A Pocketful of Feelings Susie Barbaran

The purpose of this book is to allow children to become familiar with and to hopefully use in their everyday language many adjectives that describe feelings. Too many children, when they see the face of a character in a book, describe what that character may be feeling as good, happy, sad, or mad. I have taught Title 1 children from the first to the sixth grade for the past eleven years, and these are my findings.

I also hope that parents and children alike, after reading this book, will come to realize that being annoyed can end happily, that someone who is teasing someone else will realize that all people are important, that it's okay to be cranky once in a while, and that your cranky face probably is not as pretty as your happy face. This book, A Pocketful of Feelings, is a collection of six short stories featuring an adjective describing a feeling. These are adjectives that are not as commonly used as they could be. I hope you enjoy these stories as much as I do.

Eva says

The book is well-written with engaging illustrations. I would recommend it as a teaching tool for elementary school children.

Thank you GoodReads for the book.

Olivia Farr says

I'm giving "A Pocketful of Feelings" 3 stars because the illustrations are good and great to look at, but the writing is just OK. It covers a few basic feelings in stories that use the word repetitively. The font is rather small, making it difficult to read to a child while holding it at a distance, and the writing is pretty dense, with several full pages of writing vs. illustrations. As such, it is somewhat difficult to hold a child's attention. This might be better for intermediate readers who want to read on their own, but still may be a little dense. Please note that I received this book through a goodreads giveaway. All opinions are my own.
