**A sweet, steamy, angsty and funny romance!**

Sabrina lost all her trust in men in high school when she caught her best friend and her boyfriend together. Thankfully, Tyler Anderson, the schools tattooed bad boy hottie was there to help her home. It's been 10 years since high school and she's never forgotten him. When it comes time for her 10 year reunion, her amazing bestie Julie encourages her to go. She hasn't been home in 10 years, but the hope of seeing Tyler is enough to get her to take that plunge.

Tyler just happens to be at the reunion. And he's there for Sabrina. Sabrina and Tyler spend the night talking, getting to know each other again. It's fast, but after spending a few days together, the both realize that they want to pursue something. Even if it is long distance. Neither one has ever felt this way about someone before...

Everything was going great between them. It's your typical sweet and sexy second chance romance. Until Tyler... Tyler... Tyler. I loved you. Tyler you hurt me. Tyler I hated you for a minute. I started to warm back up to you towards the end.... and the epilogue kind of sealed the deal for me. I love you again. But really, I had so many mixed feelings about this boy. He made an epic mistake. I loved that Sabrina didn't straight away forgive and forget. She took her time and made sure she was making the best choice for her.

I read Barbie's *Playing It Safe* last week, not realizing that the characters (Julia and Alex) were in this one. It was nice to get to see them both again. As much as I loved Tyler and Sabrina, they just didn't compare to Julia and Alex for me. Those two are the best of the best. It was really great to see them in this book. Although towards the beginning of the story (view spoiler)...

*Promise Me* is a story I really enjoyed. This authors writing style is fantastic and fast paced. I love her characters and how she incorporates humor into her books. Just a word to the wise... this book does have some (view spoiler) in it... But it wasn't unforgivable for me x

So this book a bit of a let down... Well to be fair I was warned(Thank you Sara) but I guess its also the way you look at it...

Okay-

Basically the book starts off with a **BANG** where Sabrina goes to a party to surprise her boyfriend and guess what???!!

She sees him kissing and all over her **BEST FRIEND**

Distraught Sabrina is crying like mad as he was a first love who was a 'first' too and she's been dating him for 3 years!

Tyler the schools 'Bad boy' sees this and takes Sabrina away and at the same time he tells her she's beautiful and makes her **Promise** to end things the next day.

So she does and breaks off her friendship to her biach friend and few months later leaves home for college never to look back.

Fast forward 10years-

**Yes you heard me...**

**10 YEARS**

She hasn't been home at all because of what happened to her. She calls her family or they come see her.

In the meantime she lives in Italy for few years then moves back to Miami and has a great job and lives with her new Bff.

Until she gets an invitation to her 10year reunion..

Faced with finally seeing the people from her past she finally decided to confront her ex and her ex bff who marries her ex. No more running away.

Her Boss at her gallery Alex is sweet, kind and Gorgeous and is interested in her. But she only wants Tyler- the boy who she spoke to for 10mins 10years ago??

WTH???!

Fast forward a bit...

She's going to go to the reunion because she wants to see Tyler. The boy who holds her heart even though she never had anything with him before?

Blah blah blah- the ex is sorry, he says he loves her still and made a mistake?  
Say what???! His been married to her ex friend and has 2 kids!!!!

Her friend tells her she's a bitch and hates her... Ok insecure bitch, whatever!

Then there's Tyler...

They finally 'hook up' and are in love or whatever in a blink of an eye.  
It appears that 10min conversation had a lifelong effect on Tyler like Sabrina.

All good things come to an end- Sabrina goes home with the promise to make their relationship work.  
She tells Alex the freaken hottie she's in love with someone else and nothing can happen.

After a few weeks of phone calls and texts Tyler hears that Sabrina hooked up with her boss and gets drunk and Screws one of his staff.

Deal breaker!!!!!!!!!!

Sabrina finds out and is shattered and he begs her to forgive him

SOO... He cheats knowing how she HATES cheating and his even begging?

(view spoiler)

Really really cheesy story and totally unrealistic for me...

## **Elizabeth (Liz) says**

Well, well. There's a new author in town, and her name is Barbie Bohrman. Remember that because I do believe you're going to be hearing it, like, a lot over the coming years. Or, you should...at least in my opinion. This author's debut, *Promise Me*, had just about everything a reader could possibly want or desire, and it delivered in an almost deceptively quiet, mature, understated manner, with the ease and ability of true talent. I'm a fan, Barbie Bohrman. I am most definitely a fan!

