Quest: Eight Novels of Fantasy, Myth, and Magic Joseph R. Lallo , Lindsay Buroker , Mark E. Cooper , Robert J. Crane , Charlotte E. English , Patty Jansen , Jeffrey M. Poole , J. Thorn

These titles are available for free, and we're trying to get Amazon to make this bundle free too. Please hold off on purchasing it. Thank you!

Eight authors. Eight novels. Eight entry points into fresh, new fantasy worlds.

If you're a fan of epic fantasy, sword and sorcery, dark fantasy, or just good old adventure stories, you'll want to pick up this bundle and prepare yourself for hours of enjoyable reading.

The Book of Deacon by Joseph Lallo

A war has gripped Myranda's land for generations, but the chance discovery of a mysterious sword may set her on the path to restore peace once and for all.

The Emperor's Edge by Lindsay Buroker

He's the empire's most notorious assassin. She's a protocol-quoting enforcer. They're an unlikely team, but somebody has to save the city. . .

The God Decrees by Mark E. Cooper

Julia is a nineteen year old Olympic gymnast training hard for the upcoming Games, when she's summoned by a wizard to save his people.

Defender by Robert J. Crane

Someone is stealing weapons of unlimited power, and only Sanctuary stands between the world of Arkaria and total destruction.

Draykon by Charlotte E. English

Shy Llandry Sanfaer finds herself at the center of a sensation when she discovers a new and mesmerizing gemstone. Unraveling its mysteries may change Llandry's life—and her world—forever.

Fire & Ice by Patty Jansen

Blinded by his desire for revenge, a sorcerer unleashes a force that he needs fellow magicians to control, but no other magicians are keen to help him.

Lost City by Jeffrey Poole

The mysterious appearance of a large mark on young dwarf's back has fueled speculation that it's a treasure

map in disguise. Five dwarves and one dragon band together to try and solve the most cryptic treasure hunt anyone has ever seen.

Reversion: The Inevitable Horror by J Thorn

Samuel arrives in a forest littered with caution tape and artifacts of the deceased. He struggles to regain his memory and outrun the ominous cloud eating away at his world before it collapses upon itself. Samuel must escape the reversion before it's too late.

From Reader Review Quest: Eight Novels of Fantasy, Myth, and Magic for online ebook

MEG Munro says

This book bundle is GREAT

I highly recommend this bundle of books.

First, the stories are all very good and second, this a wonderful way to be introduced to new author's that can take you to more awesome fantasy lands that you've never heard of.

You can easily expand your horizons in the wonderful world of fantasy author's.

I enjoyed EVERY story in this book bundle!!!!!!

Ann Jovicic says

Brilliant! Each book completely different and uniquely compelling. Loved every minute and gained new author's to look out for

Joyce says

The reason it is taking me so long to read this book, is that when I read one of the novels included that spark my interest, I stop reading this one and go read all the books included in the fantasy I just finished. So far that is 3 epics from this book that I have gone on and payed for the rest. Having a compilation like this for readers to get to know these books was really a good idea. I would not have found such great stories otherwise. My favorite so far is the Sanctuary Series.

Janice says

Every book was worth the bread!

Will try to read the next episode for each book in this box set. Each was different but pulled me in and get my attention!

Dannii Elle says

This is currently free on Amazon for all those interested :)

Julian White says

Previously read 'The Emperor's Edge' and 'Fire & Ice' (which are not reviewed again here).

A bit of a mixed bag - though of the six new (to me) novels I only one found to be less than good; there are two others I'm inclined to follow up and three I'm ambivalent about.

'The Book of Deacon' is a long set-up for the series. We meet Myranda and learn something of her background as we follow her misadventures as a lone, unwelcomed traveller who after a fortuitous discovery becomes pursued by mysterious enemies. She is joined, briefly by the equally mysterious 'Leo' before they part company and... essentially everything falls apart for a while. The plot gets complicated by a baby dragon, a group acting as a resistance to the ongoing war, a mage - and after the war intrudes and it becomes clear that Myranda is still being pursued by one of the armies there is an extended respite in a hidden enclave where some things are explained before the end of the book as Myranda leaves the safe haven. There is a lot of background, there is an intriguing magic system but essentially this is standard fantasy quest fare (not necessarily a Bad Thing!).

