### **Praise for the 2nd Cycle of the Harbinger Mysteries...**

"From the first sentence in the latest Harbinger series, "Killjoy" I was hooked. The very pregnant Nicole Usher Harbinger learns her husband Kent has been killed and sets forth on a journey to find his killer. With the help of her old partner Reuben she struggles to cope with her feelings of loss while caring for her newborn son and follows the confusing clues to why Kent was murdered. Nicole attempts to use the skills Kent has taught her to sift through evidence as the body count mounts."

"I just can't write enough about these characters! The continuation of the series did not disappoint one iota! Gripping, exhilarating, adrenaline rush that had me up to 6A reading because I just could not put it down without knowing what was going to happen next!!"

"After you've read the first Harbinger Series you've just got to continue the roller coaster ride with the 2nd Cycle. Got to say it gets brutal, but Harbinger doesn't let the villain get away with the crimes. Love the characters' development and interaction."

#### **UPDATE**

This book has pretty much the same premise as the first. Kent Harbinger, an ex-special agent with the FBI, has a penchant for thinking like, then catching serial killers. Once he became an ex-special agent, he attached himself to a police detective squad, and continues hunting serial killers. What happens after that? Hum. Well, something interesting, you know.

Ruben, who has been in love with Nicole since, as he admits, the minute he laid eyes on her, is getting over her. He met a meter maid in the 1st Cycle, and is now engage to her. Only, he has a serious problem with her. Serious.

After reading the next few books in the cycle, this does NOT end on a cliffhanger. It is finished, and very satisfactorily. Kent, Nicole, Ruben, and the JJs are extremely good as a team. Although Ruben has threatened to move elsewhere because he cannot stand to see Nicole married to Kent, Harbinger talks him out of it. Yes, you read that correctly. Wonders.

The first of the next two stories, originally left out (but promised as an update which didn't work until the author contacted Amazon), were the best of the bunch. Debbie Downer has an ending you may not see coming. Until it comes and you slap your head because, well, of course. To say anything else will be a spoiler.

The next big story, Cry Baby, literally had me holding my breath. Now, Ms. McCray does that to me a lot, but this particular story really freaked me out. I could not put it down, not to kiss my daughter goodbye as she left for work, not to tell my husband I didn't WANT breakfast (which I got and forgot to eat), not for anything. Even when my major Kindle's battery died, I picked up another one, fully charged, and continued. I must say this is the best of her police procedurals (although I haven't finished the Darc cycles yet, who knows?), and for that reason, GET THIS SERIES!

Greedy reader/fan that I am, I would love to see more of the JJs, but I'm sure Ms. McCray/Mr. Hopkin are really ready for more. Caveat: although the cover on the book currently shown on Amazon has SoHo Slasher on it, which is the prequel to International Hunters, it is not contained in the updated version of the book I just read. I was told, eventually, but not just yet.

PLEASE do not skip the shorts between the stories or the last little short at the end. These really, truly are

important to the cycle! I will say, as I said in my original review (which is deleted, by the way, LOL, and replaced by this one) the delectable shorts that are prequels to her other books (in this case, including the Mayflower series, which is also no longer available) are worth reading. Since this is the second time I've read this particular cycle, I've read those shorts and have ended up getting the full series. Do so. It's worth it!

#### **Enjoyable**

Love the series. Hope to read more. Can't wait for the 3rd cycle. Kent and Nicole are very enjoyable. I can't wait to see how Kent get out of this.

#### **Proofing and style**

I read these while I run because they are SUPER easy reads. I continue to read these for this reason, only. I give a rather low rating because the errors are staggering and the name dropping is difficult to enjoy/ignore. If you are going to use pop culture references, don't beat it to death (2 paragraphs have 3 such references) and PLEASE research the names (it's PRatt not PLatt).

LOVED each one of these stories. Some were short bridge stories, others were longer books. They are all wonderful. I loved watching Kent grow and learn to love someone and the relationship between Ruben and Kent just cracks me up.

Book was pretty good, the plot is very very similar to the original 1st cycle. Overall really enjoyed the 2nd Cycle. My only complaint is that the last portion of the book is actually an intro to a different series that the author writes. Intros, in my opinion, shouldn't consume so much of the page count.

#### **Fast paced thriller! MUST READ SERIES!!**

I absolutely loved these books! They are faced paced and the storylines are awesome. SPOILER ALERT:

While some thrillers can tend to PG-13 some murders or not kill anyone directly involved in the story, this series keeps twisting and turning and punching you in the gut and the heartstrings with where the storyline takes you. Really enjoyed this series!

This was another great read from the very entertaining Harbinger series. I love the cast of characters and all their quirks. Once I start one of these stories I simply can't stop until I find out whodunnit! The only reason it doesn't get a perfect score is, again, the abundance of typos in the stories.
