Besides tons of grammatical errors and reports on details and sometimes overly detailed, it was a great read! The story line is good which is what kept me reading. The "my best friend Nikki" and "my right hand man skeet" repeats were annoying. And when it went from one person to the next telling the same exact story pretty much, was annoying like ok Journee just said all that on the phone with Nikki or Juelz but it repeats again from their POV. Again great story line and read just the repeats and being overly detailed sometimes was annoying. Felt like page fillers sometimes, just get on with it already type feeling.

Desirer Dollar says

Journee had a lot on her plate, even though she was 16, she made it look easy. She wasn't your average teenager, but she easily could've been, being born and raised in the hood. She had the upmost respect for her Mom, she was a great role model to her siblings, and with being a virgin, boys/men was the last thing on her mind. Nikki was Journee's best friend, and cousin. You didn't see one, without the other. It didn't matter right or wrong, Nikki was always team Journee.

Juelz was older than Journee, and he noticed that she was different in every way. She respect her mother wishes, she knew how to cook and clean, and when she worked for him, she was never short on the product, or the cash. Juelz wanted Journee for himself, but she was too young. Juelz had a situation at home, Giselle, and she wasn't letting Juelz go without a fight. Giselle was in love with Juelz, but Juelz was with Giselle just for convenience. Skeet was Juelz best friend, and the father of Nikki's unborn child. Skeet was always in Juelz's ear on doing the right thing, but Juelz didn't always listen.

Eventually Journee gave Juelz a chance, and he became her first everything. Everything was great, until Giselle popped up unannounced at Journee's doorstep, and all hell broke loose. Secrets were exposed, and it caused Journee to leave Juelz, taking his heart with her.

I don't believe I could even read that whole book. There are so many mistakes it's ridiculous. I don't understand how y'all put these things out without someone editing them. Who edited this a child? The punctuation was wrong, sentences were incomplete. It was just wrong. The storyline though slow was not horrible. I didn't like how the author labeled each person all the way through the book. I mean really, did you have to say " my right- hand Skeet" every single time? We get it, Skeet's his right hand, Nikki's Journee's best friend. After the 1st couple chapters you can stop doing that.

Tatina Wilson says**One of the best love stories I've read**

Nikki handled her business with this book, Journee is very strong minded, independent young lady. Juelz went about things the wrong way bout I still love him, I hope no I pray they can get it together and make beautiful magic. Part three needs to hurry up and drop. I would recommend this great read to anyone who enjoy an author that can put that pen game shame.

DTP1908 says**Ok**

So I gave it 3 stars because I feel like a dyslexic 5th grader wrote and edited this book. So so so many errors it's beyond belief. Did you just say screw paying an editor? It made reading difficult. The storyline is great but it is truly poorly written. And we know Nikki is her best friend so every conversation between them does have to say it. Journee is foul though. How do you keep a man away from his child? She is immature.

Cindy says**So good**

My first read by Nikki Nicole and I really liked it. Journee makes me so mad, but I love her. On to part 2.

Author Phyllis Forrest says**What da what?**

Wait a minute what the hell happen, I like this storyline I thought the relationship between Journey and Juelz was so cute, he cave man Journee when they got together then he cheated with Guiselle of all people! I loved all the characters except the thots?I can't wait for part 2 #thatendingthough Great Job Nikki #greatflow

Emquegee says**Good story**

It was a good story once it got going. I gave it 3 because the grammatical errors were just so unbearable. Lots of words were left out. It often read like a dyslexic person wrote it. Another thing that bothered me was the

fact that I ended up trying to count how many times I had to read "my cousin Nikki" or "my best friend Nikki" or "my right hand man Skeet". It was mad annoying. We get it, 25 chapters in we know who everybody is by now. But I'll read part 2 because like I said it was a good story when it got going.

Deana says

Ok

Ok read, just too unrealistic! Could have been a good book if storyline was more believable. There is no where I know of where you can kill a person be it self defense or not and you get out of jail the next morning with no investigation?! Nikki supposedly almost killed Ashley and did not get arrested?! Where they do that at??? The author should have put more effort which included character development. And why did you have to keep referring to nikki and skeet like they were new coming into the story line always ending nikki my best friend said or skeet my right hand said so redundant....

Shanterria says

Oh but Ms Nikki...you straight disrespectful

How you hit me with something like that???? Girl I never seen that coming...I had to grab my chest like Fred sandford...girl this second book better be out soon...you wild for that one...but I love I couldn't predict the ending like most story lines....see you soon I hope

shawanda Woods says

Great read

Journee did entirely too much in this book. She acted like Juelz was scumb on the bottom of her shoe when she was way dirtier than him. Lord be a fence. Skeetz and Nikki were wrong for not telling him. Kairo nothing bad to say about him yet. But thats tbd. Ready for part 2

Rebecca Weaver says

Bomb

This book is fye!!! It held my attention the whole book. Read, read, read!!! ATL ain't no joke if u can last in the ATL u are a survivor. U grow up real fast but Journee was a smart teenager she wasn't to be fucked with or played with but Juelz is crazier than her. They are made for each other.