One thing I feel like I need to point out at the beginning, there are some who are labeling and shelving this as New Adult. In my opinion, it's not. Once someone is twenty-five or older, settled into his or her career, and has been living an independent life for a number of years, there's no longer any 'new' about the adult. At that point, it's simply adult. And there's not a single thing wrong or uninteresting about that. Much as I love New Adult, there is life, love and drama past the age of twenty-four. *Promise Me* is a wonderful Adult Contemporary Romance. I want everyone to be aware of that and to embrace it as such.

Also, I know there are some who are extremely uncomfortable and unhappy reading a story which includes cheating. So, I honestly believe I have to make the point that there IS cheating in *Promise Me*. If that is an absolute no-go for you, then please don't read. It isn't fair to you, as a reader, and it isn't fair to the author. However, if I haven't scared you off by this point, then please also hear me when I say that, personally, I'm a reader who has one of two reactions to cheating in a story. I will either loathe it with every fiber of my being, and it will stop me cold from reading the remainder of the book. Or, I can eventually get past it and continue. For me, it depends entirely on how the subject is handled and written by the author. I realize it's very subjective, as reading in general is, but I do feel Barbie Bohrman did an exceptional job dealing with this terribly difficult topic. It was honest, emotional and not glossed over. In my opinion, it does not ruin the appeal of the book AT ALL.

There was so much genuine depth of emotion in this story, and I love, love, love that!! *Promise Me* had love, lust, joy, elation, humor, friendship, sadness, desperation, frustration, anger, guilt, betrayal, redemption, forgiveness. But, none of it was overdone. As I said, it was genuine. It was organic. It was honest and real. Sometimes, the word 'real' scares people off, and I don't want to do that. For all of the reality, this is still, first and foremost, a story that entertains. It is possible to have both!!

Sabrina and Tyler had a tangible connection and attraction to one another, even after ten years. I absolutely loved them together, and I never questioned if it should last, if they should have a happily-ever-after, despite everything that occurs.

"Sabrina, the things I've said to you, I've never said to anyone else. The way I feel when I'm around you, I've never felt anything like it before. I want to be a part of you...your life, because everything...every little piece of me was always meant to be yours."

These two were fascinating, fully fleshed-out characters each in their own right. I so enjoyed watching them reconnect, feeling the strength of a bond that never actually broke. They were tested as a couple, and they

came out stronger and better. I believed that. I could feel it!

I do have to admit, Sabrina's best friend, Julia, was one of the highlights of Promise Me! I actually found myself jealous of Sabrina for having such an amazing, loving, giving, nurturing, loyal, hilarious best friend!! It's a little bit sad that, on several occasions, I thought, "Friends that incredible do NOT exist." Well, in my personal experience, they don't. But, I cherished the opportunity to live through Sabrina and, for a short time anyway, have a best friend like Julia. I was over the moon to find out that her story is up next! I cannot wait!! Crossing my fingers that I (hopefully) know who she'll be paired with!

Overall, I have to recommend this story and this author. I was, and am, so impressed. There is just something about this author's 'voice' that I can't quite put my finger on, but whatever it is, it had me reading until the wee hours of the morning because I couldn't put this book down. I found it thoroughly engaging, and I am SO looking forward to more from Barbie Bohrman!!

What a beautiful and heart-wrenching story!

After catching her boyfriend and her supposed "best friend" in a compromising position, Sabrina finds unexpected strength in the town bad-boy, Tyler. Over the next 10 years, she doesn't return to her childhood town, not wanting to relive the betrayal that has cast a shadow over all her future relationships. Trust is something that she no longer has in romantic relationships.

When she once again sees Tyler at her 10 year class reunion, she is once again drawn to the mysterious boy from her past. Soon, the two slip into a whirlwind romance. Their love for the other seems all-consuming, and then the other shoe drops.

What an emotional ride! This story ran the full gamut of emotions. I felt elation, devastation, betrayal, crushing sadness, anger and regret. My heart went out to Sabrina. Yet, I couldn't give up on Tyler either.

This book was fantastic! I listened to much of it on my Audible app in the car and the narration was fabulous.

