Just for a second I thought this would be something like:

Thankfully everything all worked out just fine, I am sad to let Will & Patrick go. I loved this series. Especially Patrick. This will definitely be on my re-read list.

"It means only you, only me. It means we promise."

"Yes, I promise."

"Me too. Forever."

Damn I'm gonna miss Will and Patrick....mostly Patrick ;)

I loved this series from the first book, and for me, they only got better and better along the way (and hotter).

This last book was a bit more angsty than the rest and it even managed to make me cry !! Most of the time though...these books made me feel good and laugh out loud. I absolutely adored Patrick and his jerky straight-forwardness.

So...what's this series about..

It's about Will, who's a (recovering alcoholic) and a mobsters son and Patrick, a brilliant neurosurgeon. They get drunk married in Vegas and have a night of wild and extremely hot sex.

Unfortunately, they only remember flashes of it, when they wake up hung over and horrified. Will is especially horrified though. He's inherited a lot of money from his mobster family, and he has used all this money to do some good. Will doesn't have any contact with his mobster dad and he's not a part of that life. He set up an organisation "Good Works", which among other things has a hospital attached to it. When he inherited the money however, there was a very important stipulation. Divorce is not allowed. He ends up

married it has to be for love and a divorce will cost him everything.

Will doesn't want to lose everything he's built and Patrick doesn't want to lose his hands....so they are stuck in this marriage until they can figure things out.

They have to suck it up and pretend they're very happy and in love...so no one, besides Will's mother and grandmother, finds out the truth. Problem is...Will has an ex he wants to get back together with and Patrick just wants to go back to his work as a surgeon. Together they will have to figure things out, and their journey doing this, made me laugh, swoon and cry :)

The books don't start out real steamy, besides from some references of their hot night in Vegas, but the heat definitely picks up in book 3. Damn these boys were hot together and we even get some kink ;)

Will and his whining over his ex boyfriend Ryan did get on my nerves a couple of times. I just wanted him to grow a pair and stand up for himself....to Ryan and to his bitch of a mom. I hated that woman. I know deep down she loved her son, but she was a horrible example for her kids and so fucking self centered !!! Patrick made up for the frustrations I was feeling however. To me he was perfect...even when he was being jerky ;)

I'm still gonna take a half a star of my rating, because Will was such a little bitch at times.

4,5 stars fro this series from me and I'm sure I will be reading it again in the future :)

### 3.5 Stars

At the beginning of this segment I was about ready to tear Will a new one. His personal choices baffled me and his ability to be easily swayed by the uncalled for advice and bullshit opinions of inferior fools made me want to slap him upside the head. But then, once the rage had simmered, I *really* thought about it, and I've decided that it makes perfect sense that he would behave and react in such a manner. I mean, look at the examples his parents have set, not to mention, the treatment he endured at the hands of Ryan all those years. He clearly didn't trust himself and that was something he had to figure out without Patrick's help. So, okay, I don't agree with his initial decisions in this story, but I understand why he's so fucked up that he would see his choice as the correct path for himself.

Meanwhile, I fucking adore Patrick. I find the fact that I can say that so vehemently mind-blowing, considering how unimpressed I was by him back in my review for part one. Needless to say, this guy won me over in a major way. It was a slow process; so slow that I didn't even realise I was a hardcore fan of his character until it was too late. I made a comment in my last review that Patrick kept this series alive for me and it's absolutely true. I loved the complexities of his character and found that when he was sad I hurt along with him and when he was happy I was ridiculously happy right there with him. So, yep, he is a great character that I won't easily forget anytime soon.

All in all, this series had its ups and downs for me, but in the end I feel satisfied with the overall experience. I'm glad I got to go on this crazy, fun, sometimes maddening journey with Puddin'-pop & HottieMcBrainSurgeon. I'm super glad they "pair bonded" and got their promised happy ending!

Phew, what an ending to an unforgettable series! I ADORED it, though this installment wasn't my favorite.

Will irked me in this one. I honestly wanted to punch him at times. Get your act together, Will! And the influences of others in this story were just over-the-top. So many people seemed like they just wanted to break this couple up for the hell of it.

But, that ending... LOVE. What a glorious couple. I'm team WillTrick for LIFE!

Endearing, sexy and sweet series, I really enjoyed it.  
So glad that Will and Patrick got their happy ending.

It's been a lot of fun reading these short books. I hated the wait for the next book but it was always worth it once I got my hands on them. It was bittersweet finishing the series cause I enjoyed Will and Patrick so much. I'm gonna go ahead and be selfish and say I want more of them even if I was satisfied with the ending. It's just how I roll when I find a couple I adore. I never want it to end.  
If your interested in a story about a couple of troubled guys who get drunk married and find themselves unable to divorce and eventually fall in love, this is a story for you.

