Funny, I just read the description of this book that GoodReads uses. It is nothing like that at all. I don't know what book they are talking about, but it sure isn't the story of Rolf and his dog Skookum-chuck.

An excellent and wonderfully told story with how-to instructions for a variety of outdoor skills, such as building a teepee to a bow-drill fire starter. I was surprised to see find this book on goodreads. I was even more surprised to find an edition published recently. The copy that I own is a family heirloom that has been passed on to my from my father, who received it from his father. If you love wild things, wild places, and immersing yourself in them, do yourself a favor and read this story.

This was part of a collection of "animal stories" but it ended up being a story of a boy raised by an American Indian who becomes a trapper and then a scout during the War of 1812. It was really interesting and now I want to learn more about the War of 1812.
