## Valor Sever Bronny

Apprentice warlocks Augum, Bridget and Leera have reunited with their legendary mentor, Anna Atticus Stone. But her epic battle with the diabolical Lord of the Legion has taken a toll, and now she suffers from a deadly arcane fever. To revive her, Augum will have to earn the respect of a warrior people ... by facing his childhood tormentors.

Meanwhile, Augum and Leera's feelings for each other are complicated by the upcoming Star Feast, a magical midnight dance to mark Endyear. Their revelry will have to be short-lived, however, for a perilous quest beckons—the trio must infiltrate an ancient castle that will pit them against enemies old and new, while testing every ounce of their skill and courage.

VALOR is the third novel in the fantasy coming of age series THE ARINTHIAN LINE.

## From Reader Review Valor for online ebook

### Michael Hollingworth says

#### Shockingly Convincing

I am in awe at how well the books in the Arithian Line have convinced me of how small and seemingly insignificant Augum, Leera, and Bridget are. There is always this constant sense that they are pushing themselves right along the edge of their abilities just to survive, and yet they do.

This book also presents crisis very well, but it is paced smoothly with the essential moments of rest between. A splendid mix of adventure and fantasy, Valor is a story I cannot more highly recommend.

---

### Bif Loucks says

75% of the way through the 3rd book in the series and I'm starting to become bored and frustrated. The heroes can't even take 3 steps without getting in some kind of serious trouble. They've won battles. Augumn has beaten his own father once for crying out loud! Used powerful arcanery numerous times, yet when confronted by weak opponents(somehow the same nemesis seems to find them wherever they go), they act as if they are the weakest Warlocks that ever lived.

They are rude to everyone. They meet a creature they've never seen before. Do you think they ask him pertinent questions, or try to make an ally of him? No, they're just rude little teenagers. For no reason at all really. They miss opportunity after opportunity to make allies.

Become very frustrating to the point I'm not sure I'll read the final two installments. Even though I'd like to see how it all ends....might just skip to that part

---

### Dr. Mark Vignjevic Phd says

#### Very good book

Well written great concept. Adventure story chase... magic teen love the standard trifecta for successful books. Well thought out the struggle of each character is to their own.

---

### Connie Steinberg says

#### Exceptional story of the struggles of three young people

This story draws you into the lives of these three younglings and the people they encounter on their quests to save their world from the Lord of Death

---

**Nancy Pittman says**

**Great Adventure**

I enjoyed the movement of the story, our heroines experiencing success in some situations and facing unsolvable challenges for a time before working out alternatives in other situations.

---

**Richard says**

**Really great epic series**

Youth oriented but love the story even though my youth has long since past. Plan on finishing this series and starting the new one. Adding Mr Brony to my author read list.

---

**Caprice Hollins says**

**Living the series from beginning to end**

Great series. If your an avid reader of fantasy you know how hard it is to come across the next good find. You won't be disappointed in this one.

---

**Ian says**

**Frustrated**

Really frustrated that they do so much impressive and cool things for half the book and the other half they're just completely controlled and reliant on others. If Robin captures them one more time or if Bridget says to let it go without doing something when they're being bullied again I'm actually going to lose my mind. I've read like 2000 pages of this series can the main characters please stop being helpless and resigned to their fate half the time.

---

**Cheryl says**

**Awesome!**

This was a wonderful read. I loved the adventures the trio have taken so far allowing their friendship to blossom. Can't wait to see what comes of Augum, Leera and Bridget as they face their biggest foe.

## **Steven Brown says**

### **Sever Bronny's continues to show improvement in this exciting addition to the series.**

Once again the story picks up only a couple days after the end of the previous book. Wherer I thought at some point in the first book in the series might contain time jumps it has thus far not been true. it is told in a third-person limited point of view of male protagonist who is going to turn 15 likely in the next book. The writing has become tighter and the story continues to pull the reader along.

It is interesting to see what the author does in order to make things difficult for our young protagonist and his friends. Finding ways to separate them from help and force them to grow and face exciting challenges. There is the patternow that at some point after they get caught a few spells they will be forced to face the challenges by themselves. This can become hokey depending upon how the author does it. The story is interesting but how he achieves it this time borderlines on a bit obvious.

There's two elements where parts of the story feels as if it was written for an older audience say 17 or 18 and above while other parts such as the burgeoning romances seem almost more appropriate for children's books. However it's appears that the latter is catching up slightly. Still there is the aspect where these people are facing life and death in horrible ways but they still blush at holding hands or a simple kiss on the cheek.. It does give the series a bit of a uniquely awkward feel but the story itself fascinating and well paced enough where you do not worry too much about the little things.

There were some new antagonist to challenge our heroes as well as some from the past. I enjoyed some of the interesting twist the author put in them and to these new antagonist and those from the past. However there is still an antagonist problem in that the main antagonist still seem to be only one note personalities that make them annoying and a bit boring. You can only have the rude/sadistic and deadly bully hang around so long until you get to the point where you are thinking "him again?" These type of characters tend to get silly after a while.

There's no swordplay, which appear to be a part of the story in the first book but there's plenty of magic and a bit more action to be found in this book. The writting improves the point where it's boarding on 4.5 to 5 star rating. There's some story choices that keep the books around a 4 as well as perhaps situations where the rules surrounding the magic system seem to have been forgotten or at least haven't been mentioned since book 1. Mainly I'm thinking of the rule that says the more you use a certain spell the better you become at it and the less it cost to cast it. I mention this because there are few times in which spells with negative effects seem to have the same length of those negative effects where one would think those effects should be less apparent.

Excited to read the next book of the series and a see how much more the author can improve as he goes along. This book is still around a PG-13 except for some of the violence does get graphic

---

**Kathy says****Unusual story**

This series just keeps me asking what next? The author has a vivid imagination. This will hold your interest. I can't begin to see where it is going. Just have to keep reading to find out what happens.

---

**LAURY C NELSON says****Better with each book**

Each book in the series has been better than the last. I am looking forward to reading the next one!

---

**Zach says**

Ah this book made many of my days.

---

**Daryl Williams says****Great Read**

The characters are well developed and the books holds your attention. I was trying to anticipate what was going to happen next. I am enjoying this series.

---

**Adam Davis says****Ever better**

Every book in this series gets better, more engaging, and harder to put down. I highly recommend it to anyone.
