An epidemic is overloading Baltimore hospitals, and this time the vampires are finding themselves susceptible. Those infected are unable to control their hunger, crazed and insatiable no matter how much blood they consume. The timing couldn't be worse, with a rival Balaj in town for a feast – a rival that would be happy to take advantage of the situation and wrestle control of the Baltimore territory from Dario and his family.

As the Baltimore's Templar, Aria must find out who – or what – is responsible and stop them, before the entire city is at death's door, all while prepping for the Halloween ritual to rid herself of a demon's mark on both her skin and her soul.

Solid. Nice plot twists, good overarching storyline. 3 1/2, but upgraded to 4 for a satisfying ending while still leaving enough for the next book.

#### **Worth it all for the ending.**

I don't like to provide spoilers so I won't say much about the battles for life and limbs when a plague demon manages to infect vampire and human. Or what happens when Aria and Dario finally realize life is better with some adult time. But I will say this - get through the battles and the demons for the last page. Debra Dunbar writes brilliant comedy and this serious has so many dark points (except for grandma) it is hard to remember that. Just know this - the end makes the whole book. And leaves you itching for more as quick as it can be written.

#### **One with everything bar werewolves**

After book three, which dropped one star for me, Aria's mojo is back as she takes on vampires, demons, and a Mage. Her romance with Dario becomes x-rated, which I wasn't expecting, and could have done with less of the fine detail (I don't like feeling like a voyeur). I do enjoy the added depth given by Aria's wrestling with moral conundrums and the real character growth as she matures in her role as Baltimore's Templar. And I love grandma Essie. She's my role model

#### **So good, I need another!**

I read this author's other 10 book series with demons and Angel's first. This one is at least as enjoyable with unique, gritty characters. The story isn't over, there are loose ends to tie up too. This series has increasingly more plot and action. I loved it and couldn't put it down! I don't know why it's not at least as popular as the other one except that Angel's are so popular. I hope she changes her mind and adds another one. Please!?

Dunbar's Imp series is one of my favorites so I had a lot of hope for this but it was only average.

3.5 Stars

### **Still wonderful**

I know that it seems really weird to be reading a book about a Teplar and vampires. However this author is excellent at making people that are real, believable and funny. It's worth your time to read.

### **Drama**

There was a lot of excitement in this book. There were also a lot of changes. War came and left the city in tatters. But Aria is always there to stand up against evil to protect Baltimore. This is a must read for the series. Too much happens in this book, and if you skip it, you will be lost. Also, all books must be read in order, since the characters and plot overlap one another. Another hit by the author. I really like both this series and the Imp series. I recommend that you try out the imp series, while waiting for book 5. You will not be disappointed.

### **Love this series**

I want more. I want more of Dario's back story, I want Essie's story too. The characters are so alive that I got to the end of the book and really felt sad that I had to say goodbye until the next book.

Best book in the series by far.

### **Aria 's adventures continue**

Halloween is fast approaching and Aria has a to do list as long as her arm. Despite the many tasks she has to accomplish, the real focus of this book is the developing relationship between Aria and Dario. One of the things I like about this series, beyond the fact that the romantic tension doesn't overtake the plot, is that Aria and Dario don't give up in the face of nearly overwhelming odds. Nor are they blasè or naive about their long term prospects. They realize that any relationship they have will take work and compromise and neither one runs away even when they feel daunted. Also, we get to see part of the story from Dario's perspective which in my opinion gives the story more depth. As usual, the character development and world building are top notch. I can't wait for the next book!

#### **This series started out iffy for me**

But it has moved into high gear and I'm addicted to it! Can't wait for the next one! Highly recommended!

#### **Crying and laughing at the same time**

The ending had me doing that. I am an animal lover with 5 cats, I love my babies. This one was a wild ride. Not knowing what to expect at every turn. Just read it to find out what I am talking about.

#### **Quite a Ride!**

You just cannot go wrong with Debra Dunbar! She is a powerhouse of creativity and literary skill. This one may be my favorite yet in the Templar series. Aria is definitely one Templar with a sword in one hand and serious whoop-ass in the other! Great book!

As Always, I Wish Happy Reads to All from the Unapologetic Book Junkie ?!

### **Melinda says**

I have been very much enjoying this series. And I think this book, might be my favourite so far? Well, maybe not, but right up there.

I loved the interplay between our heroine and her vampire. I loved the action and the drama in this book - the inclusion of another vampire clan, the demon mark, the rituals, the house move. I do think that this heroine is a little annoying (or maybe a little dumb) in some of her choices (about men, activities, future pursuits and going after bad things that go bump in the night all by herself!), but that said, I do enjoy how this author

writes her characters - the sass, the irreverence, the snarkiness, the humour. And i think this book showcased the writers talents very well.
