**Seduction** Alana Sapphire  
FULL-LENGTH NOVEL & STANDALONE

It's not just physical...

\*\*\*Ellen\*\*\*

Lonely.

Alone.

There's a distinct difference between the two, but what happens when you're not one or the other, but both? Four years ago, I lost my old man and a part of myself. My son is the only thing keeping me going.

I thought a casual relationship was the answer to my loneliness, but being the princess of the Death Dealers MC keeps the men away. As my brother's best friend and VP, Einstein seemed to be the perfect candidate. I tried to seduce him, but he may have changed the rules of the game. Dr. Jon Emerson wants to heal a part of me that's broken.

I only wanted to give him my body, but will he claim my heart as well?

\*\*\*Einstein\*\*\*

Sex.

Making love.

The two acts are worlds apart, and I'm tired of the former. Endless encounters with random women have never been fulfilling. I want more. I never thought Ellen Hunter would be the one to give it to me. Not only is she my best friend's little sister, but the mother of a fallen brother's child. She thinks she can fill the void in her life with meaningless sex, but I'll be the first to tell her it's useless.

She's opened my eyes to what we could be together, and I won't let her walk away. I'll teach her that seduction is not just physical. Her body may be all she's offering, but I want it all.

She'll let me in, even if I have to break down every wall she's built around her heart.

### **Jaymie says**

4 Stars!

Ellen lost her Old Man 4 years ago. Now a single mother to their 4-year-old son and still mourning his death, she's starting to realize she's in need of a little physical intimacy from a man. However, as the sister of the MC President and daughter of the former President, finding a willing bedmate in town doesn't seem to be possible. With a nudge from her new sister-in-law, Ellen sets her sights on Einstein, MC Vice President and gorgeous Doctor. Unfortunately, like all the men around her, Einstein doesn't seem willing to jump in bed with her. What's a girl gotta do to get a little?!

Jon aka Einstein isn't the typical Biker. While he loves his club and his brothers, he also has a desire for a life with a beautiful and loving wife, kids and a home. He has no interest in casual hookups or the club girls. If only he could find the right woman. Unfortunately, he's not sure Ellen is that right woman, after all she's still mourning his club brother, not to mention she's his best friend's little sister.

But a rebuffed proposition has both Ellen and Jon opening their eyes and realizing the opportunity for love might have been right in front of their eyes the whole time. Jon will have to take things slow and steady. Ellen will have to come to terms with feeling something for another man for the first time since Eddie. In the end, they'll both find something worth fighting for.

This is my first book in the series but I didn't feel like I was missing out by not reading the previous books. I found Seduction to be quite enjoyable and while I might label it "MC lite", it's definitely worth a read. This is a Friends-to-Lovers story as well as a story of second chances, loss and family.

While it's not as gritty and action-packed as many of the other MC Romances that I find myself reading, we still get a taste of the lifestyle towards the end of the book that I've come to expect when reading about big bad Bikers. I liked both Ellen and Jon and, honestly, Jon was like no Biker I've ever read about. He was sweet and chivalrous, sexy and Alpha all in one hot package. His protective paternal side also melted my heart. Ellen was indeed a lucky woman.

There is not too much angst in the story which added to the sweetness of the romance. The drama was really kept to a minimum by no visible Club Girls. As was the action involving the MC that was resolved fairly quickly. It all made it an enjoyable story.

### **Darla Boyle says**

**I loved Einstein and Ellen's story**

The first part of the book is the love story of a still grieving Ellen and a lonely Einstein. The characters were very well written. Ellen and her son offer some humor.

The second half of the book is suspense. There were some twists and a villain I hadn't expected. I couldn't put the book down.

Another HUGE plus for me is that its an entire novel, with a beginning, middle and end. No cliffhangers! This could probably be read as a stand alone also. The author gives small hints to Gage and Raven's story without giving away any spoilers.

