Viktor Carsten has been a loner all his adult life. After witnessing the death of his parents, he's in no rush to fall in love for fear he'll lose them, too. A night out drinking and dancing leads him to the one thing he's been trying to avoid, his mate.

“Run!” was the last word Shane Pickett’s mother uttered to him before she died, and he’s been running ever since. Shane being a rare white tiger shifter makes him a valuable commodity to hunters, and because of that he can’t afford to form attachments or stay in one spot for too long, but all that changes when he moves to Silver Creek. He’s finally created a life he doesn’t want to give up and finds the mate he can’t live without.

When Shane’s past comes knocking on his door it’s up to Viktor to rescue his mate, but will he be in time?

### **Phaney says**

It's readable, depending on your minimal requirements.

We have all the same ingredients as in the first volume, perhaps with a little more actual tension between the protagonists, even if that does not turn into something that makes a lot of sense. ("Tell me!" – "Are you sure you want to know?" – "Yes, tell me!" – "Okay, here's what I'm thinking..." – "OMG, you bastard, why did you tell me?")

Still, even as someone used to reading stories of instantaneous love, these books are giving me whiplash. Maybe love is just a word to throw around and not what I understand of it.

Anyway, I'm not going again into the issue of size concerning wolves and, in this case, tigers. And I will even less get into the white tiger thing. It's become almost a staple in shifter stories anyway. And in a world that contains shape shifters, who's to say that white tigers can't be a "species" among them? Have to make allowances for pure fantasy.

So yeah. Not sure if this is fluff, since it did not make me feel terribly fluffy, but it definitely does not hold back with emotional outbursts, easily dripping into melodrama.

In this book's favour, it might have featured a tiny bit more substance than the first one. Not really sure, but there you go.

Nice to see surly Viktor get a mate. And his mate is the one pulling away, not Viktor. Just when Shane finally admits not only how he feels but allows them to claim each other is just when it hits the fan.

How do tight jeans inhibit your ability to breathe?

I am really relieved that they aren't letting a 16 year old mate with an older man. His sorrow is well described though. I feel it which is much better than the first book.

Viktor's personality completely changed. He could have still been gruff but living with his mate. He could have gotten angry about the hunter who hurt his mate rather than just sad and understanding. He could fumble with gruffness and be in the learning process, get frustrated with himself.

They didn't freak out or think it weird that a 16-yr-old stayed out all night? An outsider had to ask about it?

A wolf bigger than a tiger? Seriously?

Aiden's father made a short speech that was understanding of his old hunter friends while showing his enlightenment. It was appropriate and good.

Oh good fade to black so this wasn't just PWP. Ample sex but not too much.

Oh fabulous peril! Oh but no serious damage and no bedside vigil. Still, it was better than usual for this sub genre.

Far better written than the previous one almost like it's a different writer.

A major case of insta-love and also a lot of tears. But at the same time, a bit better than the first book in the series!

I didn't like it as much as book one, however I still enjoyed read it.

I think more like 3.5. The story felt a little rushed to me. It had all the required components and left no loose ends but it just felt like a "Drive by Romance"  
Kind of surprised the author went with Viktor for the second book I could have pictured his surly attitude providing some good dialogue for at least one more book. But now he will be blissfully happy...

It was okay.