I found *Promise Me* after a friend told me it was the first book to *Playing it Safe*, I actually read them out of order - they are spinoffs not a series, so it's okay. I only bring this up to explain how much I loved *Playing it Safe*, and couldn't wait to read this one. I started out really liking it and felt like it would be a sugary sweet story. However, something occurred that I cannot seem to forgive or forget.

Sabrina and Tyler went to high school together, and by together I mean they attended the same high school. They never really talked until the night Tyler comforted Sabrina after she found her long time boyfriend was cheating on her with her best friend. After that night both went their separate ways, not speaking again until their ten year reunion.

Sabrina hasn't stayed in contact with anyone from school and now lives in Miami with her best friend Julia. Sabrina doesn't want to go to the reunion and confront her past, but decides to attend in hopes of seeing Tyler again.

Tyler is a man-whore and has never been in a relationship. However, he has thought about Julia throughout the years and decides to attend the reunion with the hopes of seeing her.

After meeting up again, having a hot sex filled weekend, they decide to give their relationship a try.

I like this concept and I was still on board, then we factor in the long distance and I was even more interested - I was in a long distance relationship for a while with my husband so I always like to see couples overcome the challenges.

Things really fell apart for me at this point and I can't say why without completely spoiling the book. I am including a spoiler, read at your own risk.

(view spoiler)

There is some insta-love and that was annoying, because I kept thinking you haven't seen each other in ten years and it isn't like you were close in high school. However, I am sucker for a love story, so I moved on. I think this book could have been a 4 star read without the big incident. A lot of people will love this book, it just wasn't for me.

Sabrina makes her entrance at her reunion and **WOW** this scene was not to be skipped. Drinks fly, chemistry ignites and someone may or may not have been looking for her with the same hopes as she has.

Barbie Bohrman did one hell of a job with her debut novel it was well paced, funny, sexy sexy, relatable and well written.

3.5 STARS out of 5

Genre: Contemporary Romance

*It's him. If you had told me it was him and I hadn't seen it with my own eyes I would have called you a liar. Somewhere in the back of my mind, where I can barely process what is going on around me, I tell myself that I shouldn't be here watching this. I should walk away, or better yet, run as fast as I can, to nowhere in particular. But I don't. I stand there frozen in the shadows watching him through the window. Him. He's my first love and my life...*

High school senior Sabrina Chandler sneaks out of her house where she was confined by punishment to go to a party and be with her boyfriend, Chris. When she arrives at the party she gets an emotional punch to the gut as she watches Chris betray her right before her eyes. On that night everything changes. On that night she finds a savior in the last person she would expect to be her rescuer. Tyler Anderson, the guy every girl wants; the very well known tatted up bad boy in the small town of Skippack, Pennsylvania.

*‘Yes, he was that gorgeous. The quintessential, tall, dark and handsome type who would probably break your heart in a million pieces while making sure you had the time of your life in the process. He was also my savior that horrible night years ago. He helped me when I needed it most and for that I'm forever grateful.’*

Tyler gives Sabrina advice that night. And she follows it to the T.

### **The Invitation**

Fast forward ten years later. Sabrina now resides in Miami, Florida. She is living with her best friend Juila

whom she met and roomed with in college. Sabrina has received an invite to her 10 year high school reunion but she refuses to go. It takes a whole lot of coaxing from Julia; whose main argument focused on the fact that she will get to see Tyler again before she finally agrees to go.

Once back in Skippack Sabrina must face her past. Chris.

*'I stare at him for a second because honestly, I'm so over him and his apology that is ten years too late that I want to make sure I get the next thing I say completely right so he can just leave.'*

Everything comes to a head when Chris confronts Sabrina which in turn leads to his wife confronting Sabrina taking the drama to an ALL TIME HIGH.

Honestly all the bullsh\*t with her ex is worth it once she gets to the reunion and sees him. Tyler Anderson. Sexier than ever and looking right at her.

*"Don't be nervous."* He pauses then adds, *"I won't bite, I promise."*

Sabrina goes back to Tyler's hotel room so they can...talk. Tyler makes it clear that he wants Sabrina and that he is in it for the long haul. He is very up front about why he held himself back from pursuing her in high school after that night. He then makes it very clear that he wants Sabrina and that he is in it for the long haul.

