## Play for Keeps L.P. Maxa

Dash and Lexi have been planning their Seaside wedding for months, and the closer the date gets, the more it looks like this marriage will never happen.

### FIRST COMES LOVE THEN COMES MARRIAGE?

They had a deal. Get married, have another kid. But Dash is convinced Lexi isn't feeling it. She's working 60 hour weeks at RiffRaff Records, and - if you can believe this - she's avoiding him. Plus the family is going crazy. Dylan's pregnant, Smith's a wreck, Luke and Lo have become moguls and Jacks...well, Jacks is Jacks. Then things get really dicey and the wedding is postponed. Hey! What happened to Dash's happy-ever-after? Worried? Don't be. The Devil's Share women got this.

#### **Loved it!!!!!!**

Really enjoyed this book. I know we are going to get more from L P Maxa but I don't want to see the end of these amazing characters. You get so into the characters they almost seem real, and to myself that is an awesome thing. This author draws you in and just captures you in these lives. My heart aches to see the end. This book was done in every POV from each character from all of her books and loved it. It was like revisiting everyone and was done brilliantly. The drunken tattoo scene in this book was soooooo freaking hilarious. Just really everyone whom loves RockStar genre of books needs to check this series out. And my last statement is this.....

We're going to the chapel and we're going to get married.....did you sing that line??? I sure did while typing it lol!!

Thanks Jamie Nibarger Ellis

Loved Devils Share from the very first book and this one takes us full circle - Dash & Lexi are getting married finally ?? Seems Dash doesn't think so as Lexi's new position at RiffRaff Records has all her attention, plus that of their year old daughter. LP Maxa takes everyone in the band and all their significant others and wraps them up with a nice big bow - I had this book for what seemed like forever and hated to say goodbye to Dash, Jacks, Smith & Luke - but this isn't really goodbye - it's tune in for the next generation and I can't wait

#### **Happy Ending**

This was the cherry on top of the sundae or the cherry at the bottom of a Fireball shot... Either way this conclusion of the rock family we all know and love was spot on. The family grew, demons were put to rest, and the toast of the century was made in honor of the two the started it all Lexi and Dash.

Just wonderful

**A TEN in my book. I didn't want this Series to end**

Dash/Lexie, Smith/Dylan, Jacks/Bryan, and Luke/Harlow - Family. I am new to L.P. Maxa's writing but I can assure you she has become one of my favorites. Ms Maxa's writing flows like the lyrics of a song. She made me fall in love with this family of friends. Unlike most series, she kept all the characters together and as the reader I completely enjoyed watching them grow and evolve into rich, warm, loving, fun characters. At times, it was hard to remember these were fictional characters and not people living in another state that I truly wanted to hunt down and meet. Well done Ms Maxa! I look forward to your future endeavors. Happy Reading!

This is a definite recommendation.

First off I was honored to receive an arc of Playing for Keeps. L.P. Maxa is a brilliant author. I have read each book in this series and each one surpasses the last. To keep all the characters in order in all the books remarkable feat. I feel as if I could pick up any this series and read it as a stand alone with how well L.P. tells the story. Now onto the book Play for Keeps. Well lets just say Dash and Lexi own this book however you find more out about the family. Dash is trying to get Lexi to say I Do but everything comes up or gets in the way... Will Dash have his HEA? Grab your copy today and find out. I just love how L.P.'s characters come to life. One can easily place themselves in the scene and make them feel like they are right there. Books must have 4 elements to be good. They must make you laugh, cry, want to throw them and lastly not want to put

them down until that last page is turned. Playing for Keeps captured all 4 elements and then some. I highly recommend this book and the series to everyone.

*"Life tended to move fast when you were in the Devil's Share family."*

**Play for Keeps** was a short guilty pleasure that brought me up-to-date in the lives of some of my favorite rockstars. While it's centered around the **planned** wedding for Dash & Lexi, it actually involves the whole Devil's Share family of characters. It was like a reunion and I gobbled up every word, loving every page.

I'm very excited that the author decided to start a spin-off, the **RiffRaff Records** series. I'm totally addicted to this family and can't get enough of them. After reading the short excerpt at the end of this book for **Royalty**, I will most definitely be one-clicking within the next five minutes. Look out Mason, here I come. The line forms here...

My Rating - 5 Stars

What a great way to wrap up this series. I have absolutely loved each book. It is so hard to find a rock star romance that is not weighed down with super heavy material. But this series has stood out as a fun outcast within the trope. However, there is just enough drama and real topics to make the storylines seem too fluffy.

All in all, this book was a great way to bring back all of the characters we fell in love with. I smiled multiple times while devouring this story due to its wit and banter. I can't wait to read the next spin-off series, hopefully some of these characters will make an appearance.
