When Violet's best friend and first true love Christian Anderson's family moves to England, she isn't worried. After all, he promised her he'd come back for her one day. Although when ten years pass and Violet hasn't heard from him, she's given up on ever hearing from him again.

But when she finds herself reading an email from Christian, inviting her to come to England and visit him, everything changes. Suddenly, Violet finds herself in a new country, visiting with one of the most famous rock stars in England.

Christian is still incredibly sexy, Violet knows that, but has time sent them too far astray, or will they still be able to rekindle the fire that existed almost a dozen years earlier?

This 11,000 word erotic romance is the first installment in a four-part series detailing the love between Violet and rock star Christian Anderson.

It's an ok story as this book is free, it's a very short story, the story line is very all over the place and rushed but then at the end it leaves you hanging , you then get the option to buy book#2 to download at 1.99 again this takes off where another short story finished, again this is another short story ending on another cliff hanger so,you pay for # 3 then book #4 you end up paying 6.00 for the whole thing - which is a rip off so don't buy it! It's shocking when ppl get away with doing this to genuine readers

Normally these kind of stories would be up my alley but this book was just an ok read. It wasn't bad but it wasn't great. It is about Violet, who gets an email from her first love, Christian, asking to meet again. If it were me I would have asked a lot more questions to why he wanted to get back into contact with her, especially after 11 years of no contact whatsoever. Before he left he even promised to come back and be there for her. The whole story was way too rushed. Christian and Violet went from reuniting and then the story went to a few weeks later. The story ended shortly after that and then they were already moving in with each other and telling each other that they loved one another. They both acted like nothing was wrong with Christian leaving Violet in the dust after moving to England. I felt like there was no real connection between them because we don't really get to see what happens between them or how they bonded. This book definitely had a The Mighty Storm feel to it but it was seriously lacking. This story could have been so much longer and it would have been so much better. I know its a series but its missing so many key parts to a good beginning of a story. This is just an ok read for me.

I really don't know what to say about this book. I can see the potential for this story line but at the same time it just doesn't seem real. I mean seriously, this story goes from two kids that are barely teens that have known each other for most of their lives to two grown adults that haven't seem one another for over 11 years and they just fall back in to one anothers arms. They hadn't even spoke over the phone, and just passed a few emails before Violet flies all the way to another country to see Christian whom she barely knows anything about any more and after spending one night in each others arms they are now going to live together....seriously!!

Oh and the line from Christian to Violet when he's about to go down on her...."Just relax, I know what I'm doing"....really??? That just made me cringe!!!

I can't put my finger on what I did not like about this book. Maybe it was nothing or just the fact that it was such a huge time jump that it bothered me. 11 years later if my ex-best friend sent me an e-mail to come visit with no other communication I would have probably given him the middle finger. Good writing just was not

in love with the story.

Patty says

Seems too fast and not enough substance to the story.

Patty says

Meh.

It was free. Poor plot, boring story and unrealistic.

Joanna R says

I liked the story. Violet and Christian were childhood sweethearts and when Christian relocates to England Violet never gives up on the idea of seeing him again. Very fast paced and HEA which was good but it was too rushed

Tia says

Way too rushed and the characters aren't developed at all. It seems really sterile and emotionless.
