities.

Jacquie Jones says

interesting concept ... very similiar the Rohnda Byrne's The Secret.
i enjoy readying anything that throws out positive attraction and manifestation ideas ..
the one is based on Moses seeing God appear as a burning bush and it goes from there.
the keys to manifesting are explained and reviewed ...
i know the author was not completly accurate in the historical aspect of the book, but the content and the intent was very good
easy and interesting read

Ben Tousey says

Everyone claims that they've got a "code," a magic pill, a special step that you can take that will solve all of your problems.

This is just such a book.

Anyone who has studied the Old Testament, particularly the Pentateuch, knows that it is a series of documents coddled together to form what we now call the Bible. James Twyman didn't know this. He believed that some special code was inserted into the story of Moses at the burning bush, and remains to this day and he managed to unlock it.

The stories of Moses and Aaron were written by competing factors, and for a political agenda. P wanted to

elevate Aaron and show the Aaronids as the legitimate priestly purveyors of the law. J/E on the other hand were doing the same for Moses, making Moshite priests the legitimate purveyor of the law in the Temple at Jerusalem.

You can't know this history and read this book.
