Giselle doesn't date 'bad boys'. Or co-workers. So of course when Ian shows up to help his family's business, her rules seem to fly right out of the window.

Sweetly Surrender

It is so wonderful how life can be when you sweetly surrender yourself to the love of your life. Ian and Giselle were so similar and so different. However, their passion for each other wins you over. I enjoyed reading their story while catching up with the supporting characters. Now, on to book three.

I love the Nobles!

I enjoyed reading about bad boy Ian finding his love for life. Although the plot of him and Gi getting together just based on the previous book it felt like that is where it was leading.. There were a lot of elements i didn't expect and I really enjoyed the story. Even more so than the first.

Samona says

I like the Nobles

I really enjoy a book that keeps you engaged during the entire read. This book is well written and I'm a little glad to have the entire series done so I can go right into the next Noble book.

Another stellar read in the "Nobles of Sweet Rapids" series, this is Ian Noble's story and I knew he was going to be something else.

Ian Noble, Bad Boy Celebrity chef can not only throw down in the kitchens but also with the ladies. A rendezvous with a woman (unbeknownst to him) is married, her husband makes a trip to Vegas to confront the Ian and a fight ensues, landing him in jail and his brother Isaiah coming to bail him out. Now Ian's job as the head chef at the restaurant garners him a three month suspension and the contract for his own cooking show may now be in jeopardy. His brother and his agent Michelle tells Ian he need to return to Sweet Rapids to let this thing blow over. Isaiah suggests to Ian to come to their company Noble Naturals to help with creating their new expansion body care line. Ian is all for it and then runs into employee Giselle Warren and WWII practically erupts.

Giselle Warren is living her dream of creating natural products for people, working her dream job at Noble Naturals and is up for promotion as the Head of Production. Giselle is well liked and likes everyone else, she

is also a Burlesque dancer using silks and teaches Arial Yoga using hammocks. Life is going well for her, she got a glimpse of Ian from the gossip news sites from his fight with the husband and Giselle is intrigued by him but all of that seems to go out of the window when she faces off with one of the Noble men, Mr. Ian himself and the battle lines have quickly been drawn.

Getting off to a bad start is not the way anybody would want to go, sometimes it happens and then it is squashed to start over with a clean slate. Ian and Giselle called a truce and realized they work extremely well together in the labs creating formulas but that's not the only formula being created, this one is called chemistry between a man and a woman, Ian and Giselle have plenty of it LOL!!!

It was really great reading Ian and Giselle's story, following their adventure and they were perfect for each other, complimented each other to a tee. But a drunken celebration and the day after finds these two with more than they bargained for.

Author Te Russ did an excellent job with the second book in the series and the sisters are up next. Isabella Noble's story is book 3 and is called "Noble Redemption." I am looking forward to reading her story soon.

Well Until My Next Review...Ciao Bellas!!!

Gi and Ian were sexy, no-nonsense and perfect for each other. I thought I loved Isaiah, but bad boy Ian did it for me. Another good one Ms Russ! Can't wait for the next one!

Noble are back!

Ian is a bad boy chef from Las Vegas. Unexpected trouble lands him back at home to work at the family business Noble Naturals. The first day back at home Ian thinks he's the boss even though he hasn't worked there for some time. The future leader of the department, Giselle, lets him know otherwise. The Sparks start to fly and the two end up seeing each other.

This was a great story with a few surprises along the way. It held my interest throughout. I loved Isaiah, but I realized I'm here for this bad boy even more. I need an Ian in my life!
