The Professor (Fox University - FU)

Luke Prescott

The Professor (Fox University - FU) Luke Prescott

I'm Professor Drake Grayson. I've been teaching Psychology for the last few years at Fox University. It's a great university, filled with a wide variety of students. Some eager to learn, some eager to get in my pants.

I've never crossed that line. I've never taken advantage of the power I have. I've never wanted to bend a student over my desk like I have with Emma Bower. She makes me want to forget I'm her professor and teach her things that she'll remember forever. But is the risk worth it?

I'm Emma Bower. I'm in my last year of Fox University as a Psychology major. I can't wait to get out into the real world and pick people apart. It's been an amazing four years filled with memories that I'll never forget.

Especially the penetrating stare of Professor Grayson. That man has been in every fantasy I've had since the day I walked in his class. I know he's untouchable, forbidden, he's my professor, my mentor. But what if his touches lasted longer and his eyes darkened with a wicked grin? What if the professor everyone wants, wanted me? Would the risk be worth it?

There's only one way to find out.

Jos says

No rating another DNF

SPOILER AHEAD!!!!

Just didn't quite connect to this and yes, I skimmed to the end and thank goodness I didn't waste my time getting there because it was the poorest excuse for a "HEA"....sorry, that ending sucked, it literally ended leaving you guessing in my opinion!

Valeen Robertson (Live Thru Books Blog) says

Wow, I seriously was not expecting what reading *The Professor* did to me! I know, I know...the title makes you think it's just the standard issue taboo professor/student thing that's all about the naughtiness the forbidden offers, but *The Professor* is much more than that.

Drake Grayson is the hot professor all the college coeds want but he's never dipped his toe in that particular pond. He's got too much to lose if he ever got caught, so he keeps his exploits to women who don't litter his campus and his classroom. That is, until Emma Bower happens to him. They dance around it for awhile but eventually, they give in and of course it's super hot - forbidden and all that. But what I liked about *The Professor* is that the emotional component is as important to the story as the physical. Emma and Drake's connection is just as strong emotionally as it is physically. Both are substantial, layered, supremely likable characters.

If you like your forbidden romances with both heat and heart (and some sadness and melancholy thrown in), I highly advise you 1-click today!

I received an ARC for an honest review.

Lorie says

Meh. I skimmed nearly the entire story. The writing just didn't grab me, and the story was just ok. The best writing happens when it's just Emma and Drake together. It felt like the intimate scenes were thought out and written first and the rest was just filler.

The student/teacher trope is my favorite, and I've read some spectacular ones so it's not a case of content or the story line this time. With the high ratings I'm hoping it's just a case of "it's not you, it's me"..... but, who knows.....

Book Boyfriend Whoarder Mari says

Very sexy read!

This was a nice one to read. It was light and sweet. Definitely wanted more from the epilogue but it worked out anyways! I'm intrigued to continue to the next one if it's as sexy as this one!

Mila Rossi says

Nothing gets me more excited than a good teacher/student story, which is why I picked this up. The beginning was great, the ending not so much. I loved the dirty-talking professor and thought the college girls sounded just like...college girls. Surprise, surprise. I wish the relationship had been more developed since it seemed like all the hero/heroine did was have sex. Also, another round of edits is necessary.

Denise says

That was the WORST epilogue I've ever read in my life!!
The book was good and then the epilogue came... BOOM!
Instantly Stars falling off the rating. Why would you do that with the ending? I'm pissed.
I WAS excited to read The Coach but now I'm not sure I'll bother with the way this author feels comfortable ending their books. ?

Julie says

That epilogue sucked.

Liked the book. I'm very thankful the heroine was actually smart, mature, and not a "squealing" student. Now the hero? Yep, I'm hot for teacher! Not going to argue about his dirty mouth, I ate it up. The let down was the epilogue. I felt like I hit a brick wall. You left us hanging, I'm not going to mention details because others have yet to read it. I honestly feel cheated.

Emma has finally graduating from college. She is ready to go out and become a psychologist. But she has to finish Drake Grayson class. Drake is the hot young psychology teacher that every woman wants. But he has a no student rule. He wants to keep his job and is enjoying life. But when Emma starts giving Drake more attention than ever before Drake sees something inside her.

Emma has been dreaming of Drake for a while now. She has a huge crush on him and wants to be in his bed. But after getting to know him they fall into a friendship.

This story isn't just about two people having sex and that's it. Drake and Emma have a real connection and

love story. The reason I didn't give this story 5 stars is the ending. It is a beautiful ending but left me feeling off. I am not sure where it goes from here.

Andrea says

Emma and Drake's story is heartbreakingly bittersweet. It is told in an empathetic way so you easily can sympathize with both protagonists.

Once again it made me appreciate the gift of love as does every romance. But this time it felt more intense because both protagonists fight so hard to deny their forbidden feelings.

And it is told in a simple but very memorable way that is more impressive than the gushing about emotions that some other authors do with their romances.

This is a deliciously forbidden and taboo love story and yet much, much more than I expected by this title. It is epic and so well worth your time.