The next day Sabrina goes to her parents home where she is staying to pack a bag so that she can prolong her time with Tyler. She drives to his home in Philadelphia, where he owns and runs his own restaurant. Sparks fly as the two connect getting to know each other on a very personal, very sexy, instinctive level. \*wiggles eyebrows\*

A long distance relationship is not ideal but they make it work. And then a few days before Tyler's first visit to Miami he f\*cks up. BIG TIME.

How does a girl recover from heartache a second time around? Ice cream, a good luck blanket and a best friend with your best interest at heart. That's how.

### My thoughts

Barbie did a good job in her debut novel she brought the steam, the laughs, the romance, the drama and the heartache. She also has a little bit of a love triangle going but really once Tyler is on the scene he eradicates any other male suitors. This book is a solid 3.5 for me I enjoyed her writing and more importantly I enjoyed her characters. I am very interested to know if Julia will be getting her own book possibly with Alex???

\*fingers crossed\* Julia's character really stuck out to me and I think at times she overshadowed the heroine Sabrina. Were as Sabrina is laid back, Julia is more in your face and I very much liked that about her.

I look forward to future books from this author!

***"Promise me that tomorrow you'll dump his sorry ass, cut that bitch out of your life, and try to hold on as best you can until you're out of this shit hole town in a couple of months."***

Yes, Tyler! I promise! Anything for you!

The book starts out with high school senior Sabrina catching her boyfriend of three years making out with her best friend. Before she can flee the scene, town bad boy and all around hottie Tyler gives her the sage advice from above and makes sure she gets home safely. Luckily Sabrina follows Tyler's advice and a few months later, starts a new life for herself. Fast forward ten years and its high school reunion time! Does she go and confront the two people who did her wrong? Does she go and try to find out what might've been with Tyler? Sabrina's bff Julia, one of my favorite characters EVER, thinks she should confront her past and move on.

***"Listen, it really sucks to have a guy cheat on you, trust me, I know, we've all been there. It's like some messed up rite of passage into the Ya-Ya Sisterhood of the Traveling Pants. I get it. He's a piece of shit and deserves to have his dick shrivel up and fall off. But, there's a whole other level of bottom feeders, and that's where your girl Lisa is for what she did to you. There's definitely a special place in hell for chicks like her."***

Well said, girlfriend! Julia is quite possibly the coolest best friend ever written along with being a truly awesome friend to Sabrina.

***"Look at yourself for crying out loud, with those curves, that hair, and your green eyes. I've said it before and I'll say it again, your mom must've fucked a gypsy to get you."***

She finally talks Sabrina into going so she doesn't have to wonder about Tyler and his extreme hotness the rest of her life. And if she gets to say a few choice things to her ex- boyfriend and best friend, well that's an added bonus! I loved the drama of the reunion and the confrontations galore! Who hasn't wanted to give someone who's done them wrong a verbal beat down? Then there's Tyler. Hot piece of man candy Tyler.

***yes, he was that gorgeous. The quintessential tall, dark and handsome type who would probably break your heart in a million pieces while making sure you had the time of your life in the process.***

It seems Tyler's always wondered "what if?" about Sabrina and the two decide, after a weekend of lovin', to

give a long distance relationship a go.

I really enjoyed this book! The writing was entertaining and fun and I was surprised to find out this is a debut novel. This could've easily been a 5 star for me if it weren't for the last 30% of the book. Tyler resorts to some extremely douche-like behavior and it seemed completely out of character, almost like drama for the sake of making the story angsty. I don't mind that when it seems like something the character would actually do given their personality but that wasn't the case here. The way Sabrina handled the situation seemed completely realistic, though I'm not sure if I would've made the same choice in the end.

I had a fabulous time reading this and I'd like to make a personal plea to the author—PLEASE GIVE JULIA HER OWN BOOK!

### **5 "High School Reunion and Second Chance" Stars!**

This is my second book by Barbie Bohrman and I think it's safe to say that she's fast becoming one of my top fave authors.

**Full review to come** as soon as I get my thoughts together....

Loved Tyler. The long lost bad boy who came to Sabrina's rescue on the worst night of her life.

Loved Sabrina. A true romantic who runs away from relationships and finally decides to risk it all.

Loved Sabrina's mum. Best verbal-bitch-slap scene ever!

And most of all... I loved Julia!!

