## **The Ever Knight** Georgia Fox

A Saxon Thane's daughter, born with mystical healing strength, must choose between two lusty Norman knights, half-brothers, each intent on claiming her for their own. One man has claimed her dowry; the other has claimed her virginity. One man is dying of a battle wound and the other has scars that can't be seen by the naked eye. Both brothers need her healing touch. Both brothers need her.

And she needs them.

Jisella always knew that one day her Ever Knight would arrive—the soul she's loved since time began. Yet he's taken a long time to find her in this life and now she's not sure which of these handsome Knights is the one for whom she's waited.

The brothers are all too happy to compete for their lady's favors. Perhaps there is only one fair decision. Perhaps she can have both, if they might be persuaded to share.

## **Not Now...Mommy's Reading says**

Georgia Fox can write erotica. Her *The Ever Knight* is no exception. My first read by Fox was *The Wagered Wench* which I absolutely LOVED!!! It was also my first novel involving a ménage (MFM). I'm not even sure I have the abbreviations right because I didn't know novels like this existed! My best friend had mentioned ménages in the books she was reading, but these seemed to be geared towards the paranormal romances and usually involved were's and packs and other animals. But a medieval novel featuring a headstrong heroine and two of the most drool-worthy men you could ever have the pleasure of reading about?! Say it isn't so! But it is, and I'm now a fan of Georgia Fox for turning me on (pun intended) to this genre!

While the ménage in *The Wagered Wench* featured a man who had won the heroine in a bet and another man who she had been previously promised to and involved both men constantly battling one another for her attentions until finally allowing her the choice of either, the ménage in *The Ever Knight* featured two brothers who were willing to share the heroine. And, for this reason, I found it to be lacking. I don't know...But I like my alpha males to be the jealous over-protective sort who might forgive a tryst with another man as long as he was included in the activities, but he would never willingly share her with another man on a regular basis. Nope. Not my guys. They would sooner abandon the situation and confine themselves to a life of lonely solitude, yearning after the heroine or annihilate the competition, before they would knowingly and willingly share her with another man. However, I would definitely recommend this short read, *The Ever Knight*, to anyone looking for a hot well-written read as well as the rest of Fox's *Conquerors* series. Locked away in a convent for most of her life, Jisella knows her futures lies in whatever marriage her father arranges for her. But she hungers for passion, for lust, and most importantly for her Ever Knight, her soul mate.

Born on All Hallow's Eve, her "kind" are called Children of the Full Moon. Magical healing powers are theirs to use, regenerated once a year on that special day. They mate for eternity, finding the one soul mate that will stay with them forever, even beyond death. Jisella looks for her Ever Knight, and when a group of Norman soldiers come to the convent, she's sure she has found him.

Sneaking out of the tower they are kept in, she goes to Remy, the Norman she has set her eyes, heart, and body on. But a quick roll in the hay (literally), isn't all that she wants. She wants more--more passion like she just experienced, along with a promise from her Knight that he will take her away from this prison the next day, allowing her to avoid the upcoming marriage that has been arranged for her. Little does either one of them know at the time, but she is the one came for, the one he will be taking away tomorrow--back to his half-brother...Jisella's intended.

When morning comes, Remy wakes to find his wounds completely healed--and the seductress from All

Hallow's Ever gone. As he prepares his men to ride out, with his brother's intended in tow, who should appear but Renard himself. As the two men head over to meet the mysterious bride-to-be, both men are in for a shock--Remy because he recognizes her as the same woman he just deflowered mere hours before, Renard because instead of an ugly betrothed he finds a temptation beyond all else...

### **PepsiGirl says**

I flew through this smoking hot story at break neck speed. This story grabs your attention in the first paragraph with the highly detailed descriptions of hot sweaty soldiers openly bathing in a horse trough. Suffice to say, I got a good visual. Anyway, the writing is quick and funny and Jiselle is quite the little saucy minx. Remy doesn't stand a chance with her pursuit of him. She leaves him and when he awakens he believes he's been visited by a pixie. The plot thickens when Remy's brother Renard comes to retrieve his bride. And Remy admits to his (multiple) dalliances with her. Now Renard ask her to make a choice between the two men. Her response, I can't make a choice I haven't had you yet. Well there you have it, the gauntlet is thrown down, and it is quickly picked up and so does the pace my friend. A little Ménage à trois does go a long way.

### **Kay says**

3 1/2 Stars ~ This fun sexy romp was just long enough to get a good feel for the characters. The opening scene was hilarious and set the tone for the story. Having recognized her "ever knight" in Remi, Jisella is fearless in her desire to "heal" him. I would have liked to get to know Renard better and hope we have the story where Jisella heals him, as well. Hopefully the novellas to come in this series will explore her magic gift of healing more fully. This is a first for me by Georgia Fox, and I found it very entertaining, leaving me with just the right taste to want more.

---

### **jD says**

Not as realistic as book 3. This one had a magical element which was odd since this is the first book of a series with no magic. Regardless, the erotica was on point and the story interesting.

