## **My Rockstar Billionaire** Amy Aday

Belle doesn't date. Not after her painful breakup with her longtime cheating boyfriend, Mike. When she visits a quaint resort in Punta Cana on a travel writing assignment, she only expects a relaxing work trip. But when she meets Ricky, his impossibly handsome looks and irresistible charm gets the best of her.

She's always felt like an average girl, not a size 0 supermodel, so she doesn't get how someone as perfect as him could possibly be interested in her. But he craves and needs her, and won't take no for an answer.

They agree to just enjoy each other on their getaway with no expectations. But she can't stop wondering what he is hiding. Will she discover his secrets? Or will they learn to live in the moment? Belle tells you from her point of view about their unforgettable, hot getaway.

### **Jammie Bebout says**

This is the first book I have read by Amy Aday, but I can assure you it will not be the last. She had me hooked practically from word one. I couldn't help but identify with Belle a little bit. What woman hasn't had their heart broken by a man who simply wasn't worthy of them? Sometimes it can take awhile to get your self-confidence back, and the interest of a new man can go a long way toward accomplishing that. Enter Ricky; scorchingly hot hunk of a man who seems to only have eyes for Belle. Realizing they're destined for no more than a weekend island fling, Belle decides to get her groove back with a no strings arrangement with Ricky, refusing to give or take any contact information. Their chemistry over the weekend is off the charts hot! Beyond that even, they really just seem to like each other and feel comfortable with one another. Even though it kills her, Belle sticks to their no strings agreement... but will Ricky? And who is Ricky really? Amy Aday has given us two characters that you can't help but fall in love with and root for. This is an intriguing, hot, sweet, sexy, and ultra romantic book that you will not want to put down! Can't wait for the next book!

---

### **Teresa Jesenovec says**

I am a new fan of Amy Aday. She was in an anthology with another author that I follow closely. I read this book all in one setting. It was nice to read about a girl that was broken up over her cheating boyfriend but still be a part of the living and continue on with her job. She was sent to a tropical resort to write a travel review about this resort. She has a little trouble being social with a man that she met at the resort bar but decided that this was the best way to "move on." After all, it was just a vacation fling, they would never see each other when their vacation was over. I just liked the whole chemistry that these two characters had. Can't wait to see what happens when they return home.

---

### **Ava Guinto says**

\*\*\*3 of 5 Stars for My Rockstar Billionaire by Ms Amy Aday

I had so much expectation for this book. I know that this is one part of the three. Though I was looking for some originality and that 'touch' in writing. This book didnt disappoint.

I just kinda feel like I was reading this story is cliché. I mean the entire plot is one of the many 'erotic contemporary romance' these days. I was looking for more. And I thought I didnt find it here on the first book.

I really do need to jump into the next book in the series now. I hope it'll be much better than the first one.

-I'm still recommending this delicious book to all readers outthere. :)

---

## **Abbie says**

I received a free copy of this book in exchange for an honest review. Thanks to the author and her rep! :)

So the story is basically about a girl named Belle. She's smart and sweet and a talented writer, but she's supposedly ordinary. Her ex cheated on her and she tries to nurse her wounds. She meets the sexy Latin billionaire Ricky on a romantic beach and they're epic romance begins.

Personally, I would have liked more elaborate descriptions about Belle's past, her characteristics and such. But I figure since this is just the first book, it's just a taste of what is to come. Ricky remains to be a mystery and I can't wait to know more about him and Belle.

---

## **Anita Byars says**

I received an ARC for an honest review.

This is a fantastic story. This is the ultimate young women's fantasy. Belle has just ended a long term relationship after her boyfriend cheated and has been determined to never trust men again. Then Belle gets a opportunity from her employer to go on a free vacation to a tropical island what better way to forget about her ex-boyfriend. While she is enjoying all the activities that are available she meets a handsome stranger Ricky that she has a fling with. The chemistry is off the charts hot and steamy but Belle wants no expectations in this relationship since it is just a fling. But Ricky has other ideas and when Belle gets back home she is going to have quite the surprise regarding her vacation fling. I couldnt put it down. Can't wait to dive into the next one. You have got to read this series who doesn't love a hot and steamy Billionaire Rockstar romance.

## **Faye says**

This actually book 1 of the series. I don't know how many will there be but there are 3 that I know of.

In book 1, you wouldn't be able to really tell that Ricky is a rockstar billionaire but there are clues. And Belle is the type of heroine who is insecure of herself plus who came out at a not so good relationship. Then, she went for a work vacation and BAM! These two met.

If you're looking for a sweet romance this isn't for you. It's more of fast paced instant-kind-of-connection that you feel is too quick but this fits the story perfectly.

There maybe a little bit need of character development since this one is short but you'll get there once you read the following sequels.

Although if you're like me, who needs some fast paced and not too much of the main characters going under some suffering then this is for you.

The ending is not quite bad. It isn't really a cliffhanger but it won't leave you contented.

I received a copy in exchange for an honest review.