### **Kade Boehme says**

As usual, I waited until ALL the episodes were out. (I don't do cliff hangers) But it was totally worth it. I loved every effing minute of this tropey little rom-com that came with some surprisingly feely feels. Don't be fooled, it actually went a little deeper than I thought and I can't tell u how much I adored do-gooder Will and bitchy Patrick, equally. That's rare, that I love both MCs so much in their own way. Some might get annoyed w/ Will's indecisive moment in the last episode, but really, reading them all at once, his whole story was still so fresh for me that I really GOT why he got the cold feet. It rang every right note for me, even in the sillier, tropier moments. Great read.

### **Solid 4 Stars for the series!**

The start of this one had my stomach in knots.

I mean Will and Patrick's whole marriage was a farce. They didn't even know each other and now they're in love? But they won't tell each other. They think the other one can't or won't love them.

And then their whole predicament just made me sad.

And then some other stuff made me sad. And I almost cried. 2x.

But then.....it was just...

I'm not usually a fan of serials. But I'm glad I went on Will and Patrick's journey. Their whole love story just made me smile. And laugh. And even swoon.

Recommended read!

Review for overall serial = 3.5 stars, Individual installments 3-4 stars

This ride was fun, and I was punched with a surprising amount of feelz in the last installment, but please don't go into this expecting any touch of realism. The authors weren't going for that, clearly. This is more of a rom-com (which really was a LOT of fun), so put your suspend disbelief glasses on and just enjoy the ride.

The best thing about this book was the comedy. Will and Patrick wake up naked and married, with no immediate recollection of how they got that way.

*"We can't get divorced."*

*"The hell we can't." Patrick's voice rises a few octaves. "What are you? Catholic? They're not that fond of the whole gay marriage thing in the first place. I'm sure they'd fully support a gay divorce."*

There actually IS a valid reason (rom com, remember? I'm rolling with it, Ele) that they can't get divorced. It's all tied to Will's trust fund, from his father's Italian-mafia side of the family, that Will uses in the most philanthropic of ways. Even Patrick can't risk that money not getting to those who need it. So back to Will's home town of Healing, South Dakota they go. To figure out a loophole in the legal language of the trust.

Will and Patrick have to ACT all happy and in love for everyone because of the language of the trust. Italian mafia may be spying after all. I'm still rolling with it. And they get to know each other. Patrick is a brash, no-nonsense, "somewhere on the spectrum" Neurosurgeon, and Will is the primary benefactor for the hospital in Healing. He runs Good Works, which funds the hospital. He needs to keep Patrick happy and MARRIED, so he doesn't lose Good Works, so he agrees to add whatever Patrick could possibly want to the hospital that could make Patrick's ideal work place.

There are lots of run-ins with the local townsfolk, which was really fun, given Patrick's assholeish personality. You know the type.....no filter. And the appearance that he doesn't care if those around him have any feelings. There's much depth to Patrick though.

***"Oh, I'm sorry, but you missed the pity party. Come back on Thursday. We'll be hosting another one then."***

He's kind of exactly what Will needs, who's crazy-dependent and in love with his recent ex, Ryan. Ryan is the kind of person you want to twist and squeeze their balls, slowly. And he's respected by the town. And Will's family. Lots of WTF moments about Will and Ryan throughout this serial. Some were interesting plot points. Most were god awful doormat behavior that made me want to throw my Kindle. The man tells Will how worthless he is, never touched him - for sex or affection, for 6 years, and he just kept going back for more. Will picked a real winner there.

Will is also a recovering alcoholic. Who woke up after a bender married to Patrick. Will never really stood a chance. His mother, his uncle, the man he's been with for the last 6 years all constantly remind him of what a failure he is. It's no wonder he relapses. Patrick's having none of that. He gets everyone's number within minutes of meeting them. Super Neurosurgeon to the rescue, of course. The way Patrick spoke to everyone who hurt Will in any way was the highlight of the serial for me.

***"The clue bus hurt when it hit?"***

Shenanigans are rampant throughout. And, of course, Will and Patrick actually DO fall in love with each other. This was a slow burn and very believable. With a dose of angst when it comes to a head that actually had me tearing up. The last serial was well done with the feelz.

***"I love him. He makes me want to vomit. But in a good way."***

If all of this type of story described above appeals to you, I'd recommend. Just remember to put your rom com glasses on because very little of this is realistic in any way. In particular, Patrick's practice as a neurosurgeon, procedure and protocols around the hierarchy of physician leadership, and malpractice protocols. It was all the biggest bullshit I've ever found myself layered in. So there's that. But, whatever, I

had fun.

