Meg's Moment Amy Johnson

Megan Malone is a bored housewife determined to put passion back into her marriage. When she discovers that her husband, Ted, is a lying cheating scumbag, she decides to dump him and have a wild night with one of the hotties from her high school days. She enlists the help of her eclectic group of friends and a down in the dumps Private Investigator, Jack Weston, who coincidentally is investigating her husband and his girlfriend. She hires Jack to locate these hotties so she can put some passion back into her boring monotonous life. But Jack has other plans. Megan snubbed him back in high school and he wants revenge. Megan finds herself in a hot mess of passion, love and murder. Now its left up to Jack to try to prove her innocent. Has Megan finally gotten herself into a mess she can't get out of?

Damn, this book was hilarious! I laughed so much during this book! The story was great and I will definitely be reading the sequel! Read this in a day while the family got ignored ;)

Amanda says

I loved this book. It was hilarious (several laugh out loud moments) and kept me engaged in the story. Jack was super yummy and the main character Megan, was such a great heroine. She was quirky, hilarious, strong, stubborn, and an overall wonderful character.

Between Megan, Granny, Michael/Mickey/Mikayla, and the rest of this group, I was constantly giggling. The characters were so well defined and developed. Such a great book and I can't wait to read more from this author.

There are times when writing a review is pretty hard to do, but this time it is so not the case at all.....This is undoubtedly one of the most amazing books I have ever read.....It was so hilarious that the tears were constantly streaming down my face and I was having to make mad dashes to the bathroom so I wouldn't pee in my pants.....

Meg Malone is one of the best characters and her story was one crazy, awesome ride that I enjoyed and loved every minute of.

If you haven't yet read this, then do yourself a favour and get cracking....you will not be disappointed.....

Dena says

Absolutely laughed so hard. The humor and love story behind it is FABULOUS. Reading Meg with her friends and newly acquired boyfriend Jack, will make you laugh so hard and enjoy the book immensely. Hoping for a sequel. There is some bad editing, but overall a great book to read. Well worth it

Katy says

This book is so funny!!

Jeanette Swenson says

I LOVED this book!!! I was up until 1am reading, had to force myself to put it down and to keep my laughing quiet so as not to wake my husband up. I finished it today and I cant wait for the sequel!! Highly recommend reading this book if you love to laugh!

Sara Luck says

This gets 5 stars for so many different reasons. It was literally laugh out loud hilarious, and the romance was great. If you've ever read Janet Evanovich..the Stephanie Plum books, I found this to be really similar. The first 20 or so pages were hard to get into and sooo utterly chaotic sometimes but its worth a little bit of the frustration. Very good book...completely unrealistic, but good.

Ann says

love it humorous, serious, it's got a little of everything

Susan L says

Not really a fan of the whole romance genre.

Niki says

I didn't have any expectations reading this book, but did so on a recommendation of a book blog and boy am I glad I did! This book was pee your pants funny!!!! Highly recommend! I saw that the book was a few years

old, but we can only hope that there is a second, and a third!

Funny story, great kooky characters. Meg is on the war path after catching her husband Ted fooling around. She hires Jack Weston a private eye to find some old hotties from high school. Comedy of errors, laugh out loud fun.

Janey says

what an unexpected treat!!, i was lucky enough to get this as a free title, but would have happily paid for it, its a cracking good read!, the characters are hilarious, Megan's friends are well written and very descriptive, you have Stacey the sensible one, Ali, newly married and loved up, Mickey part time transvestite & Josie grown up barbie doll, it was so easy to picture them all, the writing is very clever, funny and quick, the exchanges between Megan with her religious mum, cheeky nanna (my favourite character)and the nosey neighbour next door are hilarious and had me laughing non stop, the pace is fast so the you get swept along and when the rather lovely Jack (yum)! is introduced your gripped to find out how it all ends, its got the romance, suspense and a few sombre moments but never fear there's always a laugh around the corner...oh and there's a goldfish called spot...what's not to like?,