---

### **Jennifer Pierson says**

Ellen Hunter, Gage's sister, has been alone for the past four years, after her Ol' Man, Eddie died. After witnessing her brother finding happiness, she realizes how lonely she is, even though she loves her son. Einstein is the VP of the Death Dealers MC, not to mention Dr. Jon Marcus Emerson on the side, who is really starting to see how lonely he is. He wants his own forever, but when Ellen tries to sleep with him with not strings, he is conflicted as she's his best friends little sister, and frankly, he knows that meaningless sex isn't the way to go. Will he be able to heal her without her walking away? I have come to admit that I have a weakness for MC books these days, and I LOVED Seduction so much! One of the most awesome things about it, is that this VP is a doctor on the side, which makes it different from the norm. Alana Sapphire has a talented writing style that drew me in from the beginning, and I couldn't put it down until the last page. Not only is the sexy scene goodness SMOKIN', there is something poignantly sweet as well. And her characters are super easy to fall in love with instantly, and I find that they will be tattooed on my heart permanently. I cannot wait for more of this AWESOME series, and I have to end with HIGHLY HIGHLY HIGHLY RECOMMENDING this very addictive series to ALL!

---

### **Chasidy says**

I could not put this book down!

Ellen sets out to seduce Einstein, the VP of the club. He constantly tells her she's not ready? Will she ever be able to convince him or is she truly over her late husband? This was my first book by Alana, but will not be my last. Seduction is part of the series, but can be read as a standalone. I look forward to going back and reading the previous books in the series. It is full of family, suspense, and love. I recommend this book to read!

---

### **Kathleen Lemke (Page) says**

I really enjoyed reading this book! I been waiting to read Dr. E's book for awhile and I was not disappoint! Him and Ellen's chemistry are off the chart. Get ready for some steamy sex scenes!! Dr. E is a great H, that isn't a male whore. Ellen is a strong well rounded h, who deserves her HEA. And don't get me started on how cute Mickey is! I love reading books when there is a child involved. And bonus is that we get more of Gage and Raven (who are one of my favorite couples).

---

## **Meghann Walker says**

### **Loved this book!**

As a testament to how much I LOVED this book! I read the entire series in 2 days, yrs 2 days!! This was my introduction to Alana Sapphire and I have to say, I've found a new author to read!! Totally in love with Einstein!! And how lucky is Ellen to have found great love twice!!

---

## **Duba says**

3-3.5 stars for me

It was a very light MC read. I usually love good biker stories (not too dark but a little bit bad), and this was a very light biker story. I would recommend for someones first MC book as it does not have a lot of dark themes, cheating or fights.

I didn't really like that h was sooo hung up for her dead fiance (and father of her child). Most of the book she fights her feelings for H because she is still in love with dead fiance (dead as 4 years dead). Constantly is mentioning how she loves him, that he is the love of her life, how her hart belongs only to him... Well, this was a small problem for me, but if the roles where reversed I would really have a BIG problem. Fortunately H has only eyes for h....

---

## **Ashley Boone says**

This is a voluntary review of an advance copy.

Oh Dr.E. how I love you!

I wasn't for sure what to expect when it came to Einstein and Ellen but I can honestly say that they made me fall in love.

I love how patient and understanding he was with Ellen. How he wasn't afraid to get his hands a little dirty for his girl.

I don't want to say too much because I want everyone to fall in love the way I did.

Also don't go into this expecting a "RAGE" story, because it's not.

This is Einstein and Ellen's.

And they are E squared!

---

## Tracie Simister says

I gave this Book a rating of 4 ☆'s

Title: Seduction

Series: Death Dealers MC Book 4

Genre: MC Romance

Author: Alana Sapphire

Format: Kindle Edition

Published on: Mar 6, 2017

I voluntarily reviewed a Free Courtesy Advanced Reader Copy of this book

>-<>-<>-<>-<>-<>-<>-<>-<>-<>-<>-<>-<

Character's Descriptions:

Ellen Hunter is the daughter of the retired MC President, The sister of the new MC president, and a single mother.

Einstein (Dr. Jon Emerson) Is the VP of the Death Dealers

>-<>-<>-<>-<>-<>-<>-<>-<>-<>-<>-<

Summary Paragraph:

Dr Jon goes by Einstein in the death dealers MC he is the VP and the Presidents best friend. He shouldn't want her but he does. Can her go after the president's sister and come out alive or not?

>-<>-<>-<>-<>-<>-<>-<>-<>-<>-<

What I liked/Didn't Like: Loved the twist in this book of the girl going after the guy first. It was refreshing. Loved the characters as well as how Einstein dealt with wanting the single mother

---

## Donna Parrott says

Just a heads up all, Seduction picks up right where Deception left off. Now remember Deception is a novella that takes place a little while after Claimed. So if you get lost check those out. In fact so what you're doing get those and then read Seduction.

