## 2 CHEATING STARS

### PLEASE EXCUSE MY MINI RANT BELOW!

*"Are you married?"*

*Those were her first words to me it never crossed my mind to lie to her so I told her the truth.*

*"Not for much longer."*

*"I bet all married men say that to gullible young girls just to get them into their beds."*

YOU SAID IT HERE, I DIDN'T

Yes, my dear sweet gullible girl it is the line of married men EVERYWHERE!

And you my dear stupid girl fell for it!

Did you just fall off the turnip truck here!?

Seriously, what is wrong with you?

### SLEEPING WITH A MARRIED MAN IS JUST WRONG!

Sure, his wife was a slut who slept with loads of other men and even had several abortions, but two wrongs don't make a right (IMO).

He needed to get his ass divorced before he started something with this innocent Co-ed.

He was a cheating asshole and she was the other woman as he was still MARRIED!

It didn't matter to me that he wanted to divorce her, he was still **living with his wife** for Bejezzus sakes!

That is just WRONG!!!

He acted like he had the moral high ground but I felt he lost all credibility when he slept with the heroine before his divorce and before moving out!!!

### YOU ARE NO BETTER THAN HER HERE!

**Cheating is cheating no matter the reasons (revenge or otherwise) and I don't find it romantic at all.**

Also, the hero was making her pay for his past relationship with his slutty wife.

He does and said the following to her after their first sexual encounter,

*Before I knew what was happening I had a hand wrapped around her throat.*

*"If you ever betray me I'll kill you."*

Yeah, so for me this "hero" was not very worthy! I didn't like him much and I found it hard to enjoy their

intimacy knowing that he loved his wife for years and would have stayed with her even without kids!!!  
Therefore, he must have loved her deeply IMO.

**This book failed for me!**

**I'm giving it two stars because the epilogue was sweet and the hero did seem to care about her!  
But I'm not keeping it and I won't reread it!**

\*packs all my stuff in a suitcase, heads to the door and crosses the threshold slamming the door shut, locking the door and throwing the key in the woods\*

I'm outta here....the Hero is nuts... threatens the heroine of killing her if she messes up...TWICE in a short story!! and they are supposed to be in love. Give me a break.

Jordan Silver is nuts, straight up. Her stories are unbelievable at times or so fucked up that you couldn't/wouldn't believe it but despite everything, I enjoy her writings.

THAT WAS HOT ?

**If I have spread SEED or WOMB one more time...**

Ill shoot myself!

Okay so definitely had some hot parts. But dang it if those two word didn't bother the carp out of me. I mean seriously we get it. You were trying to get her knocked up!!

But I am glad about the revenge that was pretty cruel in the best way.

I love these type of stories from Jordan. I am officially an addicted to these May/December alpha male

romances ..... I love this author to death.....but the editing portion with missing words or words that had letters switched was bad. I really think that this author could go so much further with an editor or proof readers that can spot the mistakes ....

*One of my favorite Jordan Silver's so far! WAY-THE-FUCK-HOT!!*

### **C.J. says**

Another hot read in the pregnancy affair series. The only thing missing for me was I really wanted to see his ex wife's reaction to what he'd done. It felt like a piece was missing from the story.

This book is unbelievable.

First, this is a novella. You can figure how SHORT it is, and short books means lack of details. Lack of details means the story's not strong and mostly rushed until the end.

In this case; it is.

Second, the Hero in this book is just ridiculous. And gross, to be honest. He's outraged by his wife's—married by ten years, behavior which aborting her pregnancy twice and he chose to go on their separate ways. But the thing is he did it cowardly, by slowly taking his stuff out and putting their house on market. Secretly. Even up until the end, he told his wife that he went out of town for 'job' when the truth is he live with his new girlfriend.

Another thing that made me sick, he dated a 19-year-old college student and 'insist' to get her pregnant. I was like WTF?! I mean, dude, I don't mind with the age gap, but if you want to make an intense story like this, just go big! Instead of making novellas, why didn't you make a full-length novel? There are so many things I hate in this book I can't even express it.

So yeah, this book disgust me. Sorry not sorry.

This author writes ridiculous storyline sometimes. But her books start to grow on me.

I don't know what to say about this author. i've read 3 so far, hoping that one would pan out to more. But no. I really like having a story from the man's perspective, but there really isn't much of a story to speak of in these books. I do like having some short reads on my kobo, but not so much at the expense of story. I have shorter stories from different authors, that cover more and are way more romantic.

Anyways, was disappointing and I really REALLY didn't like the way the male lead always referred to children as being 'his' kids instead of 'our' kids, like she's a brood mare or something even less than that. That is not Alpha-cool, that is Alpha twisted.

I have no qualms with what he did to his soon to be ex because the way she is portrayed is unforgivable, but the way he talks to his new girl, makes me question his sanity. Even the sex seemed more punishing than hot.

Hero an ex marine discovers he is married to a cheating whore who aborted his kids and when he finds out, he begins the divorce procedures. He meets sweet Elena and it's love and lust at first sight. Short, super steamy book with a lovely happy ending. I melted! This hero is your typical Jordan Silver alpha hero but he is not as hard or cruel as her other heroes. I loved that he cried after the birth of his twins. Cuteness overload!

### **Nice revenge story**

I like a good romance, but I also love a good revenge story. A husband finds out that his wife whom he has been married for years has been aborting his kids since she didn't want to have children and having affairs and orgies with men and women. He plots his revenge by secretly filing for divorce, funneling away his money and selling the house out from under her. During this time he meets a young college co-ed and falls in love...
