Hollywood Roommates Elizabeth Briggs

Three sexy actors. One curvy English teacher. An impossible rule just begging to be broken...

When my boyfriend dumps me, I need a new place to live, fast. Luckily my best friend offers me a solution: move in with her brother and his two roommates in his Malibu beach house. Sounds good, right?

Except my new roommates turn out to be three of the hottest actors in Hollywood. Each one is gorgeous, rich, and famous—and they're all off-limits because there's only one house rule: no sleeping together.

They could have any woman in the world, but to my surprise they each want me. Soon there's a new rule: whatever I do with one guy, I do with all of them.

There's no way this can end well, but how am I supposed to choose just one of my sexy-as-sin roommates?

Unless I don't have to choose...

This sexy standalone reverse harem romantic comedy is intended for readers 18+ due to mature content.

Funny

It had me laughing so much the characters were fantastic wish it was longer I wanted more of them especially the guys at the end I wanted to hear from their POV in the epilogue. Totally recommend this book super #steamy and #sexy #Bookaholic

Jemimah Zaoune says

A good standalone reverse harem read for when you want something that will give you closure in one book and not have to wait. A good contemporary style reverse harem with a romantic and made for the movies story. Enjoyed reading.

Geyzen Nathalie says

Perfect (and very hot) romance story

When Allie gets dumped by her boyfriend who's been cheating on her for two months (and who Allie thought was going to propose), her life is seemingly ruined. As a high school teacher on summer break she now has nothing to do, no boyfriend and no place to live, since she has to move out. Desperate, she turns to her best friend Brooke for advice. Brooke cashes in a debt with her actor brother Shane who lives with his two other actor friends (who happen to be brothers) in a Hollywood villa and they become Allie's new roommates. Brooke warns her not to fall for them. If only it were that easy. Only problem is, their roommate contract states they can't do anything with each other, not even kiss. Good thing rules are meant to be broken ...

Wow! I don't usually like RH that's not fantasy or sci-fi (how would that work in real life with today's society? I'm all for it but it doesn't seem realistic to me) but this book did it perfectly! The story is really good but the author takes into account those moments of "omg, what if people find out, what would they think, are our lives going to be ruined", which just makes it very realistic to me. It also helps that none of them jump into bed together right away. Instead there's a bit of a struggle on both sides, which makes for some wonderful tension. Loved all the characters (I mean, three hot actors ... enough said) and how each relationship developed. Just a great read.

Recommend it for fans of RH, steamy scenes (including group scenes and backdoor stuff lol, no MM though), a good feel good romance story, sassy chicks and a little bit of humour.

Melissa says

Good

This was a very enjoyable read! It was a little unrealistic and far fetched but it is very entertaining. The men were all perfect, a little too perfect. They were extremely sexy, likeable and devoted to Allie from the moment they meet her. Allie is a good character. She is loving, sweet and humble. The chemistry between them all was hot and intense, the sex scenes were scorching! I will definitely read more from Elizabeth Briggs.

Cyn Mistress Kitty says

Really liked this story but I must say you have to suspend a lot of belief. Oh well, it still was good for escapist reading. lol

Silvia Andrito says

DNF. This book was bad. Complete crap and a total waste of time -_-

Anna says

Steamy with a huge dose of sweet.

Stream AND story!! Allie is dumped by her cheating bf when she thought he was going to propose...and to rub salt in the wound? She has to find a new home since she lived with the weasel. Her bff's brother is enlisted to give her a place to crash until she starts the school yr. She knew he is an actor & gorgeous. Little did she expect reality to be better than film...even if he is a bit of a grump. And he has two, sexy, hot brothers (also actors) living with him. Despite an attempt by Shane (the bff's brother) to enforce a no sex or sexual contact rule on everyone...that's just not gonna work. The chemistry is HOT between them and her. Eventually they start the journey to their steamy, sweet HEA.

Carien says

I never heard of Reverse Harem before, but it did sound like a menage to me, which I usually am not a fan of. Still... this book was written by Elizabeth Briggs and I love her Contemporary Romance books. So I decided to give this book a try.

And this turned out to be a fun and sexy read!

