#### **The last time I read anything by Sylvia Hubbard.**

Her books are always all over the place and never any real love with the main characters. Her sex scenes always start off hot and heavy but end flat. And let's not talk about the grammar errors. Im done with her.

### **Jaime says**

The basic storyline was good. I'm not sure why the author made the 'extra' stories so confusing. It was a two steps forward ten steps back. Had there been consistency in the story I would have awarded 4 stars. One other problem I had was the use of Elijah and Eliah in the start of the story. It made it look like an error rather than a story related explanation.

I was pretty surprised how good this was. Sylvia Hubbard isn't an author I know and when I came across her book, I was like wellllll why not? It is full of action packed drama and honestly some of it blew my fricken mind. It's worth the read but the ending sucked for me!

I really loved it. Kimberly is such a strong character and knows how to stand up for her rights. Jaelen is also superb as his arrogant self.
