With sales of over 6 million books worldwide, the Animal Ark franchise is a hit with young readers.

It's exciting enough that Lisa and Paul Cooke, two American stunt riders, have moved their team of mustangs to Yorkshire, England, and asked that Mandy and James help out at their ranch. When Mandy's favorite band, the Cowboys, show up there to film a rock video, the two friends know they're about to have the spring break of their lives! But the day before the shoot, Cougar, the lead mustang, develops a life-threatening illness - worrying his owners and infuriating the video producer. Will Mandy be able to help the sick horse back to health, despite the odds against him?

### **Rina says**

This is a good book for anyone who loves animals, especially horse lovers. It's not that long, so it's best for children who are reading chapter books.

### **Twyla says**

My favourite part was when Cougar was healthy again and the music video was still able to be made. Cougar was a mustang. She was supposed to lead the horses in their music video, until she got sick. The worst part was when Cougar got sick. She had grass sickness and no one even noticed until she decided not to eat. My favourite character was Mandy because she helped get Cougar to eat again so she could get her strength back. The worst character would be the first music video producer because he quit just because Cougar was sick. Auryn 11 years old.

This was a very good story. I loved the whole theme behind this story. I also loved the way that the author brought some "real" cowboys from Texas. This story was well done and kept us intrigued from the start to the finish.