---

### **Stacey Espino says**

Wow! Georgia Fox is a skilled writer that pulled me into her sexy medieval story and held me there. The second book, The Virgin Proxy, was even better than the first.

---

**Tracy's Place says**

3.5 out of 5

---

**Lyn816 (The funk has left the building!) says**

This book is the first installment of this series. As much as I raved and panted after the Virgin Proxy and the Craftsmen (a hawt read by the way), I found myself not as connected with the characters in this book as I did with the others (maybe because of the type of relationship it was, or maybe not enough character development, I can't quite put my finger on it). The series are all stand alone books, I would have skipped this one and went on to the next two, if I knew then what I know now. Having said that, Ms. Fox is still a HAWT storyteller though!

---

**Ivan Redfield says**

Despite that it is a brief story and since I don't read a lot of erotic books either, I read this because I was really bored... The plot it's not bad at all. The writing annoyed me slightly but I endure until finish. I found this little short stories in epubd for free and there are very brief by the way and I think I'll read all of them because as I am sick and I can't go out or hang with my friends since today is Friday. It took me like 40 minutes to read the complete first story so I think I will be able to read of them as quick as I can. At the first pages the story takes off a lot of sex and sex promptly...

---

**Beth says**

Jisella has been sent away to a convent by her Saxon father. He has plans to use Jisella in his political aspirations, by arranging her marriage to a Norman. Jisella wishing to escape the convent attempts to convince a Norman knight, Remy, to take her away with him by offering up her virginity.

Jisella has always believed the her "Ever Knight", her soul mate, would come someday and save her from this imprisonment. She believes this Remy is her "Ever Knight" but she is already promised to another Norman. Jisella finds out the her "Ever Knight" is actually the ½ brother to her betrothed, Renard. Things really get confusing when her betrothed shows up to claim her and he might be her "Ever Knight" as well.

This is a very steamy and hot erotic short story. It is a little choppy. Jisella's actions are somewhat unbelievable, being a convent raised virgin from this historical time period ... I don't feel she would have had a sexual clue. But with that all being said, it was engaging, sexually charged and had a pretty good storyline for a short. 3 1/2 Stars

## **Dahlia (yadkny) says**

*“It’s not how big it is, it’s what they do with it.”*

It all started with a dare on All Hallow’s Eve...

Having been educated by imagination and supposition in the ways of sex, Jisella’s confidence on the subject was called into question. The challenge could simply not go unanswered, but Jisella knew from the moment she saw him that they needed each other. Then his brother came to claim her...

This was so much more than just a dare – this was destiny.

Remy was made for war. His bloodlust on the battlefield proving that a life of peace would be a form of death for him. Fighting give him purpose. Where illegitimacy brought Remy freedom, Renard was dealt the responsibility card of inheritance and a guarded expression. Yet no matter the title or circumstance of birth, a man is still a man and now Jisella has two of them.

The quote above was my favorite from the story and yes it is implying exactly what you think it's implying. Although, for once I found myself not immediately smitten with either of the two leading men. I admired Jisella's boldness with her untried sexual prowess, but the men just came off as arrogant and slightly annoying. Some of the scene flow was a bit choppy, but enjoyably heated nonetheless. The storyline is creative with a bit of unexpected plot suspense, which could have taken the story to the next level had it been longer. Historical romance fans may want to check out this debut author and give this short and erotically sweet story a try.

## **Dianne says**

Definitely a steamy, erotica story! That said, sometimes the language used didn't always seem to fit the times.

---

## **Marissa says**

2.5 stars

Verrrry short. Would have loved a longer, more in-depth story involving these three. The characters had some serious potential.

Kind of cray-cray, unrealistic- re: first time anal sex, to virgin sex, and then multiple partner sex IN THE freakin CONVENT for almost an hour!

That first line instantly caught my attention and the story never let up. What a read! I'd love to be in that window staring down at gorgeous muscled men with our main character Jisella. Ms. Fox's descriptions were very well written, it paints a lovely and at times sexy picture. She has several quips in there that made me laugh and ones that made me smile at Ms. Fox's creativity. I absolutely love that first scene. It had me smirking. I did that a lot reading this novella.

So Jisella can also heal and she believes the well hung man, Remy, is her true love. Of course, as the twist goes she's promised to another man – Remy's brother. Yes, the plot thickens like Remy's cock. The sex scenes are super intense (As you can tell by the wording in this review) and perfectly written. Ms. Fox has the ideal balance of explicit action and thoughts.

I am so impressed with Ms. Fox. This is a novella you'd expect from a pro author that had a constant spot on the New York Times Bestseller list. By the way, this is her first publication. I absolutely fell in love with these characters, the story and I can't wait to read a full length novel from such a talented author!

Now I need a cold shower, holy hell, maybe an ice bath! Those two brothers...damn!

### **Funzee Shu says**

Hmm, kependekan ceritanya.....

pdhal masih bs di kembangkan lagi loh benernya....

sayang aja....

ga bs di bikin sinopsnya, cz itu sama aja kek nertiatin jalan ceritanya yg cuma seucrit itu, hehehehe.....

so, brp bintang ???

Hmm....2.5 deh....
