## **Only She Sees** Manel Loureiro , Andres Alfaro (Translation)

After a tragic car accident shatters her body and mind, Cassandra struggles to piece together her life as a respected psychiatrist and devoted mother. But the accident has changed her. Her eyes have been opened to horrors she never knew existed. Is her family really under attack, or is it all in her mind?

While Cassandra tries to prove the feeling of being stalked, her police-investigator husband, Daniel, hunts a killer of his own. As both the body count and Cassandra's hysteria rise, Daniel becomes obsessed with the case and suspicious of Cassandra's part in it. Afraid of losing her increasingly fragile grip on reality, Cassandra plunges into a search for answers that may come at the cost of her sanity. Racing to a shattering confrontation with an evil she can barely comprehend, Cassandra must decide: How far will she go, what darkness will she embrace, to save those she loves?

More fantasy than horror. Engrossing gread.

### **Joann says**

I won this free Kindle download on a Goodreads Giveaway and from Amazon. I thought it might be fun to read a horror type book. In all honesty, I couldn't wait till I finished the book, which I did, but I skipped through it a lot. I guess I'm just not into the dark forces, Light Born and the auras. I guess if you enjoy this type of book then it would be one you'd want to read. It's also a bit gory.

### **Annette Jordan says**

A thrill ride of a book , and my first by Manel Loureiro, but definitely not the last. At first this seems like a slightly weirder than average thriller, as the book opens with plenty of drama as two young women are pursued through a remote forest, but it's what happens when their pursuers catch up to them that lets you know that something stranger and more sinister than you imagined is going on.

While Daniel, a cop, is investigating, he receives a call that will change his life, his wife Cassandra has been involved in a terrible accident, and may not survive. However survive she does, but on waking from a coma she is irrevocably changed, and has abilities that she cannot control or understand. Not only that but they seem to have made her a target for an enemy more dangerous and evil than she could possibly imagine. Dark, twisted, chilling and above all entertaining, this is the definition of a page turner, as events continue to escalate and Cassandra is driven to actions she would never have thought possible, and we as readers are dragged along for the ride as she faces monsters beyond imagination that have plagued humanity for generations, amid fears she is losing her sanity and destroying her marriage and career.

### **Linda Strong says**

Cassandra is involved in a tragic auto accident and miraculously survives. But the accident has changed her. She sees auras and bright lights and horrors that come out of nightmares.

When she's finally released from the hospital and home again, she feels that she's being stalked. Strange markings are appearing that apparently only she can see. There is always a murder, an accident, something that takes a life in the vicinity of these markings.

As the body count grows, her police-investigator husband, Daniel, is looking into several strange deaths. Some of the evidence is pointing to Cassandra.

Cassandra can't tell anyone what she believes ... no one will believe her. At least no one except a doctor in a psychiatric hospital who sees what Cassandra sees.

This is billed as crime fiction .... but there is an element of horror, as well. The translation was done perfectly.

When I first started reading, my first reaction was not positive ... I don't do horror. As I kept reading, I was drawn into Cassandra's life. The characters are richly drawn. And the story got better the more I read. The ending came fast and furious and so unexpected.

Many thanks to the author / Amazon Crossing / Netgalley for the digital copy of ONLY SHE SEES. The opinions expressed are unbiased and entirely my own.

#### *Fast-paced breathtaking thriller*

Awesome listen!

**Kate Rudd** narrated Only She Sees and did a fabulous job.

Cassandra is a psychiatrist, wife, and mother whose life takes a turn after a traumatic car accident. Following the car accident Cassandra learns she can see people's auras. She encounters 'The Dark Ones' and her mission then becomes to stop the 'The Dark Ones'

I really enjoyed this book. Although some parts, I was quite confused and I had to rewind and re listen. I fell in love with Cassandra. She starts off as this feeble woman who has issues in her marriage and all she wants is to be loved by her husband after this car accident she does a 360 and becomes this strong woman who fights for her family and herself and she is no longer scared of anything.

