## Reaper Delilah Devlin

"As a general rule, Reaper didn't like working with a partner, especially female partners. When working a warrant, he preferred to keep his head down and follow the leads. He didn't like the "chatter" that usually accompanied working with a woman.

However, partnering with Jamie Burke had taught him a few things. There were women who could focus on the job at hand without letting silly distractions get in the way of his concentration. Jamie was one of those rare creatures who didn't gossip, didn't get into his business, and could actually be useful when shit went sideways and they had to get physical. Her methods of subduing a target weren't ones he'd ever employ, but she knew how to compensate for her smaller frame and lesser strength. Over the months since their boss, Fetch Winter, had put them together, Reaper had come to admire the woman's grit and ingenuity.

Case in point was their present predicament..."

See what happens when Reaper has to deal with a ride-along author who, when shit goes sideways, proves his first female partner's "grit and ingenuity" weren't just lucky happenstance, and who challenges Reaper's relationship rules...

## **From Reader Review Reaper for online ebook**

### **Carissa Marks says**

Reaper & Carly are perfect foils until you look a bit deeper & see they really are two of a kind. Neither is willing to take crap from anyone. To be honest, I had no clue who the author was, but when the book landed in my lap, her name was added to my list to read more of. I do tend to like longer books but this was a great length for a rainy afternoon. It was fast-paced but nothing was lost. I seriously laughed out loud at a wedding scene- you'll have to read it to see why.

---

### **Kerry Williams says**

I love this new series by Ms. Devlin. I love the strong alphas meeting their match in the strong women. Reaper meets his match in Jamie. I loved how she just was up in his face , and didn't let him get away with anything. Reaper just reaches out and grabs a hold of your alpha bad boy loving heart. Ms. Devlin is the queen of short reads that will knock your socks off.

---

### **Sandy Digger says**

#### **Reaper**

Hot and steamy, this is a bounty hunter story with a bonus short story at the end. It's all about how female hunters can do as good a job as the guys and still make the guys drool. If your looking for a story with heat this one certainly fits.

---

### **Cindy ~ says**

Action, humor and a fast paced romance kick off this new series about Montana Bounty Hunters.

Reaper Stenberg comes off as crude and rude at the start of the book but even with his alpha mindedness he still gives his female partner credit on being able to handle herself and the skips on the job.. That being said though he isn't too happy when his boss assigns him a ride along on the job. See Carly Wyatt is a romance writer doing research on bounty hunters for a upcoming series. Reaper naturally assumes she is just some piece of fluff at first but soon finds out she served in the Army with his boss and is no shrinking violet.

You can tell the author did her research herself on bounty hunting as all of those scenes were great and action packed. The romance moves at a really fast paced but that's pretty on par with these lengths of books and the chemistry between Reaper and Carly was smoking from the start.

Looking forward to more stories in the series...

## **Rebecca A. Bamford says**

### **Raw, rough, and ready for action!!**

Loved this book. It was fast paced, interesting, with full characters and good plot. Reaper is a rough, straight shooting Bounty Hunter who works just fine alone. Carly is just a ride along author doing research for her next book. But the best story happens between these two. These two getting together is fun and exciting.

---

## **Jennifer Lovins says**

### **Hot**

Hot quick read. Reaper doesn't think women make good partners. Though he has gotten use to Jaime and feels can hold her own. Then his boss has him have an author as a ride along. The fist day they meet he is in a foul mood. Can Carly bring him out of his bad mood or will she cause him to have a heart attack? Will he change the way he thinks about women?

---

## **Deb Fernow says**

A fun story about a tough woman who can keep up with an equally tough bounty hunter!

It is refreshing to read a love story and know the characters aren't billionaires, rich musicians, or pro athletes.

I wasn't ready for it to be over! There could be so much more to tell!

---

## **Elysian Fields says**

Such a fun read!! I loved this book, it was witty, steamy, passionate and funny. The characters were great and the plot was fun, action packed. I will be reading the rest of this series and cannot wait to do so.

---

## **Rainey Scribbles says**

\*Disclaimer: I received an advanced copy of this book in exchange for an honest review of the book\*

Reaper is out and I am so excited!

This book lays the ground work for her Montana Bounty Hunters series and Delilah Devlin delivers. Reaper Stenberg does not want to work with writer (author-ess!) Carly Wyatt and he does his best to get rid of her. However, sparks fly and the fun ensues.

Check it out and get ready for a fun new series from an author who knows how to blend fun, sexiness and humor.

---

### **Ann says**

A bada\$\$ bounty hunter, a snarky female who gives as good as she gets, danger, suspense, fun, and lots of smexy-times....I enjoyed everything about this book and wanted more. I can't wait to read the next book in the series.

I won a copy of this book via a FB party without expectation of a review. My thoughts and opinions are my own.

---

### **ButtonsMom2003 says**

This is a fast paced, smoking hot story - just like I've come to expect from Delilah Devlin. Reaper and Carly have great chemistry and their love scenes are WOW! The romance moves quickly but that's to be expected with a novella length book. Delilah's writing never leaves me feeling like anything's missing, no matter the length of her book.

I'm ready for more stories in this series. I borrowed this book through KU.

---

### **Chrissy says**

This is the first book, in this new series. Reaper is a Marine veteran, who became a bounty hunter is partner Jamie holds her own. However, you don't see her much do to her planning her wedding. As such, he gets a new partner a writer named Carly. Sparks fly when they meet. Omg, does it ever let's just say it's off the charts. They do bounty hunting as well together. This book is full of romance HOT Steamy romance and action. I can't wait to read, the other books in this story.

You can read a Big Sky Seal, for Jamie's story and some background info on this book. This book can be read as a stand alone, but just in case you feel lost.

I did receive a copy of this book, however I choose to do a review. I really enjoyed this, and I am looking forward to reading more in this series.

---

### **Diane Lloyd Kliebenstein says**

#### **Short story at the price of a full-length book**

When a story is only 150-ish pages, you have to figure you won't get a lot of character background or development. I noticed that the most recent "book" in the series is only 93 pages, yet still the price is in the \$4 range. If you want to do a series of short, related stories, issue them as a collection for a reasonable price,

like, under \$10. Especially when you are already a recognized author who has written full-length books.

Story was Somewhat entertaining, heroine was strong, hero was attractive, but there was so little development that I am really not motivated to buy any of the rest of the series. Especially at this cost, and without Audible availability.

---

### **Jae says**

So much fun.  
Can't wait for book #2.

---

### **Fedora says**

Great start to an exciting new series by Delilah Devlin!

Reaper is the nickname of a very alpha bounty hunter. He's used to working independently, but has learned that his female partner is actually excellent at her job and he admits she's become a good friend and partner. Now that she's getting married, he's almost ready to admit to himself that maybe there are other women out there who might be similarly terrific people ;)

When his boss saddles him with a writer (of romance, no less!) for some ride-alongs, his initial instinct is to be cold and uncooperative (because that's so foreign to him ;)), but once he meets Carly Wyatt, the author in question, he comes to change his tune.

Carly is smart, straightforward, and not about to let some guy shut her out just because. She and Reaper set the sheets on fire, and they come to really appreciate the partnership they form outside the bedroom as well.

Ms Devlin's story is fun, fast-paced, and delicious. Looking forward to more stories in this series!
