Teen Wolf AU - Sterek

“Hey, Scott, so, I uh, there’s this amazingly hot guy and I’m uh, gonna spend the weekend with him but, you know, just to be careful, I’m sending you his picture, so if by some terrible chance my bloated corpse shows up sometime Monday, just, y’know pass this along to the authorities.” He pauses. “Uh. Kidding?” and then hangs up with a rush of air.

“That is the worst voicemail in the history of voicemails,” Derek says.

## From Reader Review A Mating Moon for online ebook

### **Kat says**

A nothing short of amazing beginning. Hot, dirty, sexy, sweet and compelling. In fact, it was so strong that I anticipated another 5 star Sterek.

But along the way the writer made several style choices that somewhat pulled me out of the story. For example: what's with the sudden 'babes'? There weren't many, but they didn't fit the dynamics and every time I came across one I did an involuntary full body shudder. And why the sudden 'the other man/ the older man's'? I didn't feel Derek's (view spoiler) around the 30% mark either. It came out of nowhere and felt at odds with the careful build-up until then. And a minor eye-brow raising moment: the sudden gulp of mouth-water? Whut?:D

A Mating Moon almost went off the road completely towards the end though, when the author turned to cliché misunderstandings and arguments and an unbelievable (view spoiler). I don't buy that Derek, who acted on his wolf instincts when laying eyes upon Stiles for the first time would suddenly go all martyr and mushy: (view spoiler)seriously? Just..no.).

4 stars because it was a read that had me greedily turning pages and was a blast for most of the time.

Wonderful #Sterek fanfic. Well written, emotional, and just enough smut to satisfy this fic reader. This story stands out among the others in the fic smorsgabord in which I recently indulged. Don't forget to check out the two mini stories that the author posted on AO3. You can read those afterwards, and it makes the story that much more fun.

**mate, mine, more, fuck, need, mate, mine-**

Stiles is a prostitute and Derek buys his services for three full days and nights.

It was sweet, little angsty and hot. I loved the ending. \*sniff\*

Whew. I wasn't sure for a bit if I was going to be able to get through this one. I do not like anything bad happening to Stiles, like ever. So, I kept going knowing that Derek would make it all better, and well, he did. Great take on their relationship.

### **Tara♥ says**

Loved it.

This was angsty and sweet in places and absolutely smoking hot in others. I mean wow.

I can barely cope with the Derek and Stiles hotness. Best. Couple. Ever.

This ticked all the boxes for me and there is plenty of Derek protectiveness which is my favourite.

### **Otila says**

I loved it.

It's hot and angsty and very sweet.

### **Susan says**

Stiles is a hooker, and Derek pays him for 3 full days and nights.

Derek is under the influence of the mating moon and wants to suffer through it by himself, but once he sees Stiles, he knows he has to have him, protect him, love him.

This was awesome! How I love Stiles as a prostitute. And protective Derek is the best.

I was a bit confused as to why Stiles felt the need to earn money like that, but hey.... We got all the Sterek sexy times! Like, a lot. It was great.

4.5

I just loved this. LOVED THIS. New favorite. Not sure I can totally explain, but it's sweet, and very hot, and manages to make a compelling, believable tale out of what could have been a ludicrous, porntastic prompt-- i.e. Stiles as rent boy and Derek as his John. Nothing cheap here; the prostitution part was sad without crossing over into tragiboy territory.

I hinted in the status updates, but I might as well make it official: this is now my favorite Derek POV story evah. (There's some Stiles POV, but it's not evenly divided.) For all I love Sterek, I find Derek a problematic character. I mean what exactly are his personality traits: non-verbal, frowny, emotionally constipated, brooding? Are we seeing a pattern here? Too often, authors fall into generic Alpha-hottie territory with him, a lustful foil to Stiles, who is, to put it mildly, almost overburdened with personality, as in he has more than enough for two people (arguably three--himself, Derek, and Scott). It is just too easy for Derek to turn into a sort of compendium of desirable traits, without much purpose than to fulfill Stiles'/the readers' fantasies. And hey, they're my fantasies too, or I wouldn't be on this effing Teen Wolf FanFic binge, but when you're looking for stories that matter to you, I am going to need more.

