**King** Julia Sykes

*A standalone romantic suspense novel in the USA Today Bestselling Impossible Series.*

My father gave me to him as a bargaining chip, as though I was nothing more than flesh to be traded. I hate him for that, and I hate the man who took me: Javier Santiago, a member of the violent Latin Kings.

Even though I don't want to belong to him, he is fiercely possessive of me. And when his ownership is threatened, his enemies aren't the only ones to suffer. He says my freedom is the price for my safety. I think he just wants to keep me all for himself.

*Note: King is Book 7 in the Impossible Series, but it is designed to be read as a standalone novel.*

## From Reader Review King for online ebook

### Samantha Rhinesmith says

#### Samantha's books

What a wicked little twist to this story. I don't want to reveal anything but it's big. It gonna blow your mind.

---

### Thomas A. Cowell says

?

Pure trash. Undisguised pornography. I thought I was choosing a Stephen King!  
I really want forgive no stars. But I cannot cross

This is pure trash. It is undisguised pornography. I thought that I had bought a Stephen King book. Why am I unable to re

### Kacey Filiptsov says

#### another annoying heroine(slight spoilers ahead)

The good thing I can say is the author has talent. Even though I disliked the heroine the story was written well. And for those of you whose only experience with this lifestyle is television, the you might enjoy this story. I however was completely unable to believe the behavior of the (h). If you're an average college kid with no previous understanding of this world then yes. This story would have been believable. But she's supposedly the abused daughter of a gangster. Where the hell is her common sense. If the guy challenges someone and constantly fights to protect you, there's a reason. If he was a monster. Trust me, you'd know that pretty quickly and a girl born in this world would have the wisdom to discern this. And the shallow discrimination she expressed towards his not being a rich white frat boy, just wow. What the hell did the hero see in her? And yes the distrust is understandable. But if I was Javier, I'd just be ready to spank her ass until she saw reason. And not in a sexy way either. If I were this girl, I'd be more concerned with my safety than what a bunch of sorority chicks thought. I mean, are girls really this damn idiotic?? Suffice to say perhaps she improved but I didn't finish. The fact that he babies her and acts gently with her after getting Miguel shot I just had to give up. If it were me, I'd tell her to get to stepping. She wants freedom?? Give the b\*\*\*\* what she wants. Maybe in her next life she'll be less concerned with appearances and have something

called 'survival instincts'.

Maybe I'm being too harsh but the amount of weak, fragile and blubbering heroines constantly popping up and supposedly capturing the heart of these gorgeous badass men is just irritating. These stories proclaim the (h) as something strong and special but all I see is whiney, shallow, blubbering clumsy females who constantly need reassuring. The one saving grace is that she's a fighter. Physically at least. Kudos to the author for that one. Maybe I'm too biased on the subject matter? Anyway. I'd definitely try the sample first

### **Siobhan says**

King is book seven in the Impossible series, and I've been curious about this story since the characters were first introduced to us a few books ago. Although this one can be read as a standalone novel, as all the books in the series can be, you do get a better appreciation for things if you read the books in order. You will also find, like myself, that you end up rather excited to see how certain things play out.

As with all the books, I really enjoyed this one. I went in with quite a few ideas of how things would play out in this one, notions of what was to come, meaning I was pleasantly surprised by the story I was given. Some aspects were expected (the typical things you will find in these kinds of stories), yet there was plenty to keep me on my toes and engaged. In fact, there were a few unexpected elements that I really enjoyed watching play out.

This one also adds further promises for the future of the series. Things are slowly developing, and aspects that came to light, or were simply paid more focus, in this one have left me super intrigued to see how a certain story arc will play out. In fact, I'm rather excited to see certain stories now, ones I originally wasn't crazy about seeing.

I admit, King is not my favourite book in the series. However, it is another great read and worth grabbing if you have enjoyed the other Impossible books.

### **Lynne says**

Book 7 of the Impossible series is centred on Charlotte. Traded by her mobster father to secure his place in the Latin Kings Gang, she fears her life as a young, carefree, university student is over.

Javier Santiago steps up and claims Charlotte, fighting physically to claim her for his own. She's torn between anger and fear at her changed circumstances, and gratitude and attraction for the man who saved her being passed around like a party favour.

Despite knowing what we do about the circumstances in the book from reading the rest of the series, I still couldn't put this down- the foreknowledge serving to whet the appetite, rather than spoiling the surprise.

**Debra says**

This finished up..I think..I'm not sure..anyway a good wrap..writing was good and Javier was sexy and he was very good to his female...

---

**Juliet says**

**Engaging!**

Love story, mystery and suspense! Story starts out a bit slow, but definitely makes up for it later on.  
Very entertaining!

---

**Lora Borzelleca says**

Again....these men in these series make me swoon. I am so jealous...where are men that are like this in real life!!!!

---

**Expresso-Girls Just Wanna Have Books ; A Mafia Romance says**

Although I love this story, this chick got on my nerves sooo bad! How dare she not love the guy she was sold to?!!!!

No worries, it's a HEA!

---

### **K.M. Lowe says**

#### **Good!**

This was the first book that I've read by this author and I was pleasantly surprised how much I enjoyed it. I loved the story. I loved the characters. I loved how the whole thing played out. I kind of guessed early on there was to Javier than we originally pictured, but it didn't take anything away from the story or the relationship between the two main characters. I'd definitely recommended this book.

---

### **Michelle Cristiani says**

Santiago calls Charlotte muñequita and I think that's the most adorable pet name ever. Who wouldn't want to be called little doll? They're cute, and sexy, and fun to hang out with.

I'm usually turned off by protective protagonists but there's a plot-based reason here, and it's well executed.

---

### **Chanel says**

I started this Series with the Impossible Box Set, which included Books 2-4, and only read 2 & 3, (Savior & Rogue) and decided against reading Knight(4), as the BDSM sections were too much for my comfort level. With that being said, I was very curious about the relationship between Javier and Charlotte which is introduced in the books I did read.

I was intrigued with their love story which starts out very slow and builds. It is a relationship built on respect, loyalty, and trust, which in their world is relative. Javier is deep undercover, so he can't be totally honest with Charlotte, but it is quite evident his love for her is real.

---

### **Yolonda says**

ehhh! Undercover FBI Analyst in a gang.. ok I guess I buy that but also into BDSM. Too much was happening that I just couldn't keep up.

---

### **MsMoxy says**

#### **3.5 STARS**

There is lots to this story. I liked the premise, Charlotte and Javier were interesting characters, but as I said above, there is a lot in this story.

I wanted to have the characters actually FEEL their way through some of the harrowing situations they were placed in, but their reactions were very Blasé. I felt completely detached from the characters, and their experiences and was hoping for more character development and less dramatic events that the characters were constantly thrown into.

I'm going to avoid giving any detail and making this review a lot longer than it needs to be.

To put it simply, I was hoping for something more.