I loved the growth both Daniel and Cassandra go through. They both realize how destroyed their marriage is and the series of events throughout the story help mend their relationship. As husband and wife they see how much they truly do still love one another and fight for their marriage and son.

The ending was pretty cool. I felt that it lingered a bit meaning possibly a sequel?  
Definitely won't be the last time I pick up anything by Manel Loureiro

#### **WOW!! What a great read!!!**

This is a great read. I usually read fantasy books, but this mystery book was in my recommended list and I thought it looked like it might be good. I am so glad I read it! It has a touch of fantasy with the auras and stuff, but I wouldn't really call this a fantasy book. It's more mystery, and a great read! I definitely

recommend it!!!

Laura (narrator) & Eva (Laura's BFF) were out clubbing.

They had never gone home with guys before.

Eva though was not who she appeared to be!

Detective Daniel Arlaz (husband/father, PD homicide), Detective Roberto Millón (Daniel's partner, PD homicide), ME, & CSI were at the crime scene.

Daniel got a call. He & his partner rushed to the next accident.

It was Cassandra Arlaz (32, wife/mother, Psychiatrist) who worked at the Mental Wellness Center.

Logan Dawson (44, American patient, paranoid Schizophrenic, Brownfield, VA.) is there also.

The car was totally demolished.

Martin Arlaz (son) asked his dad if she was going to get better.

Mrs. Perla Mendoza (80+) had been keeping & eye on Martin & Daniel. She cooked their so-called meals for them.

Not fully recovered Cassandra finally came home.

Perla's house exploded like a bomb. It was engulfed in flames.

Amedo (security guards) let "Cassy" through the gates of the Long-Term Institution for Special Treatment Patients (aka Junkyard).

Dr. Beltran & Dr. Jose Tapia worked there also.

2 more murders: Eva Pazos (22, clothing retail clerk), & Laura Ojea (25, clothing retail clerk), & lots of so-called accidents.

What is the Radiance? Or the Dark One? Or the Gray One?

Silvano still couldn't believe Silas was dead.

What did Silvano tell Cassandra to do?

Warning: This book is for adults only & contains extreme violent or graphic adult content or profanity &/or sexually explicit scenarios. It may be offensive to some readers.

I did not receive any type of compensation for reading & reviewing this book. While I receive free books from publishers & authors, I am under no obligation to write a positive review. Only an honest one.

A very awesome book cover, great font & writing style. A very well written very bizarre paranormal book. It was very easy for me to read/follow from start/finish & never a dull moment. There were no grammar/typo errors, nor any repetitive or out of line sequence sentences. Lots of exciting scenarios, with several twists/turns & a great set of unique characters to keep track of. This could also make another great paranormal movie, or better yet a mini TV series. A very easy rating of 5 stars.

Thank you for the free Goodreads; MakingConnections; AmazonCrossing; Amazon Digital Services LLC; book

### **VEDA says**

When I read the first chapter it was late night, I immediately put book down and went to bed. It was a little bit "scary". I thought I would not read anymore, but I was compelled to find out what happened. I really, really enjoyed this book. It was an easy read, and I am so looking forward to the next chapter of the characters. There has to be another book, the story has to move forward.

Way more supernatural than expected but I didn't mind at all. Exciting story about good vs. evil.

### **Stacy says**

#### **Good or evil**

At the start you think it's gonna be a detective story then the supernatural part comes out. I was pretty confused through most of the beginning, but held out. Turned out to be a pretty good story.

#### **Only she sees**

It was ok, not really my kind of book, didn't get into the story, but to each it's own opinion for this book.

---

### **Bookworm LLC says**

After a car accident Cassandra starts seeing other peoples auras. She knows there are the "black ones" out there trying to kill her and she is determined to use her new found "powers" to make sure to keep herself and her family safe.

That is basically the gist of the story. I was enjoying the story until the whole aura thing went a little to far. There is a lot out there I believe in but being able to throw someone across a room with your mind is not one of them.

I feel the author had a great set of characters but just didn't do enough with them to make this story a five star story.