This was more: Derek has his usual painful backstory, but it provokes a complex reaction to Stiles and the challenge he presents--a teenager, clearly in a very bad situation, whom Derek wants badly but also wants to do right by. Their whole encounter is a battle between Derek's own needs and raw lust, his general anti-social instincts, and the sympathy and protectiveness Stiles rouses. In this story Stiles was definitely on the more vulnerable end of his personality spectrum, mostly because of the crisis that drove him to this point and his very believable and heart-breaking amount of shame over having to turn tricks. The author did a great job showing how his confidence grows along with their relationship, allowing his usual wittiness to bloom without having it dominate the story as it usually does. We have no difficulty inferring his motives throughout, but I really appreciated how deep the author was able to dig with Derek's conflicting motives, self-reproach over his desire, and difficulties controlling himself.

I did indicate it was hot, right?

(view spoiler)

Bottom line; not too hard to figure out that I really liked this, recommend it, hope you like it too, etc. etc. I'll just add here that I am really enjoying exchanging recs and reviews and hearing what everyone else on the Sterek express-train-to-Hell/Beacon-Hills thinks of this and the 57 million other Teen Wolf fics available on our favorite hosting site. Seriously, this has been very fun.

**5 Stars**

Derek is being called by the mating moon, a time where his heat is particularly strong. In the process of

holing himself up in his apartment, he just so happens to come across his mate in the form of a rent boy. Stiles hasn't been doing this long; extenuating circumstances forcing him into this lifestyle.

**"The wolf only cares that this kid will taste like summer and trees and cool, bare earth and mate."**

This is a grittier fic, the topics more serious, the feels definitely deeper. It's mostly in Derek's POV which I'm finding that I like a lot since it leads to a greater level of surprisingly insightful emotions. Derek's wolf urges and desires play prominently, though take heed that this isn't the crazy, mindless frenzy of A/B/O heat cycles. His connection to Stiles is instant and tied with hormones and base needs. But at the same time he wants to make a true and honest connection despite the sad and awkward situation that brought them together. Once that trust is gained, the results are explosive.

**"Stiles is so far over his head, damn Derek for bewitching him with honest desire and compassion and his magic goddamn cock."**

**"But Derek is mumbling praise and curses... it's Stiles' body and Stiles' responsiveness and Stiles' words that are breaking that iron control and he... just lets go."**

I must admit that this is probably one of the hottest Stereks I've read so far, but it's only because it has the added bonus of having the most raw, affecting, intimate feels tied with these scenes that make them so powerful. It was beautiful to witness their love growing over time in understated reveals and small gestures. This was just amazing and I'm in awe of these authors who continue to indulge our addiction. Keep them coming please!

A really interesting and creative AU history with some enjoyable twists and a lightning-quick yet perfectly plausible relationship development.

Stiles and Derek never struck me as particularly in character, but neither were they OOC, so don't let their characterisation be a deciding factor in whether you read this or not - just figure out if you're intrigued by a clever, passionate and weirdly cosy hooker romance.

### **Meep says**

Well written, a bit angsty a good balance of smut to plot.  
The pov is mainly Derek's with odd chapters of Stiles.

Stiles as a prostitute; still in high school, with no-one knowing - not the most convincing although his exhaustion is mentioned I kept expecting it to turn out to be an 'I just wanted to get laid' stupid idea and him be a virgin, I couldn't quite get the impression of him having been doing this every w/e and gaining bad experiences.

Also 'Mating Moon' - I expected more sex! LOL but I do love when they snuggle. And there were far more feels here than I expected.

Liked Derek's protective (wanna sex him up, and keep him he's MINE) vibe:

Really liked how this part ends, though glad there are the other parts.

I can only say that this made me happy, and that's one of the best reactions a book can give. Read it, I loved it, it's fantastic. Lilia's review explains why.

I even got a bit choked up there at the end with the cupcake and whatnot. *Mating Moon* is just all around lovely. Hands down my favorite Sterek story!

#### **Way Way MORE THAN 5 STARS**

And this goes into my favourites list...This just made me Feel....Don't know how to explain everything...so will keep it short

This was really good...I am onto the 2nd book now....

The best thing that I liked about this book was that we get a more vocal Derek...and the author did a very good job of retaining the INTENSE, brooding, silent and quiet Derek-which basically makes Derek who he is and made him vocal when it was required....at just the right places....which actually felt just right

Stiles was Stiles...and I love him for that....with the added angst..it was awesome...loved it...