Ellen is Gage's sister, and now that he had found happiness with Raven she is realizing just how lonely she is. Ellen has been grieving for her man Eddie for for years now. All it took was Raven to say she could get to know Einstein she starts to see him in a new light and not just as her big brother's best friend.

Einstein is VP of the Death Dealers MC. He loves being apart of the MC Brotherhood. He is happy and loves the fact his best brother Gage has found love but Einstein is lonely. Seeing his brother so in love only shows him what he doesn't have. He loves being part of the MC, and he loves the fact that his best friend and MC brother Gage has found love in Raven. But this only shows Einstein what he doesn't have.

Ellen makes her attraction known and it completely throws Einstein for a loop. Einstein knows she is gorgeous, they have known each other for a while, she is family, and she is a forever girl not a club woman. The only problem she is his dead brother's old lady and mother to their son.

Plus she is still his best friend's little sister, and he knows for a fact that she still grieves for Eddie. Einstein is struggling because he doesn't want to lose her as a friend or betray his brother. He definitely doesn't want Ellen to be just a one time thing, he wants forever. With Ellen letting him know how she feels, opens his eyes to the possibilities of what has been in front of him the whole time.

This book had me a little emotional. At times i wanted to just put these two in a room and throw away the key. This book had all the aspect that you want from a MC romance. The action that seems to find the MC is what brings me back to Alana Sapphire's book. I love MC romance and there is just something about her books that draw you in. They are action packed from page one. You are on the edge of your seat reading them. I wish she would make a TV series because let me tell you the Death Dealers MC would give SOA a run for their money.

She has a way of pulling you into their world and never letting you go. I mean come on operation seduce Einstein had me giggling like a schoolgirl. The way Einstein pulled her out of her darkness had me loving these two even more. They are perfect for each other in every sense of the way. Everything they go through turns out and makes them that much stronger. All the life and deathness that transpire in this has a unique way of bringing them all together. Seeing death that close does bring things into perspective right. I can't forget about Mikey, that little boy makes the book that much more funnier. That little boy is so darn cute, i just wanted to squeeze him.

---

### **Amy Davies says**

#### **Loved**

Totally love this series. And I loved Jon + Ellen's story. It was heartfelt, sweet and sexy. Looking forward to the next book.

---

### **Denise McLendon says**

#### **LOVED IT!!!**

Can't get enough of the death dealers Alana Sapphire is now in my top 20 of favorite authors. I'm traveling on vacation any missed spot where I cannot get Wi-Fi so it is killing me that I can't purchased next book i love the series so much maybe I'll just go back and read the first book I purchased and start over again lol

---

### **Blueleo says**

#### **Friends to Lovers!**

I really like this series, Cage and Raven are explosive and passionate together. Now Jon and Ellen are reassuring that you could love again, are also passionate but more mature, stable, adorable, is two friends falling in love. Love there story they had chemistry, adventure and sadness, didn't like that part at all.

---

### **Jenna says**

I adored the first Death Dealer MC books but this one is my favorite now!! Prepare to laugh, cry and swoon! This is the story of Ellen, Reaper/Gage's sister and his best friend and VP Dr. Emerson or as I love him, Einstein. I loved this story bc it showed the sweetness of Einstein which we saw bits and pieces of in the first

books but also his naughty side ; ) Ellen struggles with her guilt of moving on from her first love and Einstein struggles with his feelings and helping her realize what she could have. Of course there's some trouble brewing and that interferes the process. Also, be on the lookout for a hilarious scene with Venom and little Mikey too that I just adored. : )

---

### **Gloria: Little Shop of Readers says**

Seduction is about Ellen who after mourning her Old Man's death for four years starts to see her friend, Einstein , in a new light. She is very lonely and decides to seduce Einstein. Einstein, suddenly starts seeing Ellen as a lover even though they have been friends. Alana shows us the sweetness in Einstein as he starts to date Ellen. Sparks fly and the chemistry explodes. Einstein loves his MC brothers but he also loves being a doctor. I loved this friends to lovers love story. and Einstein's relationship with Ellen's 4 year old son is precious
