Still dirty.

Kathy Harrington says

This story delved more into why her family left the pack. It filled in a few of the blanks. Oh, damn that dominant Blake, can he get any hotter? And M/M/F. Oh...yes!

Kimberly says

This story picks up right where the last one ended. It's still steamy. Still dirty. Still leaving me with wanting more.

Ashley is still in heat but she finally has someone to work out all her pent up feelings on. She's still coming to terms with letting her wild side out but Blake is taking care of her and filling in some of the blanks about her past. He's also letting her know what to expect when she meets the pack, which is that she'll want to test her wolf out on every male to figure out which one is her mate. You read correctly, ladies. Ashley gets to play with *all* of the pack members before making a mate decision. Lucky bitch.

Enter Mac, another sexy pack member who meets Ashley at the hotel room she and Blake are in. He had stopped by to deliver some food and is going to take them to the pack in his van. However, he's delivering more than just food and a ride back. Let me just say, **the more the merrier**. Ashley gets acquainted with him and Blake joins in on the raunchy fun.

I'm so ready for part three!

BookJunkie777 says

The storyline and character development were better in this secknd book than in the first. The sex scene were still good but not quite as good as the first book.

Julie says

The pack is dealing with Ashley's pent up frustration during mating season. So much about who Ashley really is has been hidden from the young were. Most importantly the ability to choose a mate and answer the aching force that comes during mating season. The hunger and longing are a constant reminder that the

females are so few and far between in the various packs.

Blake is doing his best to show Ashley that there are so many ways to enjoy the 'spoils' of mating season. Why settle for just one wolf? Blake shows Ashley that nothing she is feeling should bring on any type of shame. In fact - Blake shares the pleasure of 'testing the waters' where having every male wolf at your beck and call. Pleasure is the name of the game, and Blake is determined to share every sexual experience with Ashley that he can.

This quick addition to the Last Pack serial is full of lust, fantasies, and sexual experiences!! A hot little read that will fill your thoughts with erotic trysts and captivating acts of passion. An imaginative tale of alpha werewolves and really erotic interactions. What else can I say? The sex was H-O-T!!

Daria says

Ashley is still coming to terms with what she is as well as the fever that hits her body. Since Blake rescued her from a locked basement, he has been the only one around her when "the Fever" hits, he has been the only one to take care of her and her needs.

He packs her away to take her to his/their pack, but stops along the way.

Blake shows Ashley when the fever hits nothing at all to be a shamed of, not only will she crave Blake but the other wolves in the pack.

Even though this is a pretty short read (Im sure all the books of this series could have been put together..giggles) It was hot sex and a bit of story. It was fun to jump in and get right to the point. With enough detail it shouldnt be labled just sex. I loved the characters. Just got to love Mac!! Enjoy I did.

Shoulanda August says

Finally free!

Ashley is finally free to live as her kind does. Her parents locked her away and lied to her. They wanted to suppress what she was and deny her the needs to embrace her true self. What will happen next? I have to keep reading. Five stars and well written with great details

Lindsey Lawson says

Still going strong and just as hawt as the first one. Loving this series.

Tamera McIntosh says

HOT HOT HOT!!

Shauna Carrier says

Wish they were longer

not long enough. wish they were a lot longer. can't wait for more from this amazing author. Need more of Ashley and her pack.

Lorraine Sears says

This is a serial, so you will need to read the books in order to understand what's going on.

Book two is a great continuation of the series, introducing the young Ashley to another member of her new pack. The action get hotter, although I'm pleased to see the language, while still graphic has been dialed back a tad.

Although perfectly explained in the plot, Ashley's change of character often comes across as a stretch too far. But this is paranormal fantasy romance.

At no more than a 45 minute read, I'm looking forward to the third in the series.

BE STILL MY HEART !!!

OMG! Protecting Their Mate Is an amazing new serial by Mia Thorne and it totally rocks! I loved it! This is my first time reading Thorne's work and I must say, I am now a fan! Thorne demonstrates exceptional talent, imagination and skill in the debut of this series. She grabbed me on page one and held me tight until the very last line. I was totally enthralled. Her imagination and style just blow my mind! Exciting! Well Written! Addictive! Captivating! Compelling! Thrilling! Powerful! Arousing! Sensual! Sexy! And oh my goodness....so HOT! And did I say Sexy-yeah I did! Great characters that jump off the pages. Wolf shifter, Blake has been sent by his pack alpha, Lucas to find a young woman, Ashley Todd taken years ago to live in the human world by her parents. His mission now becomes an urgent rescue when he finds the beautiful young she-wolf imprisoned in a basement, starving, half mad and in full blown heat. Huh? Someone has to help relieve her heat or she could become feral so it looks like the job falls to Blake and it's a job he doesn't want. He never wanted this mission. Lucas should have sent someone else. And to make matters worse, the beautiful young woman has never had sex - she's a virgin! What? But what Blake experiences with the luscious Asley turns his world upside down and for the first time in his life, he experiences an unknown feeling - love. But Blake knows that he must take her to his pack and Ashley must be free to choose the man she wants for her mate. Who will Ashley choose! Will she choose Blake or will it be another? Oh my! I can hardly wait to meet the other wolves in the pack! Imaginative and very well written story that draws you in from page one and keeps your engine revved, all the way to the end. Sexy wolf shifters-check! Hot curvy female heroine-check! Great hot sex-check and check! Be still my heart! Several times, I even forgot to breathe. I don't mind at all, but just so you know, it's the first in a series. Fantastic entertainment and an awesome read!

Sometimes you are in the mood for a simple story, good characters, and a little dirtiness. This serial delivers.

Monica says

Part 2...she meets Mac who comes and brings a van and food. Connor was with him but he left...thats another issue for later. Blake is telling her stuff about Mac thats turning her on like hell. Mac comes in and she is just out of the shower and he's speechless. LOL. He wants her alright and so does she. Blake has him have her and then he does. Shes just wanting it a lot because of her heat and they give it to her. Blake and Mac together was a hot scene with Ashley. She was taught all this was wrong. So they are reteaching her pretty much. They take off to the pack lodge to meet the rest of the pack including the alpha Lucas. Hes very powerful so much so she started to go into her heat when she met him and he eased it without even touching her. He calmed her with his magic. She was very grateful...kinda cool how he did that without sex. LOL.
