## Printing Practice Handwriting Workbook for Kids Julie Harper

Printing Practice Handwriting Workbook for Kids is designed to inspire kids' interest in learning and practicing to print letters, words, phrases, and sentences by hand. Kids enjoy reading phrases like, "No grown-ups allowed," and sentences like, "Puppies like to play." Exercises like these help to make learning fun, whether in the classroom or at home.

This workbook focuses on writing letters, words, phrases, and sentences in print in three parts:

- \* Students first trace and then copy letters, words, and short phrases in Part 1.
- \* There are longer phrases and short sentences in Part 2. There is no tracing in Part 2.
- \* Part 3 challenges students to write their own expressions in response to writing exercises.

May your students or children improve their handwriting skills and enjoy reading and writing these phrases and sentences.

# From Reader Review Printing Practice Handwriting Workbook for Kids for online ebook

## Alicia says

A great handwriting practice book for all kids, regardless of their reading and writing skill. Well-organized and full of fun phrases and affirming sentences for a range of abilities, with standard handwriting practice lines for each exercise. Three sections for kids to trace and copy, simply copy, and finally free-write are full of fun, different spelling words, and excellent writing prompts.

In the first section, once a child has practiced a single letter in upper- and lower-case for a full page, clever alliterative phrases follow. Imaginatively picturesque phrases like "elegant elephant," "invisible ingredient," and "wacky welcome" will produce some giggles, and parents and teachers will be happy to see positive reinforcement of good manners and kind words in practice lines like "exercise every day," "have high hopes," "mother, may I?" and "that takes talent."

Each page in the second section, where learners copy only, is themed. A visit to the circus ("Hello, ringmaster."), pool parties ("Is diving allowed?"), favorite colors, pets, school, and more mean lots of specialized vocabulary learning along with the handwriting practice.

Finally, the third section has 65 writing prompts for the learner to produce their own, personal writing, practicing their handwriting and creativity when answering questions like "Describe your favorite game," "Imagine a city that you'd like to visit [and] [d]escribe it.", and "Describe something that you wish you could do better." Prompts vary from statements of favorites to more introspective "why" questions that older learners will enjoy sharing.

Because of the way the first two sections of this book are laid out, this would make a great resource for teachers to photocopy for use in class. Pages have a nice wide margin that makes copying much easier. This book will be going to my 7-year-old nephew, and I am looking forward to hear what he comes up with once he gets to the writing prompts, and to seeing his handwriting progress as he uses the book.

Thank you to Goodreads and author Julie Harper for the review copy.

## Tim says

This handwriting workbook is designed so that kids can learn to enjoy writing. The book begins with letters, but quickly moves up to fun sentences. The author created sentences in that are fun to read and copy. And at the back of the book are a series of questions the children can answer without realizing they are working on their handwriting.

My daughter loved this workbook. The lines are standard handwriting lines and so were very familiar to her. The book is lightweight and opens easily so she didn't have to struggle with the binding while trying to write. Overall, this was a great book to get her to practice while still enjoying the experience. I would definitely recommend this to any teachers, home schoolers, or parents who want to add to their children's education.

I received this book free of charge from Goodreads in exchange for my honest review.