In 'The God Decrees' Julia, an aspiring Olympics gymnast is torn from her world by a mage desperate for help in a war. She finds herself in a mediaeval world where only men are magic users men - and then discovers she has powerful abilities in that area herself. A very good start to the series.

'Defender: Sanctuary Series 1' is less satisfying, not necessarily because of the subject/protagonist (mercenary warrior engaged in adventure/quests) but because Our Heroes fight with magical healing support so that they face little permanent damage (and it's even possible to be resurrected for a short period after dying - not that death doesn't occur) which rather takes some of the risk out of things. There's a lot left unexplained at the end of this first book - unsure if I'll follow on.

'Draykon' is a different matter - an unusual world, part in perpetual Daylight, part in the Dark and with several interesting animals as well as humanoids with different abilities and skills; magic is practiced by different groups (sorcerors, summoners); it's possible to pass from the Seven realms to the Upper and Lower 'Levels' (a bit of a misnomer, it seems, by the end of this book. The titular 'Draykon' is (no real surprise) the dragon equivalent. More than intriguing enough to want to read more.

'Lost City' is a largely successful humorous quest for the lost city of Nar, unusual in that the quest is undertaken by a party of dwarves (dwarfs?) - aided on occasion by a friendly dragon. At least one of the characters appears in an earlier book - which is referenced several times but isn't required reading.

'Reversion: The Inevitable Horror' is a different kind of quest - more of a horror drive than a voluntary journey. Samuel wakes with a makeshift rope around his neck and no memory of where he is or how he got there and who he is. In a few short days (though as even time seems malleable it may be days or months) he meets three others in a weirdly decaying landscape before explanations are given. However - the explanation is not the end but fortunately the next volume is readily available.

The other two novels in this collection aren't reviewed here as I have read and reviewed them previously.

Briony says

Lindsey Buroker's Emperor's edge was the only book I could get through of this group and I loved it. However it is available free as a stand alone.

Joe says

I like most of the works in here but as with all anthologies I liked some more than others.

"The God Decrees", "Draykon" and "Lost City" were my favorites.

"Defender" and "Fire and Ice" I finished but did not overly enjoy either.

"Reversion: The Inevitable Horror" I could not get through. I only read 3 chapters but I already knew it was just not a story that interested me.

"The Book of Deacon' I had already read and highly recommend the entire series.

"The Emperor's Edge" was good, but not memorable.

Dj Acrey says

Excellent Collection of Stories!!!

WOW, if you like stories involving a journey, then you must read this set, every book is well written and captivating, I have found a few more authors to follow after reading this collection!! Definitely worth your time!!

Saidah Gilbert says

I liked all the books except the last one. I couldn't finish it. The plot didn't seem to be going anywhere interesting so I just stopped. In fact, based on the synopsis alone, I'd been putting it off, reading instead the sequels to other books in this box set. When I finally started to read it, my fears were vindicated. That brought down the rating for this box set from a four to a three.

Curt Dukes says

A good bundle a couple of stories were not to my taste, but then two were great including Lost City.

Natasha says

The first two were the only ones i could bring myself to read. They were good though.

Jessica Roberts says

This collection is useful!!

I managed to find several authors worth following through this collection. More often in collections I find the annoying, not the good. Give this one a try!

Marj Cinqualbres says

Not what I expected

These would be good stories if I was into fantasy. I assumed from the title that some of them were fantasy but all of them are. If you enjoy that genre this is the book for you

Long says

Great collection

This collection is a nice introduction to a bunch of great series. I'm glad I picked this up, as it had given me a chance to follow these authors' works.
