Sex and the City 2: The Stories. the Fashion. the Adventure. Eric Cyphers , Sarah Jessica Parker (Introduction) , Michael Patrick King (Introduction)

Your bookshelf is about to get a whole lot sexier. As the highly anticipated *Sex and the City 2* hits theaters, Running Press presents the official companion book, available both in paperback and as a deluxe hardcover edition. With style emulated by millions of women, Carrie Bradshaw has become the fashion icon of our day. Nearly half of this book is devoted to showcasing and detailing the wardrobe and accessories worn by the women in the movie. As a complete guide to *Sex and the City 2*, the book is also filled with exclusive plot details, interviews with cast and crew, and never-before-told stories about the making of the film. The fashions, the friendship, and the fun are all gorgeously illustrated by more than 500 downright fabulous photos of Carrie, Samantha, Miranda, Charlotte, and the rest of the stellar cast.

Fans just can't get enough of *Sex and the City*. This book will be a must-have for the millions who made the show the highest-rated on cable TV; who bought 400 million worth of tickets to the first movie; and who made the book that tied in with that film a *New York Times* bestseller!

Chrissie says

The first thing I have to say about this book is that it is absolutely gorgeous!!! It has got a lovely padded cover and has pages and pages of beautiful pictures of the locations in which the film is set. Although this is not normally the type of book that I would go out to buy, I was so pleased when it came through my letterbox because a book this gorgeous would be a welcome addition to any woman's bookshelf.

Once I stopped drooling over the cover and actually opened the book I wasn't disappointed with the contents either. Being a huge Sex and the City fan it was incredibly interesting hearing about how the film was made and reading interviews with the cast members. But my favourite section of the book would have to be the fashion section. This is a huge section of the book dedicated to showing off all of the outfits worn by the girls during the film. As can be expected from Sex and the City, the outfits are stunning and the pictures made me incredibly jealous (although it does say which designer produced each part of each outfit, so you could recreate the looks for yourself if you have a lot of spare cash laying around!).

I would definitely recommend this book to any Sex and the City fans out there – it is a fun and beautiful book that gives a great insight into the making of what I hope will be a brilliant film.

Danielle says

Movie 2 collectors book

Kylie Martin says

good companion, would have been nice to have a review of the story line included in the book

Brenda Haddon says

Loved it!

Beth says

I think this book was better than the movie. Loved the pictures of Carrie's new apartment and of course the fashion!

Elizabeth says

I looked at this for outfit inspiration too. This one is better, because it describes the outfits in much more detail, devoting an entire two page spread to at least half of SJP's outfits and one page to all the rest, but the outfits are not as good as in the first movie or the series, so there's that. The way the outfits are put together in the first movie is more attainable. This one contained more Middle Eastern inspired clothes, which is not really practical for my city life.

PurpyCookie says

With style emulated by millions of women, Carrie Bradshaw has become the fashion icon of our day. Nearly half of this book is devoted to showcasing and detailing the wardrobe and accessories worn by the women in the movie. Full of beautiful color photography, this book does not disappoint visually.

As a complete guide to "**Sex and the City 2**", the book is also filled with exclusive plot details, interviews with cast and crew, and never-before-told stories about the making of the film.

The emphasis on this book is the fashion; for Sarah Jessica Parker, her character Carrie's outfits are detailed page after page, giving information on the outfits, jewelry, and shoes. The other three stars do not get the same amount of space, which is a shame, because the entire franchise of "**Sex and the City**" is about the ensemble.

Plenty of other interesting anecdotes though: how Morocco filled in for Dubai, how the set was created for Stanford's wedding, Liza Minnelli's surprise gift to the cast, and how a Times Square restaurant was transformed into Samantha's office. The beginning of the book gives a brief recap of where the characters were at the end of the last movie, which serves as a nice bridge.

The pictures are amazing but I wanted more back stories like the companion book to the TV series. I felt like maybe this was thrown together too quickly just to cash in. But then I loved the movie and this book is a fashionista's dream--a wonderful reference guide to all of its couture fashion--and full of interesting and entertaining behind-the-scenes stories. For anyone who is a fan of the show and its movies, this is a wonderful keepsake.

I always love looking through these SATC books to see all the amazing fashion choices that I will never be able to pull off ever. Loved some of the clothes in this one and the amazing details of Carrie and Big's new apartment. Guess I need to sit down and finally watch this movie now. Perhaps tonight since I own it.

Kristen says

Not a novel, just a beautiful collection of clothes, bags, jewelry and shoes!

Carol She's So Novel?? says

Product Placement following request for SJP from GR. Sigh. I remember when this site was about reading & the love of books...

Jovy says

I've always loved Carrie's style since the first episode. This gives you their stories, fashion style and their adventure.

Carrie, Samantha, Charlotte and Miranda became style icons the first few seconds of their very first episode eons (lol) ago. I love all the Halston dresses - the short peach Venus dress with the moon and star necklace, the long orange spaghetti strap electric pleated dress, and the long light peach or light pink halter top cotton dress.

I do think its ridiculous wearing Manolo's or Louboutin's while they were in the desert though...

Sarah says

Fast on the heels of the wildly popular companion to Sex and the City: The movie comes this equally sexy and stylish companion to the sequel.

Sex and the City 2 picks up two years after the first motion movie left off, when our four favorite friends are embarking on the trip of a lifetime to the exotic world of Middle East. The book gives readers an all-access tour of the movie-making process, with behind-the-scenes stories from producer and star Sarah Jessica Parker and writer and director Michael Patrick King, as well as Kim Cattrall, Kristin Davis and Cynthia Nixon and the movie's other key cast members and special guest stars; a look at the challenges of filming in both New York and Morocco; and the work that went into choosing the locations and building the sets.

The Book's comprehensive fashion section includes a scene-by-scene look at every outfit that Carrie wears in the film, from dresses to shoes to bags, along with commentary by Sarah Jessica Parker herself.

Full of exclusive stories and lush photos not available anywhere else, this behind-the-scenes, luxurious volume is a must-have for anyone who simply can't get enough of *Sex and the City*.

Redfox5 says

I feel like 100% more effort went into this Movie book, unlike the last one, this book includes interviews and a much more in depth look at the locations and the fashion.

And yes I actually loved this film, I know it gets lots of hate and I'm not sure why! Perfect for *Sex and the City* fans!

Aimee Ash says

Love this book!

Donna says

I love anything that has to do with SATC. The shoes, the fashion, the friendships, and the decor. I'll read it again and again and again.
