## Plague of the Shattered E.E. Holmes

When a spirit Shatters, no one is safe...

Once every five years, the Northern Clans of the Durupinen gather at Fairhaven Hall. There at the ancient castle, surrounded by the very spirits they are bound to protect and serve, the clans settle disputes and shape the laws that govern the Gateways to the spirit world. For the first time, Jess and Hannah Ballard have to represent their clan. It is an awesome responsibility—a great honor... and they are sure it's going to be the most boring week of their lives.

*Oh, how very wrong they are.*

For something dangerous is stalking the halls of Fairhaven. It lies in wait, striking down victim after victim, undetectable and inescapable. No one knows what it is, or what it wants, but one thing is clear: no one is safe until it is captured.

As their fellow Durupinen fall victim one by one, it will be up to Jess and Hannah, the newest members of the Trackers, to solve the mystery before the entirety of the castle is possessed.

#### **Wonderful story**

Another great plot with many turns for the characters I have become so involved with. I couldn't put the book down for very long before I found another minute or sixty to continue the story.

#### **Amazing series**

I need more. Its as simple as that. This series has had my emotions all over, its had me on the edge of my seat, its given me more late nights than I can ever remember having.

Following Jess and Hannah through their coming together to complete the gateway, to the council being determined to ostracize them has been a harrowing journey but one I don't want to end. So please, more , more and more of these excellent books

#### **Excellent service**

I have just finished this series after borrowing them from my daughter. She highly recommended them and I heartily agree. They are way out of my regular reading genres, but never let that stop you from finding a new author to follow. So glad I took her advice and gave these books my time.

Another great book to accompany a fantastic series, Jess, Hanna, Milo and finn are back at fairhaven facing new and old ghosts trying to piece it all together while fighting against the fear of the clans, mean while jess

is fighting her own emotional battle. The big question will Finn stand along side her. Can't wait to find out.

I was able to start this book right after finishing up book 1 ... although this set really feels like a continuation of the first trilogy (this could be called book 5 in my opinion). Unfortunately, there are no more books written right now, so I'll have to wait. I do like this writer and this world she's created.

I'd mentioned in my review of "Whispers of the Walker" that I could "see" this going in a direction where the girls, now trackers, took down those abusing the spirit world through pretense. I wondered if continued books would stay on that theme ...

This did not. Here we are back at Fairhaven for a big council meeting, and then there is a new situation to solve ... that of a shattered spirit. As the reader, having peeks at a journal written years ago, we are fairly certain WE know who the shattered spirit is and it was a bit frustrating waiting for the characters in the book to put it together (although I'll admit I hadn't figured it all out).

Anyway ... another solid book in the series.

This was my borrowed book from the Prime Lending Library for July.

The book was awesome. I loved all the emotional roller coaster it had me on. I also liked the way the author flipped back and forth between past and present telling Eleanora's story. I can't wait for the next book to continue the story. I so hope that Hannah gets elected to the council so Jess, Milo and she can keep things stirred up.

Every book in this series, I have said I have loved. I never thought that I would be able to like another book equally...and with each book, I have been proven wrong. I absolutely adored this book. It took me to a place I didn't expect or anticipate. I love how the author remembers little bits that I have forgotten about & weaves them into the story. When Whispers of the Walker came out, I waited. I prefer to have the whole series so I can go from one hook to the other but I couldn't wait this time. So Mrs. Holmes, please get writing to get the next book out to me so I can read it. I am anxiously awaiting it.

Another great book. Hannah and Jess are back where they least expected and of course where ever they go trouble is sure to follow. A "plague" of spirit highjacking is the next case the sister are on.

**Amazing!**

Oh how I love these books. I can't believe how quickly I read them. I wish they were 700 pages so I could get lost in them for longer. I can't recommend this whole series enough. It's absolutely riveting. Please read all of them from the beginning. They are so special and so very good. Enjoy!!!
