## Recruit R.D. Brady

**Lou thought she had lost everything important to her.  
She didn't realize there was one thing left for her to lose...  
Her life.**

Life has not been easy for fifteen-year old Lou Thomas. In the last few years, her once happy family has been whittled down to just herself and her unreliable older sister Charlotte. It's been a daily struggle to make it through.

And it's about to get worse.

Because Lou's abilities - enhanced strength, speed, and healing - have just awakened. While Lou may not understand what is happening to her, another group does. And they won't let anyone get in the way of gathering their new recruit.

Jennifer Witt, though, is determined to keep that from happening. She sees herself in the tough teenager and will do whatever is necessary to keep her safe. But how can you keep someone safe when they insist on running into danger?

---

### About

*Recruit* is the first novella in the Belial Series. The first three books of the Belial Series are also available on Amazon. And check R.D.'s website for information on upcoming works. ([desperateforagoodbook.com](http://desperateforagoodbook.com))

### **Barbara T Scroggs says**

#### **Another Treasure**

I have yet to be disappointed with any of the books in this series. Well written, fascinating plot, and great characters. You will not be disappointed with any R.D. Brady novel. Good stuff!!

---

### **Mary Lou Webb says**

This book was a little different from the others, but I enjoyed the new character introduced in the book and was glad to see Jen in a more dominant role. The only problem, and why I didn't rate it five stars, is that it needed another round of editing to correct the grammatical mistakes. The two predominant errors are missing words in sentences and misuse of homonyms. I'd love for the errors to be fixed in a future update of this book; then I could reread the book without distraction.

---

### **Eric says**

I didn't care for this installment. It strayed too far from what made the other books enjoyable (e.g. history). It read like a TV movie cop show. Granted, I suspect this was done to make us care about the "Lou" character and advance the story. I just wish it was done differently. I hope the next book gets back to what made me like this series.

---

### **Per Gunnar says**

If this would truly have been the fourth "real" book in The Belial Series then I would have been a wee bit disappointed. However it is not. Well, it is the fourth book but it is not the fourth book that the author originally intended. While writing what was expected to become the fourth book, The Belial Children, the author thought that it became too long but did not want to just remove material so she took out part of the story and published it as a shorter novella in between book three and, what has now become, book five.

Recruit is a nice entertaining story about a young girl that, as the book blurb states, is about to discover that she is special, that she has special powers and that, unfortunately, that means that she has become the target of some very nasty individuals. The story itself is perhaps nothing special. It is well enough written but rather straightforward and quite predictable. Still enjoyable to read though. Then, I have always liked these stories where someone is introduced to the fact that there are things that go bump in the night.

Given that this novella was originally part of The Belial Children one has to assume that the main character, Lou, will play some part in The Belial Children as well and I would be surprised if the bad guy is not present as well. Having read this "interlude" am now quite looking forward to read The Belial Children.

---

**Toni L. says**

WOW I guess I am reading these books to fast.  
But, you have to keep reading when you start  
because it is so good. But only 2 more to go and the  
series will be done. BUMMER. But its on my Kindle  
so next year I can reread it.  
Would highly recommend the series to anyone.

---

**A.B. Shepherd says**

Good story. Fast paced.

---

**Stacy says**

Great addition to the series. Needs better proof-reading done though.

---

**Debra says****Pretty good**

Maybe I'm just getting bored but this seemed like fill in until we could get to something more exciting.  
However I will be buying the next book. Hopefully it will be like the first two.

---

**Helen says**

This book was a side story for the original Belial series. So I wouldn't really count it as book #4. The story focused on a new character name Lou, but also included some of the other characters from the original series.

I couldn't really enjoy this book; some of the subject matter was too overwhelming for me to read. I became very disturbed when children or teenagers abused and hurt. There were a few chapters in this book that I skipped. Not my cup of tea.

---

**Grw says**

Although this novella is classed as the fourth book in the series this would more accurately be numbered as 3.5 as despite the story being good in its own way, it's clearly not a complete installment. To be fair, the

author does state this in the "about" section at the end, stating that this is little more than over flow from what was intended as the fourth book, but is now the fifth.

Anyway, this is still a nice installment filling in some of the detail on the entire set up, and even some background on past and future characters. It could, however, do without quite so much catch up material, as it is doubtful that anyone would read this without reading the first three.

Still all in all this is a very nice, and well written, set up for the fifth book, but little more than that.

---

### **Kat Jones says**

Not too shabby. It wasn't as interesting as some of the others with their exotic locales and cool historical facts, but I did like the action and character building. I'm curious what's going to happen with all the new recruits now.

---

### **Connie Becerra says**

This is a good short story. Great introduction to a character for the next book in this series.

---

### **Kathy says**

This was a novella that took the focus off of Laney which was good. Kid genius, Danny, identifies a potential Fallen and Jen is sent to investigate the young girl, Lou. To save other children being taken, Lou agrees to go undercover with the Fallen.

This was a quick but still action packed story.

---

### **John Elliott says**

#### **Another great in the series**

This was a short novella that seemed to fit pretty well in the scheme of things. The scenes depicted were fairly intense and believable which made me not want to put the book down. Great job.

---

### **John G. Conlon says**

#### **Good story, but not quite as good as the previous three.**

The first three books of the Belial Series were awesome. Although the fourth book was well written, I did not like it as much as the previous books. I felt that it was a bit slow moving and that it did not contain as much

action. However, I am looking forward to reading the last book of R.D. Brady's wonderful series.