Oh, and the steam? Yowza.

3.5 Stars

Despite yet another self imposed wrench that's thrown into keeping Will & Patrick apart, I really liked the evolution of these two. How they find love and happiness together, how they make each other stronger and better and *whole*, was worth reading about.

I'm going to mostly forgive this being 700 plus pages, as well as infuriating side characters being infuriating. The smex, the intensity of emotion, how these two fight for the other, made me a very happy reader. Extra bonus points for the well deserved happy ending with an equally wonderful epilogue. Cheers to both Will & Patrick - I have no doubt that a lifetime of bliss awaits them!

"I'm glad I married you in Vegas. Though we don't remember much about that night, our hearts knew what we were doing, even if we didn't."

OMG I FREAKING LOVE THIS SERIES!!

The first chapter of this novella gave me so many damn feels I didn't know what to do with myself. And it's probably one of THE BEST sex scenes I've read in a LONG time. So much emotion....passion, intimacy, desire, lust....LOVE...all without too much actually being said. OMG! I highlighted almost that entire chapter!

We're taken on quite the roller coaster ride in this installment, and though I wanted to throttle Will at times, I understood his reasoning...even if he never *quite* explained himself well enough.

Will and Patrick have come a long way...and damn did I enjoy the crap out of their ride.

I have to admit, the first book in this series was super bumpy for me. I wasn't sure whether I wanted to continue. I wasn't immediately hooked and frankly, was even bored at times while reading that first book...BUT OMG AM I GLAD I STUCK WITH IT!!

This series is a favorite. This couple is a favorite. And Dr. Patrick McCloud a/k/a HottieMcBrainSurgeon is now one of my favorite characters!

I'm so glad the authors give an extended epilogue....so now, if you'll excuse me, I have a honeymoon to read about!!!

"To my husband. The best mistake I ever made."

"I thought you didn't make mistakes."

"Exactly."

This was such a cute ending!! Thank you so much for this gift during the Secret Santa exchange! I just want a Will & Patrick of my very own. *Puleeeeeze!!!!!!!!!!!!* I just want to squish them they are so cute! There are not enough words for how scrumptious this series is and I can't wait to read the next installment. 5 HUGE stars - ALL THE STARS really.

I do have a burning question: What is going to happen to Ryan and Hartley (is that his name?). Hartley was so, so down and hurt when we last saw him with Ryan. It's clear Ryan is not a healthy person and shouldn't be in a relationship with anyone. At first things between these two seemed to work, but obviously not and I can't help but hurt for poor Hartley. Ryan though, he's been on my shit list since book 1 so he can go fall off a cliff for all I care. But Hartley didn't really do anything wrong and deserves some goodness in his life. Maybe he and the nurse who kept hitting on Patrick - Vernun? - will get together. Hmmm???

All in all, this was so wonderful, and maybe my question will be answered in the next book. I do hope so! If not, maybe there will be more stories. That would be exciting. I vote for that - more stories!

### **Christelle says**

4 stars for this entertaining comedy about Will & Patrick (story cut into 6 installments : to be read in a row)

Will, a shy, alcoholic and diabetic wealthy do-gooder, and Patrick, a highly arrogant, grumpy and always hungry neurosurgeon, wake up one morning in an hotel bedroom in Las Vegas, realizing they got married and can't get divorced quite easily because of Will's Mob family. So, they get to live in Will's small hometown in South Dakota where Will runs a foundation and Patrick gets a job in the local hospital and pretend to everybody they love each other.

They have to do so surrounded by small town gossips, nosy and sometimes not-well intended friends, a controlling ex-boyfriend, a dysfunctional family, the Mafia's presence, death threats, blackmail. But are they only pretending ?

Fun (a "calamalatte Jane" coffee, really ??) and hotness (holly hotness !!) are packed in this story about 2 highly likable MCs I wanted to shake so they get to their senses, as well as secondary characters I wanted to shake for giving so bad advices or embrace for being there to help Will and Patrick get their HEA.

I highly recommend this series that left me with a huge grin on my face once it was over.

**It doesn't get much better than this, my Unicorn friends.**

At the end of Will & Patrick Meet the Mob we were left with a bit of a cliffhanger. Will and Patrick were finally able to get what they had wanted all along... a divorce. Something they say they want, but nobody actually wants. But regardless of what they know in their heart, neither has said their feelings out loud. Will decides that a divorce might be the best thing for them.
