A Dead Market CeeCee James

Stella O'Neil finally has her first listing! A cute cabin with a gorgeous lake on eighty acres of breathtaking land. There's just one tiny problem: the body floating in the lake.

If that weren't unsettling enough, her phone rings off the hook with hundreds of potential buyers. In fact, the property is overrun with them! Stella digs out the truth that the lake is the obscure clue in an old legend that has been solved on the Internet.

But only if her troubles stopped there. She runs into one buyer who won't take no for an answer. He seems to have way too much personal information about Stella herself, but the police refuse to take him seriously. As things continue to develop, she is certain that she is being hunted by someone with some sort of grudge against her.

Stella has to solve the murder and figure out the riddle so she can untangle herself from this legal and personal mess... before things go too far.

Flamingo Realty #3

Another great read by CC James. So far Flamingo Realty has had some ups and downs. Stella O'Neil has her first listing. A cute cabin next to a beautiful lake. The only problem is the body floating in the lake.

Valerie Hartup says

Great book 2.

Wow! What a fabulous book 2. Stella's got her first listing and is amazed that everyone wants a showing. When she realizes there's a rumor about a valuable piece of treasure on the property, she realizes why everyone wants to see the house. Finding a dead body doesn't help things. Can Stella solve the murder crime, find the treasure, and sell the house all at one time?

Barbara Hackel says

Book two in this fun series was an interesting twist to selling real estate! Stella's first listing turns out to be a murder scene and bizarre location for a following of gamers who are trying to solve a riddle. While clueless at first, Stella catches on and does some research online that gets her answers.

I am fascinated about a house "buried" under water and the fact that it was undisturbed for so many years. Ms James made it into a story that held my interest up to the very end. I was glad that Stella's landlady was a part of this book again, as well as more interaction with her grandfather, Oscar.

Again I am looking forward to the next book in the series. It's not that the murders are incredibly difficult to solve (although since Stella is a total novice solving murders it is still impressive) but the total package of the property and people she has to deal with combined with the murder makes for an interesting book. I like getting to know Stella and her family members as well as watch how Stella handles whatever life throws at her!

Jane Firebaugh says

A Dead Market, the second book in this new cozy mystery series by CeeCee James is every bit as wonderful and fun as the first one.

Stella is a great main character and Ms James has crafted a really fun and hard to solve mystery in this one.

Ms James's writing style is beautifully descriptive and flows so smoothly that I was captured from the first page.

I highly recommend this book and the first one in the series too.

Suzanne Homeier-poe says

I love 5his series.

I hope this takes off and we get to see tons of books in this series. I find this well written and a lot of fun. I can't wait for the next book to come out. Keep it up CeeCee.

CeeCee does it again

Book 2 in this series. While it stands alone I highly recommend you read Book 1 first. What is Stella's Uncle secret? Now we wait for Book 3 to find out.

I gave this book 4? as after reading Book 1 I felt it just lacked that "I can't put it down" little something that Book 1 had in spades.

Karen Wright says

Love this new series!

This was a cute book. I really hope there are many more to come in the series. The ending leaves off with a bigger mystery that I cannot wait to dig into. The story was really good, it was well written and interesting, the characters were good and I loved the small town, and especially that the main character is just starting in town much like the readers of the book are. Well, I have the next book in the series waiting for me so I have to go read it now.

Sue says

comes with a floating dead body in the lake and a lot of strange potential buyers. As Stella works to solve the case she discovers an old legend that has been sparked by social media and game room chats groups. Can Stella uncover the clues, solve the murder, and sell her first property?