*"I swear I will get on a plane so fast and personally plant my foot so far up your ass that you'll taste leather in your fucking throat for a week."*

.... Can't wait to start her book next!

There are some elements/themes that might not appeal to everyone, the story does include some cheating, which might put some readers off entirely, but if you like second chance at love stories, if you like mysterious men with tattoos who come to your rescue, and you want a totally charming tale of true love, you should definitely give this one a go.

### **4 solid stars!**

I totally cheated. I was reading another book when I got bored and started trolling the forum threads over at Amazon and found this as a rec. I started reading it without any high expectations and by golly, it was better

than I actually expected. This book totally cured me of my book slump.

Now, there's nothing revolutionary in the story line but I didn't mind because I found the characters to be really likable. I especially love Julie, "the best friend" who was an awesome ally, confidant for the main character Sabrina. I loved their banter. Plus, it doesn't hurt that there are two man candies, Tyler and Alex, in this book, so I didn't mind that either.

The plot is sort of predictable but still it is well done. I should probably warn you that there is (view spoiler) in this book. If you can't tolerate these types of books, it's better to stay away. I really enjoyed it.

It just proves that sometimes, you really don't need some deep, complicated, thought-provoking literary masterpiece to get one out of a book slump. A very simple book with enjoyable characters can do the trick!

Hurray!

#### ***4.5 FANTASTIC STARS***

I loved Promise Me by Barbie Bohrman. It was fun, sweet, sexy, a little heartbreaking but also refreshing. It's a second chance love story that brought me some major tummy flutters. I think there might be a new book boyfriend for me in this book. Tyler was **OH MY**, hot and swoony. He has a touch of alpha and a sprinkle of delicious bad boy in him that definitely brought some sexy moments. He's really what made this story fantastic for me. Barbie's writing is really good. Almost immediately her prologue grips you and breaks your heart. But while it's breaking your heart, it's also opening your eyes to this sexy, sweet bad boy that saves the day. She has such a good way at describing things and making you feel every emotion that's going on. It was addicting and I could not read this book fast enough. I have to say for a debut novel I was blown away by her writing, character development and the way her plot moved forward. I can't wait to read more from her in the future.

After catching her best friend and the love of her life (or so she thought) in a **BAD** position Sabrina is heartbroken. Tyler the ultimate high school bad boy swooped in that awful night and made Sabrina make a promise. A promise that has always stuck with her.

Ten years later she's living in Miami, working as a Gallery assistant and is hopelessly single. She can't seem to hold a steady relationship because of the trust issues she has from her high school days. In the last ten years she can't get Tyler out of her mind. He's always there and is this fantasy that she can't get past. When an invitation to her 10 year high school reunion arrives Sabrina has to figure out if she wants to go home to

the place she's been steadily avoiding for the past 10 yrs and confront her sack of crap ex, her sluttily ex best friend and most importantly see if Tylers there and what happened to him. Sabrina still carries a crush for the boy that saved her on one of the worst night's of her life. After lots of thinking and a lot of convincing by her best friend Julia (who might I add is freaking awesome), Sabrina decides that going home and seeing if maybe Tylers there is something she just can't pass up.

When Sabrina gets home she has to confront her past, She has to put all of that stuff behind her and learn to let go and forgive. It's hard and messy but she does it with a whole lot of fun and heartbreak along the way. Does Tyler show up? Do they get their second chance at love? Is Tyler really the man she had dreamed up in her fantasies? Or just a figment of her imagination? Sabrina finds out pretty quickly and a sweet love stories is written that I fell in love with.

Overall I have to say that I just love a second chance love story and this one is **NOT** perfect. Tyler swoops in and you really do fall head over heels in love with him but he's a human being that makes mistakes along the way and those mistakes weren't little. They cause some damage and heart break. This stories itself is very realistic and I think that Tyler was sexy, sweet and totally lovable. He gave me those illusive book tingles.

Sabrina is a strong girl. She's definitely not someone that you can trample over. She's an achiever and works hard. Her Bff Julia is **HILARIOUS** and the two of them together are **AMAZING**. They have that friendship that leaves you smiling.

This really was a great debut by a new fabulous new author. I would **HIGHLY** recommend this book and can't wait to see what else this author has for us. Definitely a **MUST> read. My rating is 4.5 Fabulous** stars.