Elizabeth Kras says

What a great read! This is the first book I read by Luke Prescott and I can't wait to read more. When I first saw this book getting advertised I was so excited to read it and I was thrilled by how much it lived up to my expectations. The characters were so well developed and were written so you felt like you knew them in real life. I could definitely see some of myself and my friends in the roommates that are in this story and I mean who hasn't had a crush on a teacher/ professor at some point in their life. This book is definitely for you if you enjoy the forbidden romance that come to be. There are definitely a few twists and turns and the twists always kept me on my toes, they weren't the easily predicted plot twists or problems that you would normally guess. This book has its fair share of steamy scenes and let me tell you, make sure you have a fan near by because you are going to need to cool off somehow after reading them. Prescott did a great job writing this book, I can't wait to see more books in the FU series :)

Jeanette Oglesby says

SO Damn HOT!! More than a 5 Star Read!! MUST READ of 2018!!

I was drawn into this Teacher/Student romance from page one and couldn't put it down. Drake and Emma have an amazing chemistry from the very beginning. The sexual tension between these two had sparks flying page by page. I couldn't read fast enough. I laughed, cried, and totally fell head over heels in love with these two.

This book was absolutely perfect in every way. I think I was drawn in more knowing that this is a romance written by a man. Luke Prescott has done such an amazing job on this book and has now become my favorite male author. I will be stalking him and can not wait to read more of his books!!

I am HIGHLY RECOMMENDING this book!!

Happy Reading Everyone!!!

Suzanne bourgeois says

I need more!

I need a book 2! This was awesome. I fell hard once for a professor but didn't get the fairy tale. I'd love to see maybe a sequel? This book was very well done and definitely worth the read. He's hot and hmmm I'm thinking maybe some summer courses? Well done Luke

Meghann Martin says

This book was beyond amazing! As soon as I started reading it I was captivated and hooked. It's the kind of hooked where you just can't put the book down. Its full on build up, angst, passion, and just HOT! Pure perfection!

Professor Grayson cares about his job, he does, but it's hard when you have all these beautiful college girls throwing themselves at you on a daily basis. It makes him sort of an asshole on the out side, A hot one, but he doesn't want to deal with the consequences.

He keeps his guard firmly in tact but, uh oh, enter Emma Bower. A student in one of his classes that he is quite intrigued with.

Emma is the smart beauty. Hard working and wants to succeed after she gets her degree. She keeps her focus but her psychology professor makes it tough. She doesn't want to be like all the other girls and just throw herself at him. But secretly, she really does.

The sexual tension just builds and builds between them and you know it will be explosive. You can feel it while reading. It's the best kind of slow burn. What happens when they can't take anymore? Will they be able to survive the consequences? You have to read and see!

Luke did amazing job with this story. I love all his books but he knocked it out of the park. Definitely a must read.

Christine~justlovemybooks.com blog~ says

4.5 Stars

First I am going to say that I recommend this book as a must read. With each new book, it is easy to see how this author's writing talent steadily grows. And that says a lot because I have loved each book written by Luke Prescott. The Professor pleasantly surprised me. After reading the blurb and teasers for this book, I wasn't sure the direction this taboo romance was heading. I admit that I assumed Drake would be a bit too arrogant but that was not the case. Yes, he was demanding but also a gentlemen. The Professor has all the feels. As a reader I was very satisfied how the author gave us an incredible story filled with a range of emotions. A great balance of seriousness, humor and scorching intimacy. The pace of this book was steady to fast and I was able to read it in a couple of hours. I was engaged from the very beginning and my interest never wavered.

I had a few moments of worry and wasn't sure where this story would lead. That said, you may find a couple of predictable moments but that doesn't take anything away from making Drake and Emma's story a fun, flirty, sinfully sexy read. In addition, we are introduced to several secondary characters that added additional depth. I loved the dynamic between some of the characters. I don't want to give anything away but I can say two of those characters will find themselves on the pages of another book from this author.

I'll be brief here.....Drake is The Professor and Emma is his student. There is an age gap but I didn't feel like it was a big deal. Though she may be younger, Emma was mature. She was a good student; independent and loyal. Another aspect of this book I loved was the build of tension. Emma and Drake were attracted to each other very early on. That said, because of the student/teacher dynamic, Drake and Emma tried very hard to keep their distance. When they finally did get together, my Kindle was in danger of melting, ;). Drake and Emma, had a few hurdles to get over before the got their happy ending. This is where my slight disappointment is mentioned. The ending came very quickly. While there was an epilogue that took place only weeks later, I was hoping for an additional epilogue that shows this amazing couple a few years later. I wanted more. I needed it.

This is my honest and unbiased review. Thank you for taking the time to read it. :)

Harloe Rae says

“He’s a tough teacher, but even the students not majoring in psychology rush to sign up. It has nothing to do with the class, it’s the professor.”

I hope your air conditioning is working because The Professor is HOT AF! Luke Prescott turned up the sexy factor and probably broke the dial in the process. If you’re searching for something steamy, entertaining, funny, and engaging, pick this one up.

Be warned, regular breaks are required so overheating doesn’t occur.

In typical Luke fashion, things kick off with a bang. But this time is different. Don’t get me wrong, I love the quick and dirty. The Professor offers... more. And you’ll really enjoy all the extras. The slow burn is a wicked roller coaster that cranks up the angst and tension. Just when they’d get close, something would happen so the cycle started again. I was about ready to shove them into a storage closet and toss away the key.

Where was Professor Grayson when I was in college? I do not remember any hotties teaching psych courses. Thankfully I can live vicariously through Emma and her seductive experience. I had a feeling all those extra study sessions would come in handy for her.

Drake is delicious and Emma can’t resist. Who could? And why would you want to? Dive in now and get all the desk-banging out of your system!