Allie gets dumped and with the help of her best friend moves in with three gorgeous guys. The way they are described and how they act made that I could understand why Allie drools over all three of them. And once the first kiss happens things turn hot and steamy fast!

What I really liked was that there were some chapters written from the point of view of the guys. Usually I

don't like menage type stories, because I feel like one (or more) of the characters is missing out. Seeing inside the heads of the guys took that feeling away, and made that I actually could enjoy this Reverse Harem story.

Next to some really delicious scenes with Allie and her guys there is a more serious storyline about if they can make their unconventional relationship work. I had to keep reading to see how this romance would end, and was left feeling satisfied.

All in all I very much enjoyed this book and I will most definitely get hold of the next book Briggs writes.

Review to come

Kayla Brunson says

ARC provided via author for an honest review

This was a funny, hot story. This was the authors first reverse harem story and I hope she doesn't stop writing them!

Allie gets dumped by her boyfriend and kicked out of their apartment on the same day. She ends up calling her best friend and she lets her know that her brother owes her a favor. With nowhere to go, she goes and checks the house to find out she will be moving in with three actors.

I was hooked since the first chapter when Allie thought that her boyfriend was proposing.

I loved these guys! We have Shane, and brothers Matt and Logan. They were all great, but If I had to pick it would be Shane for me. You know I love me a strong protective love interest.

The only thing that made me not give it 5 stars was the ending. While it was great and ended in an HEA, I wanted more of how their lives were together.

It was funny, VERY HOT, and a pleasure to read. I didn't want the story to end. If you're into the reverse harem genre, then pick this up when the book comes out.

A Dec 2018 I'm sick as shit read

2.5 stars rounded down to 2

MEH

Megan Olguin says

Let me start by saying this is not my usual genre. I've read a few reverse harem books in the past week to try something new. It'll probably be the last one, multiple guys is just not my thing, but it was done the best out of what I have read. The way each man loves her made sense. There was something each person needed from each other and it made their relationship beautiful. I could never be in a relationship like this (I am FAR too jealous and insecure) but I do not think anyone should be ashamed in wanting a relationship like this. This book does a good job making that point known. I think it shines a positive light on Poly relationships! Plus, the heroine was spunky, chunky, and sweet! We need more women like her.

It was a little cheesy, and very short. There was also no real plot, or any huge developments, so that's where the two stars from my rating went.... But it was still a quick and easy read!

A cute contemporary menage romance. Nothing new, but the bubbly personnalituy of Allie is refreshing.

Jennifer G says

When Allie's boyfriend invites her to lunch at the place where they first met and brings flowers, she believes that a proposal is on its way. After all, they have been together for a while and live together. Instead, she faces the humiliation of a public break-up complete with an ultimatum to be out of their apartment by the end of the week so that he can move the co-worker he's been cheating with in with him. Allie is a working high school teacher with no savings and no income since it's summer. Having no place to go she moves into a spare room at her best friend's brother Shane's house. Mansion, actually. Fitting since he's a television star. He also has his best friend, Matt, another actor and his best friend's brother, Luke, a movie star living with him. So now normal, Allie is staying with three of the most famous, hottest men on the planet. Talk about being out of her element! And to make it more awkward, even though she's terribly attracted to all three, and they seem equally interested in her, as soon as she moves in she's required to sign a roommate document ensuring that she will not be physical with any of the men. Luckily there's a clause: if she does do anything with one of the men, she must do it with the others.

This book is a fantasy come true. A true guilty pleasure. The book walks a fine line between storyline and sex but it is entertaining. It is one of the more unrealistic RH's. It's just too hard to imagine three of the sexiest actors all sharing one woman. It's fun to pretend though. It is every woman's dream; a cringe-worthy, embarrassing breakup leading to the ultimate revenge scenario. The guys were all fantastic and easy to love, especially in the superficial world of Hollywood. Allie wasn't remarkable but she wasn't whiny or nasty either. Just a nice, normal girl. This story may not have the depth of some of the RH's but that's okay. There's a place for lighter, fluff RH side by side with the other sub-genres. We can always use a book that you can pick up and get lost in for a few enjoyable hours.

Pops says

everything seems so easy .. but it is definitely a humorous story