### **Mary Strunk says**

\*ARC given for an honest review\*

Where do I start, this was such an amazing read even if it was short. It is part of a series and I was hooked from the beginning. The author knows how to grab your attention and keep you focused. Oh man the chemistry between the two & the sex scene will make you blush. Overall, it was a story that kept me going and I wanted to know more - I wanted to see where things were going to go.

Belle doesn't date after her last ex-boyfriend put her through a lot. She takes a job overseas as part of her freelance writer and decides that she just needs to have some fun and forget about Mike. When she gets to the DR she doesn't expect to meet Ricky. So now she has a week to spend with Ricky.....

Ricky has a secret but he doesn't want to share it due to nobody knowing the real Ricky. He doesn't expect to find someone like Belle and after seeing her he has to keep her for a week. Instant attraction and he just can't get enough.

The author did a great job on this story and it has a wonderful plot to it. I recommend to anyone to read. Onto the next book....

---

### **Sonya Heaney says**

If you made the guy an MMA fighter, then this book would literally have **every** current romance fad all rolled into one. Plus sized Plain Jane. Impossibly gorgeous rock star billionaire.

Are The Beatles even billionaires? How did this guy manage it?

---

### **Natasna says**

I received this as an arc for a honest review.

This is a short read and there is a bit of drama to it, Belle is on a work assignment but she also wants to take time to regroup herself after a terrible breakup. she finds herself going out on dates with a handsome stranger who seems to be very girl dream man so why is he talking to Belle and ignoring all these other gorgeous women that are throwing themselves at him. He seems to only have eyes for Belle and his friend/manager Edward doesn't like it. Ricky doesn't come out and say directly what he does but Belle has her assumptions after their last night together. But will she ever see him again after this work/vacation?

In my opinion there is not really a cliffhanger to this it does seem wise to read in order though. I would like to know what happens when they go their separate ways and how Belle can go on.

## Chie says

\*\*\*I got my copy "My Rockstar Billionaire" in exchange for an honest review.

I'm rating this 3 I enjoyed reading this stars.

The story starts with "ordinary" Belle meets extraordinary, drop dead gorgeous and insanely hot Ricky...it's pretty cliché right? but hey I'm not complaining, I'm a pretty ordinary girl myself and would love to encounter and kidnap a gorgeous guy in the future..yes..kidnap, because I'm not going to give him a chance to reject me lol.

So yeah what I'm trying to say is the book is an okay read but it could be better, I would appreciate it more if the author describes both characters in detail like how lovey his lips are or whatever lol it makes me imagine the characters more vividly though I think we need not to imagine any other guy because it's pretty clear that the guy is based on Enrique Iglesias :P

The book is pretty short I'm considering this to be more of a novella than a full length novel.

---

## Audrey says

I was very kindly invited by the author to read this story for a honest review. I will attempt that now.

I would imagine that this story would suit the tastes of many people, it is sweet and saucy. However, I found it a little too predictable and at times 'long winded'. I believe in leaving many things to the imagination and not to go into excess detail on particular situation (sex scenes, cheating scenes, and so on).

There were a few occasions where I felt a little lost and felt the thread of the story disappeared.

Belle and Ricky are likeable characters, (Edward is straight out rude and arrogant). However, I feel that there isn't much depth to Belle and Ricky's characters, that may change in the following instalments.

For me it is probably 2.5 stars. I confess to having a different taste in stories. However, I believe there will be many people who will enjoy this read.

## **Valerie says**

Pretty good for a short story. I liked it way more than I expected to ??

---

## **Saskia 'follow my shoes' Smith says**

I got this thinking it was going to be a great read. I'm disappointed. It has the potential to have been a good story line, it's far to short, it's far to vague and far to rushed to be any good. The characters I couldn't blend with, it seems pointless and predictable. The term milking it comes to mind, as this obviously is going to be a story spread out over a series of books, short chapters which are over prices, which end up costing the reader a fortune, it's a shame when writers do this. If time, depth and length had been put in to this, rather than rushing it and making it short it could have been a good story. Unfortunately it's anything but. Save your money. Sorry this is how I found the book. It's very rare that I give a low rating, I hate giving low ratings but I also have to be honest about why I rated it at the star I did. ( I read it start to,finish in 45 mins)

## **Lissa Smith Reads'~Bookaholics Bookshelf Reviews says**

\*\*\* Please Note I rate short stories on a 3 star system.\*\*\*

I was excited to be contracted by the author to write a review for this series, the synopsis was right up my alley. Therefore I jumped right in.

Now I'm at a loss for words. Seven percent into the book I had a passing thought the author made some edit changes by deleting some scenes and failed to restructure the remaining sentences to fit the changes. After all I do the same thing with my reviews sometimes, okay a lot of the time.

Then there was the part where Bella's purse was stolen. Her actions just didn't match what would happen in the situation even for a fictional event.

When I thought things couldn't get any more far fetched I had a wizard of oz flash back.... Auntie M, Auntie M. What a hoot.

Don't get me wrong there's some real potential for this short to be developed and become truly good. Keep I.mind I'm not author just a lover of the crafted written word.
