Fated to Love (Fated Series Book 1) Christine Gray

“I don’t want to be in a damn interview,” Javier snarled.

From the second he laid eyes on the extra guest that arrived with his childhood friend, Maripose, Javier knew he was in trouble. Not only was the Jamaican woman breathtaking, she was nosy as hell, and in search of a story that would give her the raise and corner office she had been promised. If that wasn’t enough, she was rude and jumped to too many conclusions about the reclusive billionaire. Javier knew it would only be a matter of time before the strange things that went on at his ranch estate would raise eyebrows.

With the appearance of the odd marking on her arm, Javier realized that Zekia wasn’t going anywhere. What Zekia thought to be a sore, Javi knew was a sign that tied this annoying woman that rubbed him the wrong way to him. She was to be his future, his lover. A lover that had her heart encased in a steel trap that he was going to have to breakthrough while dealing with his secrets and enemies of his past that were knocking at his door.

Even still, Javier couldn’t deny the passion he felt whenever Zekia was near.

“I came in your room to talk and clean your sore, but don’t confuse my deeper motive. I wanted to see if I had a chance in getting between your chocolate thighs,” he admitted, smoothly.

She tilted her head. Just as she knew, Javier was a force she wasn’t used to tangling with.
“Hm, revealing the coming attack,” she smirked.

“There isn’t a damn thing you can do to stop it. You might fight, but I will win. I’m gonna give you what your ex never could,” Javi promised.

They were FATED to LOVE!

Fated to Love (Fated Series Book 1) Details

Miranda says

Love this author

I Love reading this author, her books merge together and take a great book towards it being a phenomenal book and storyline.

Justine L2r says

I'm sure it could be a good story, but it was just too out there for me.

Mary L Calhoun says

I couldn't even get through the first three pages without being assaulted with the gratuitous F'ombs word count formula. What a disappointment! I immediately asked for and received a refund.

Piper says

Saga continues

The saga of this family and the people they pull into is made up of myth and fantasy. A good blending. This installment added more characters with interesting stories.

Elena Jones says

Javier & Zekia

I chose a five (5) star rating, because the book was written to keep you wondering what will happen next. The characters was great and I really like when the Kings made their appearances. The only things I miss was Alicen didn't get her comeuppance at Gala. I would recommend this book to all of my friends that reads. Excellent job.

Nene says

Loved it

I loved the relationship between the two main characters, was glad to see the twins still funny. I hope Lucien and Mariposa get their HEA, can't wait until the next book. Their grandmother got what she deserved.

Amber says

?

I liked the story. There were actual characters. Grammer and editing was amazing. The story grabbed my attention from the beginning. The characters had chemistry that was believable.

Only reason I rated it a four instead of five is because I was a little confused about the story line. People were introduced as if I should know who they were.

Still a great read ?

Jackie Bragg says

One of my favorite author

I love this series, along with the relentless. Truly well written, enjoyable and entertaining series. Keep up the good work

Elysa says

Uhhh...say what?

Where to begin....well this was a first for me..this author, series etc.. I wish I had known initially about the Relentless series of which this is a spin off. If you can, read those first then Go to Fated. There is so much confusion otherwise. The only parts I got were when the characters dealt with regular life issues like eating, swimming or talking about the rescued children etc. Everything to do with magic, mysticism folklore etc...fuh-get about it! Mind-boggling..?

And of course there's an issue with editing i.e. Sentence structure which make some passages hard to read. But there's enough there to grab attention and if you're curious like me you'll dig further.

The sex scenes are raunchier than I like so I tend to bypass them. But Javier & Lucian are hot and I definitely want to see what else there is to Zekia & Mari. On to Relentless...

Joyce Hall says

Ok at best - Grammar the worst

So for the most part there was something to catch on between the characters. However it turned left quickly with this idea of vampires. Also, the author needs to fire her editor! Too many silly mistakes with grammar in the book. Every other page had grammar issues...

Janice Anderson says

A Weird Relationship

Wow, what an awesome interracial couple ?and mysterious love ?relationship filled with suspense and plot twist. Can't wait to read the next book. Kudos

Cherryl Montgomery says

All he ever wanted was to be loved...

...really loved. Javier wanted to be loved for himself and not for money or his abilities but for him. He got that chance with Zekia and he grabbed it through their joining. Despite Ysabel's evils scheming, she do not understand what she'd done by picking Zekia for Javi.

The author smoothly integrated characters from Relentless and giving some much needed background info on the genealogy of the Crimson Bloods. This was an interesting story even though it ended in the hated cliffhanger.

ILoveToRead says

Toss Up-

As always, I like her characters and the collective chemistry. I just hate that this is a good story, but told in such a way that it's infuriating to follow. The flow is disjointed, you have to re-read passages to understand who is talking and what is actually being said or laid out. The author would do better by taking all of the books born from the Relentless series and revamping them. She also should include a family tree because it is extremely hard to follow the lineage of the characters. The way the story is told, is distracting and hard to follow. I only like to re-read a good book after I've read it once. But these books require you to re-read while you're reading it the first time.

Chemistry: 5

Plot: 4

Character Development: 5

Story Flow: 1

Love Scenes: 4

Editing/Grammatical Errors: 1

Carolyn King says

Good Book

I am loving me some Javier. At first I didn't like Zekia. But once I start reading about her and what her issues were I started liking her. I think her and Javier are a perfect match for each other.

Labrina Abram says

The story was confusing it started off slow then it looks like the storyline got a little mixed up it became interesting after I read at least 50% of the book and more strong strong storyline came in I can only assume there may have been previous book before this book
